The Death and Life of Main Street Miles Orvell, 2012-10-01 For more than a century the term Main Street has conjured up nostalgic images of American small town life Representations exist all around us from fiction and film to the architecture of shopping malls and Disneyland All the while the nation has become increasingly diverse exposing tensions within this ideal In *The Death and Life of Main Street* Miles Orvell wrestles with the mythic allure of the small town in all its forms illustrating how Americans continue to reinscribe these images on real places in order to forge consensus about inclusion and civic identity especially in times of crisis Orvell underscores the fact that Main Street was never what it seemed it has always been much more complex than it appears as he shows in his discussions of figures like Sinclair Lewis Willa Cather Frank Capra Thornton Wilder Margaret Bourke White and Walker Evans He argues that translating the overly tidy cultural metaphor into real spaces as has been done in recent decades especially in the new urbanist planned communities of Elizabeth Plater Zyberk and Andres Duany actually diminishes the communitarian ideals at the center of this nostalgic construct Orvell investigates the way these tensions play out in a variety of cultural realms and explores the rise of literary and artistic traditions that deliberately challenge the tropes and assumptions of small town ideology and life

Hard Times Richard Striner, 2018-08-15 *Hard Times* presents a comprehensive account of economic depressions in America from colonial times to the great recession that began in 2008 Written in crisp prose for a general audience the book synthesizes a narrative account presenting the known facts about how particular depressions started the effects upon people in different walks of life the policy debates about what if anything to do in order to ameliorate the situation and how these depressions ended with analytical commentary on the economic patterns underlying and transcending depressions and the debates among economists and policymakers in regard to their causes While these economic downturns have created suffering and hardship Striner also conveys how Americans have always endured and rebounded from hard times

Picturing Migrants James R. Swensen, 2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck's *The Grapes of Wrath* and the photographs produced for the New Deal's Farm Security Administration FSA now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck's novel and the FSA's photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in

California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer understanding of the FSA's work to publicize the plight of the migrant in the wake of the novel and John Ford's award winning film adaptation A new perspective on an era whose hardships and lessons resonate to this day *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression unforgettably real for generation after generation

A Staggering Revolution John Raeburn, 2010-10-01 During the 1930s the world of photography was unsettled exciting and boisterous John Raeburn's *A Staggering Revolution* recreates the energy of the era by surveying photography's rich variety of innovation exploring the aesthetic and cultural achievements of its leading figures and mapping the paths their pictures blazed public's imagination While other studies of thirties photography have concentrated on the documentary work of the Farm Security Administration FSA no previous book has considered it alongside so many of the decade's other important photographic projects *A Staggering Revolution* includes individual chapters on Edward Steichen's celebrity portraiture Berenice Abbott's Changing New York project the Photo League's ethnography of Harlem and Edward Weston's western landscapes made under the auspices of the first Guggenheim Fellowship awarded to a photographer It also examines Margaret Bourke White's industrial and documentary pictures the collective undertakings by California's Group f 64 and the fashion magazine specialists as well as the activities of the FSA and the Photo League

The Day in Its Color Eric Sandweiss, 2013-06-01 Charles Cushman 1896-1972 photographed a disappearing world in living color Cushman's midcentury America a place normally seen only through a scrim of gray reveals itself as a place as vivid and real as the view through our window *The Day in Its Color* introduces readers to Cushman's extraordinary work a recently unearthed archive of photographs that is the largest known body of early color photographs by a single photographer 14 500 in all most shot on vivid color saturated Kodachrome stock From 1938-1969 Cushman a sometime businessman and amateur photographer with an uncanny eye for everyday detail travelled constantly shooting everything he encountered as he ventured from New York to New Orleans Chicago to San Francisco and everywhere in between His photos include portraits ethnographic studies agricultural and industrial landscapes movie sets and media events children playing laborers working and thousands of street scenes all precisely documented in time and place The result is a chronicle of an era almost never seen or even envisioned in color This well preserved collection is all the more remarkable for having gone undiscovered for decades What makes the photos most valuable however is the wide range of subjects landscapes and moods it captures snapshots of a lost America as yet untouched by a homogenizing overlay of interstate highways urban renewal chain stores and suburban development a world of hand painted signs state fairs

ramshackle shops small town living and bustling urban scenes The book also reveals the fascinating and startling life story of the man who stood unseen on the other side of the lens surely one of America's most impressive amateur photographers and outsider artists With over 150 gorgeous color prints *The Day in Its Color* gives us one of the most evocative visual histories of mid 20th century America that we have

identifies female stereotypes in classics such as *To Kill a Mockingbird* and in the work of later writers Dorothy Allison and Rick Bragg who embrace and share in a poor white background *The Angelic Mother and the Predatory Seductress* reveals that these literary stereotypes continue to influence not only society's perception of poor white southern women but also women's perception of themselves
