National History And Identity Approaches To The Writing Of National History:

Storia della storiografia, 2007 National History and Identity Michael Branch, 1999 From the Introduction The purpose of the conference which produced the contents of this volume was to commemorate the bicentenary of the birth in 1794 of the Finnish historian and Finnologist Anders Johan Sjögren The organisers chose to honour Sjögren not by dwelling on his life and work though such was his influence in his day that we were frequently reminded of his scholarly legacy during the course of the conference but by a critical examination of the historical phenomenon of which he was both a founder and a practitioner in Northern Europe the role of history in shaping national identities and in nation building

History and Identity Stefan Berger, 2022-01-20 This introduction to contemporary historical theory and practice shows how issues of identity have shaped how we write history Stefan Berger charts how a new self reflexivity about what is involved in the process of writing history entered the historical profession and the part that historians have played in debates about the past and its meaningfulness for the present He introduces key trends in the theory of history such as postmodernism poststructuralism constructivism narrativism and the linguistic turn and reveals in turn the ways in which they have transformed how historians have written history over the last four decades The book ranges widely from more traditional forms of history writing such as political social economic labour and cultural history to the emergence of more recent fields including gender history historical anthropology the history of memory visual history the history of material culture and comparative transnational and global history The Oxford History of Historical Writing: 1800-1945 Daniel R.
