Lushootseed Culture and the Shamanic Odyssey Jay Miller, 1999-01-01 This is the first comprehensive overview of the Native people of Puget Sound who speak a Coast Salishan language called Lushootseed. They originally lived in communal cedar plank houses clustered along rivers and bays. Their complex continually evolving religious attitudes and rituals were woven into daily life, the cycle of seasons and long term activities. Despite changes brought on by modern influences and Christianity, traditional beliefs still infuse Lushootseed life. Drawing on established written sources and his own two decades of fieldwork, Miller depicts the Lushootseed people in an innovative way, building his cultural representation around the grand ritual known as the Shamanic Odyssey. In this ritual, cooperating shamans journeyed together to the land of the dead to recover some kind of vitality stolen from the living. Miller sees the Shamanic Odyssey as a central lens on Lushootseed culture, epitomizing and validating in a public setting many of its important concerns and themes. In particular, the rite brought together a number of distinct aspects or vehicles of culture, including the cosmos, canoe, house, body, and the network of social relations radiating across the Lushootseed waterscape.

Medicine Trail Melissa Jayne Fawcett, 2015-09-01

Contrary to the fictional account of James Fenimore Cooper, the Mohegan Mohican nation did not vanish with the death of Chief Uncas more than three hundred years ago. In the remarkable life story of one of its most beloved matriarchs, 100-year-old medicine woman Gladys Tantaquidgeon, *Medicine Trail* tells of the Mohegans' survival into this century. Blending autobiography and history with traditional knowledge and ways of life, *Medicine Trail* presents a collage of events in Tantaquidgeon's life. We see her childhood spent learning Mohegan ceremonies and healing methods at the hands of her tribal grandmothers and her Ivy League education and career in the white male dominated field of anthropology. We also witness her travels to other Indian communities, acting as both an ambassador of her own tribe and an employee of the federal government's Bureau of Indian Affairs. Finally, we see Tantaquidgeon's return to her beloved Mohegan Hill, where she cofounded America's oldest Indian-run museum, carrying on her life's commitment to good medicine and the cultural continuance and renewal of all Indian nations. Written in the Mohegan oral tradition, this book offers a unique insider's understanding of Mohegan and other Native American cultures while discussing the major policies and trends that have affected people throughout Indian Country in the twentieth century. A significant departure from traditional anthropological as told to American Indian autobiography, *Medicine Trail* represents a major contribution to anthropology, history, theology, women's studies, and Native American studies.

Coming Full Circle Suzanne Crawford O'Brien, 2020-02-17

Coming Full Circle is an interdisciplinary exploration of the relationships between spirituality and health in several contemporary Coast Salish and Chinook communities in western Washington from 1805 to 2005. Suzanne Crawford O'Brien examines how these communities define what it means to be healthy and how recent tribal community-based health programs have applied this understanding to their missions and activities. She also explores how contemporary definitions, goals, and activities relating to health and healing are informed by Coast Salish history and also by indigenous spiritual views of the body, which are based

on an understanding of the relationship between self ecology and community Coming Full Circle draws on a historical framework in reflecting on contemporary tribal health care efforts and the ways in which they engage indigenous healing traditions alongside twenty first century biomedicine The book makes a strong case for the current shift toward tribally controlled care arguing that local culturally distinct ways of healing and understanding illness must be a part of contemporary Native healthcare Combining in depth archival research extensive ethnographic participant based field work and skillful scholarship on theories of religion and embodiment Crawford O'Brien offers an original and masterful analysis of contemporary Native Americans and their worldviews **Brushed by Cedar, Living by the River** Crisca

Bierwert,2019-11-01 A brilliant experimental ethnography Brushed by Cedar is destined to change the way anthropologists write about the people they befriend Crisca Bierwert has created a fresh poststructural ethnography that offers new insights into Coast Salish cultures Arguing against the existence of a master narrative she presents her understanding of these Native American peoples of Washington state and British Columbia Canada through poetic bricolage offering the reader a pastiche of rich cultural images Bierwert employs postmodern literary and social analyses to examine many aspects of Salish culture legends and their storytellers domestic violence longhouse ceremonies the importance and power of place and disputes over fishing rights Her reflections overlap as a dialogue would weaving throughout the book significant threads of Salish knowledge and creating a nonauthoritative text that nonetheless speaks knowingly This book represents the future of contemporary anthropology Unlike traditional ethnography it makes no attempt to portray a complete picture of the Coast Salish Instead Bierwert utilizes a critical and diffuse approach that defies colonial syncretic and hegemonic structures and applies advanced literary theory to the creation of ethnography Brushed by Cedar is an important guideline for anyone who writes about other cultures and will be especially useful to classes in the methodology and history of ethnography as well as to scholars specializing in Native American studies or oral literatures Native Homes Bobbie Kalman,2001 This fascinating

Tweedie,2015-08-17 The Makah Indians of Washington State briefly in the national spotlight when they resumed their ancient whaling traditions in 1999 have begun a process that will eventually lead to the repatriation of objects held by museums and federal agencies nationwide Drawing Back Culture

describes the early stages of the tribe's implementation of what some consider to be the most important piece of cultural policy legislation in the history of the United States the Native American Graves Protection and Repatriation Act NAGPRA. NAGPRA was passed by Congress in 1990 to give Native people a mechanism through which they could reclaim specific objects of importance to the tribe. Because NAGPRA definitions were intended for widespread applicability, each tribe must negotiate a fit between these definitions and their own material culture. The broad range of viewpoints within any given tribal community creates internal negotiations over NAGPRA surrounding the identification and eventual return of such objects. Negotiations also arise concerning the nature of ownership. At the heart of this ongoing struggle are themes relevant to indigenous studies worldwide: the central role of material culture in cultural revitalization movements, concerns with intellectual property rights and self-representation, and the trend towards professional cultural resource management among indigenous peoples. The conception of ownership lies at the heart of the Makahs' struggle to implement NAGPRA. Tweedie explores their historical patterns of ownership and demonstrates the challenges of implementing legislation which presumes a concept of communal ownership foreign to the Makahs' highly developed and historically documented patterns of personal ownership of both material culture and intellectual property. *Drawing Back Culture* explores how NAGPRA implementation has been working at the tribal level from the perspective of a tribe struggling to fit the provisions of the law with its own sense of history, ownership, and the drive for cultural renewal.
