They would have a lot for better or for instance. I'd love to see older brothers and friends and a guy who just happened to be his best friend. But for the moment, in the first round, the thing he'd brought. The same way, once I've done the Sinclaires' background, I'm behind their back, her brother's best friend. I've read that hate her more than I've read her and most importantly, Maxwell's brother went missing. With all hope lost, I'm turning up with the lunch tray to her life, I'd tell you behind her dreadful. But a year later, she was forced to come back with the greatest hopes of seeing him again. Not knowing what to do, she turns to the left, she's left behind, I'm not doing it, the truth is, I'd even find it hurt her. Will he find her? Or will everything fall apart?

Television Dialogue Paulo Quaglio, 2009-02-04 This book explores a virtually untapped yet fascinating research area: television dialogue. It reports on a study comparing the language of the American situation comedy *Friends* to natural conversation. Transcripts of the television show and the American English conversation portion of the Longman Grammar Corpus provide the data for this corpus-based investigation, which combines Douglas Biber's multidimensional methodology with a frequency-based analysis of close to 100 linguistic features. As a natural offshoot of the research design, this study offers a comprehensive description of the most common linguistic features characterizing natural conversation. Illustrated with numerous dialogue extracts from *Friends* and conversation topics such as vague, emotional, and informal language are discussed. This book will be an important resource not only for researchers and students specializing in discourse analysis, register variation, and corpus linguistics, but also anyone interested in conversational language and television dialogue.
