A Nation Transformed Alan Houston, Steve Pincus, 2001-08-20 A Nation Transformed is a major collection of essays by a mix of young and eminent scholars of early modern English history literature and political thought The fruit of an intense interdisciplinary two day conference held at the Huntington Library California it asks whether and in what ways the culture and politics of early modern England was transformed by the second half of the seventeenth century In sharp contrast to those who have emphasised continuity and the persistence of the ancien r gime the contributors argue that England in 1700 was profoundly different from what it had been in 1640 Essays in the volume deal with changes in natural philosophy literature religion politics political thought and political economy The insights offered here based on innovative research will interest scholars and students of early modern history Renaissance and Augustan literature and historians of political thought

The Evolving Use and Management of the Nation's Forests, Grasslands, Croplands and Related Resources John Fedkiw,1989 *The Nation as a Local Metaphor* Alon Confino,2000-11-09 All nations make themselves up as they go along but not all make themselves up in the same way In this study Alon Confino explores how Germans turned national and argues that they imagined the nation as an extension of their local place In 1871 the work of political unification had been completed but Germany remained a patchwork of regions with different histories and traditions Germans had to construct a national memory to reconcile the peculiarities of the region and the totality of the nation This identity project examined by Confino as it evolved in the southwestern state of WArtemberg oscillated between failure and success The national holiday of Sedan Day failed in the 1870s and 1880s to symbolically commingle localness and nationhood Later the idea of the Heimat or homeland did prove capable of representing interchangeably the locality the region and the nation in a distinct national narrative and in visual images The German nationhood project was successful argues Confino because Germans made the nation into an everyday local experience through a variety of cultural forms including museums school textbooks popular poems travel guides posters and postcards But it was not unique Confino situates German nationhood within the larger context of modernity and in doing so he raises broader questions about how people in the modern world use the past in the construction of identity
