America and Ukraine **Mobile Media and Social Intimacies in Asia** Jason Vincent A. Cabañes, Cecilia S.

Uy-Tioco, 2020-01-09 This edited volume brings together cutting edge studies from emerging scholars of East Southeast Asia who explore the role of mobile media in the contemporary transformation of the region's social intimacies from the romantic to the familial to the communal. By providing a regional and transnational overview of such studies it affords new insights into how these mobile technologies have contributed to the rise of glocal intimacies. This pertains to the normalisation and intensification of how people's relationships of closeness are entangled in the ever shifting and constantly negotiated flows between global modernity and local everyday life. In providing case studies of mobile media and glocal intimacies the chapters in the volume attend to a broad range of countries that include China, Korea, Malaysia, the Philippines, Singapore, Vietnam and Taiwan. This illustrates the differing ways in which mobile media might be embedded in the region's divergent articulations of social intimacies which reflect the ongoing tensions between Western and Asian imaginaries of modernity. The chapters also discuss a wide array of mobile media that people use from social media platforms like Facebook and Instagram to messaging apps like KakaoTalk and WhatsApp to dating apps like Tinder and Blued. This allows for a mapping out of the different levels of impact that mobile media might have on social intimacies in a region that contains some of the most technologically advanced as well as the most technologically behind societies in the world. In summary this book allows readers to take a comparative approach to understanding the complexity of the glocal intimacies that are emerging from the ways people in Asia use mobile media to reconfigure their local ties and to enact global relationships. This volume will benefit students, academics and researchers who are keen in media and communication, cultural studies, sociology, anthropology and Asian studies. This exciting and much needed book will greatly advance our efforts to decolonise media and communications research. The chapters offer empirically rich and nuanced accounts that challenge the dominant paradigms about mediated intimacy. Mirca Madianou, Goldsmiths University of London. This collection develops the original concept of glocal intimacies to describe how mobile media have become a crucial site where new social intimacies are enacted, reinforced and transformed in Asia. It introduces fresh empirical research from emerging scholars to furnish deep theoretical insights into these imaginaries and practices. Audrey Yue, National University of Singapore. *Routledge Handbook of Migration and Development* Tanja Bastia, Ronald Skeldon, 2020-02-14 The Routledge Handbook of Migration and Development provides an interdisciplinary agenda setting survey of the fields of migration and development bringing together over 60 expert contributors from around the world to chart current and future trends in research on this topic. The links between migration and development can be traced back to the post war period if not further yet it is only in the last 20 years that the migration development nexus has risen to prominence for academics and policymakers. Starting by mapping the different theoretical approaches to migration and development this book goes on to present cutting edge research in poverty and inequality, displacement, climate change, health, family, social policy, interventions and the key challenges surrounding migration and

development While much of the migration literature continues to be dominated by US and British perspectives this volume includes original contributions from most regions of the world to offer alternative non Anglophone perspectives Given the increasing importance of migration in both international development and current affairs the Routledge Handbook of Migration and Development will be of interest both to policymakers and to students and researchers of geography development studies political science sociology demography and development economics Emotional Bridges to Puerto Rico Elizabeth M. Aranda,2007 Emotional Bridges to Puerto Rico is about Puerto Ricans struggles of incorporation into U S society and the conditions under which members of the Puerto Rican middle class move back and forth between the mainland and island The book illustrates how structures of inequality **The Making of Urban America** Raymond A.
