Randall Moss, 2007-04 Merging medical science with biblical principles this text details the longevity principles in this life that are supported by the latest medical research Practical Life *Aging in America* Lawrence R. Samuel, 2017-01-31 Aging is a preoccupation shared by beauty bloggers serious journalists scientists doctors celebrities arguably all of adult America given the pervasiveness of the crusade against it in popular culture and the media We take our youth oriented culture as a given but as Lawrence R Samuel argues this was not always the case Old age was revered in early America in part because it was so rare Indeed it was not until the 1960s according to Samuel that the story of aging in America became the one we are most familiar with today aging is a disease that science will one day cure and in the meantime signs of aging should be prevented masked and treated as a source of shame By tracing the story of aging in the United States over the course of the last half century Samuel vividly demonstrates the ways in which getting older tangibly contradicts the prevailing social values and attitudes of our youth obsessed culture As a result tens of millions of adults approaching their sixties and seventies in this decade do not know how to age as they were never prepared to do so Despite recent trends that suggest a more positive outlook getting old is still viewed in terms of physical and cognitive decline resulting in discrimination in the workplace and marginalization in social life Samuels concludes Aging in America by exhorting his fellow baby boomers to use their economic clout and sheer numbers to change the narrative of aging in America Mind-Body Health and Healing Andrew Goliszek, 2014-10-13 Today more than ever people are taking charge of their health and want to know about effective alternative treatments in order to heal themselves and avoid costly medical procedures Dr Goliszek provides easy to follow directions you need to harness the healing power that exists within your own brain Mind Body Health and Healing shows how to use the power of the mind body connection to not only relieve stress but to prevent disease and strengthen the immune responses that trigger healing Brimming with expert guidance practical tips new scientific breakthroughs and the latest research findings this book will forever change the way you approach your health Andrew Goliszek PhD is an associate

A Doctor in Little Lhasa: One Year in Dharamsala with the Tibetans in Exile Holtz, 2009-02 Required reading for students searching for a connection between medical training and social justice Timothy Holtz s intimate recounting of a year spent serving Tibetan refugees in India describes his struggles with being unable as one young physician with only a year to spend to fix the many wrongs he witnessed Holtz concludes that practicing good medicine whether in a modern city or an impoverished refugee community is far more complex than opening up a magic bag and handing out its contents Although Holtz may not be aware of it his memoir is a testament to the fact that he did in fact learn to practice good medicine and he has been at it ever since His year in Little Lhasa led Holtz to deepen his understanding not only of clinical medicine but of the social roots of disease and of the indivisibility of health and human rights broadly conceived Students and practitioners alike will find this book inspiring Paul E Farmer Presley Professor Harvard Medical School and Co founder Partners in Health Timothy Holtz s account is no romance about the joys of practicing medicine among Tibetan exiles in northern India It is rather about people s suffering from diseases that should easily be prevented a doctor s efforts to provide good care without the resources he should have and a community s struggles to cope with the consequences of torture Even more important for the practice of medicine it is a story of how a doctor s duty to take care of patients is quite inseparable from seeking to protect their human rights Len Rubenstein Executive Director Physicians for Human Rights Open this book to find a wonderful story about a transformative journey for a young physician Timothy Holtz went to India with a purpose to help Tibetan refugees in their struggle for a better life and better health Little did he know how much his year working in a small hospital with few resources would change the trajectory of his life Filled with stories that are both compassionate and humbling it reminds us all that changing the world happens one person at a time Zorba Paster Professor of Family Medicine University of Wisconsin School of Medicine and Public Health and Author of The Longevity Code Your Personal Prescription for a Longer Sweeter Life In this warm and sensitive memoir Timothy Holtz portrays the challenges confronting the Tibetan exile community in Dharamsala as it struggles to preserve its culture and traditions In recounting heartwarming stories of illness and healing Holtz also reveals his own personal path of growth and discovery as a physician The episodes he tells are sobering but also inspiring such as fighting drug resistant tuberculosis in newly arrived refugees and assisting nuns who survived torture in their native Tibet only to face the hardships of an unfamiliar country I recommend this book for anyone interested in better understanding the lives of Tibetans in exile as they fight to survive and to safeguard their traditional culture and human dignity Geshe Lobsang Tenzin Negi Director Emory Tibet Partnership and Spiritual Director Drepung

 Paster,Susan Meltsner,2001 We re all interested in living a long life but few of us are willing to sacrifice everything to attain
 that longevity After all what good is living an additional decade at the expense of enjoying the previous ones In this
 remarkable book Dr Zorba Paster host of the public radio show Zorba Paster On Your Health takes a detour from the
 traditional negative abstinent approach that addresses only physical factors Instead Dr Zorba introduces us to the five
 spheres of wellness that encompass all aspects of life the physical of course but also the mental kinship social spiritual and
 material spheres He reveals well documented research that indicates that you must address and balance all of these areas
 and not just the physical to achieve optimal longevity and also your greatest enjoyment of that longevity Within each sphere
 Dr Zorba pinpoints the most threatening busters those lifestyle aspects that will sooner or later kill you And for each buster
 he recommends the most advantageous boosters habits that will counteract the buster and extend your life Many of these
 boosters will come as a complete surprise For example even the most diet conscious performance oriented athlete may be at
 risk for heart disease and stroke by ignoring all the other spheres mentally with chronic depression socially with limited
 distant relationships spiritually with an uncaring attitude and materially with an unsatisfying underappre ciated job To tailor
 this remarkable booster and buster system to you The Longevity Code includes in depth exercises to isolate your most urgent
 needs Once you ve identified the busters you must overcome you canclip out the booster cards summaries of each of the 76
