National Integration In Indonesia:

National Integration in Indonesia Christine Drake, 2019-03-31 Indonesia's great size and diversity and its history of regional dissension have made its struggle for national integration particularly complex Christine Drake presents an informed and balanced picture of past and present developments in this struggle offering readers a realistic assessment of the current status and future prospects of national integration in Indonesia By addressing historical political social and economic issues in conjunction with statistical analysis Professor Drake argues that the spatial pattern of integration is far more complex than the commonly accepted core periphery model of Indonesian integration and development The author examines the effectiveness of Indonesian government policies in promoting national integration and concludes that in general they have led to greater national unity although many serious problems remain *Ethnicity and National*

Integration in Indonesia Leo Suryadinata, 1975 Decentralisation and National Integration in Indonesia Hajar G. Pramudyasmono, 2011-03 This book discusses the interplay between decentralisation and national integration in Indonesia particularly in Riau during the early stage of reform period After the fall of Soeharto's New Order regime in 1998 Riau with its rich natural resources was one of the prominent province calling for decentralisation regional autonomy or otherwise seeking independence by separating from the Unitary State of the Republic of Indonesia Three agendas i.e political economy and social cultural reforms were raised by local university students and community elites under the Riau Independence Movement Gerakan Riau Merdeka To placate this demand the Indonesian Government under President B J Habibie established Laws No 22 1999 and No 25 1999 as the foundations of decentralisation nationwide How Riau political upheaval at the Post New Order period threatened Indonesia's integration and to what extent the implementation of decentralisation prevented national disintegration are well documented and examined in this book **The Geography of National**

Integration Christine Drake, 1977 The Ethnic Chinese Issue and National Integration in Indonesia Leo Suryadinata, 1999

Indonesia's Maritime Policy from Independence to 2019 Indra Alverdian, 2024-08-02 Alverdian explores how a distinct national character of maritime governance has influenced the nature of Indonesia's aspiration to go beyond archipelagic towards a maritime nation through focusing on the intersection between the nation's political culture historical changes and geopolitical contexts which gave rise to the primacy of the theme of unity in the nation's discourse The main theme of this research is the three pillar framework of the Tanah Air concept which includes the political culture of persatuan nasional national unity the strategic culture of cakra manggilingan turning of the times from dark to golden periods and the geopolitical context of posisi silang dunia world crossroad position The findings of this publication indicate the dominant influence of Javanese political culture philosophy values and traditions on the distinct character of Indonesia's maritime orientation Specifically Javanese political philosophy and traditions within each pillar of Tanah Air have influenced continuity rather than change in the evolution of Indonesia's maritime policy This book helps readers understand how the

defining theme of unity in national political culture has shaped the evolution of Indonesia's maritime policy from 1945 to 2019. It illustrates how the continuous influence of the theme of national unity as devised by the political elites through history has addressed the realities of the archipelago's geography and it is significant from both an academic and practical policy perspective. A book designed for academics and the general public interested in gaining greater insight and knowledge on Indonesia's maritime policy and maritime nation aspirations. **The Divergent Nation of Indonesia** Stefani

Nugroho, 2020-07-28 This book explores how Indonesia is imagined differently by young people in the three cities of Jakarta, Kupang, and Banda Aceh. Throughout the course of Indonesia's colonial and postcolonial history, Jakarta, the capital, has always occupied a central position, while Kupang in East Nusa Tenggara and Banda Aceh in Nanggroe Aceh Darussalam are located at the peripheries. The book analyses the convergences and divergences in how the country is perceived from these different vantage points and the implications for Indonesia, also providing a new perspective to the classic and contemporary theories of the nation. By examining the heterogeneity of the imaginings of the nation from below, it moves away from the tendency to focus on the homogeneity of the nation found in the classic theories such as Anderson's and Gellner's as well as in more recent theories on every day and banal nationalism. Using the tenets of standpoint theory and Laclau and Mouffe's theory of hegemony, the nation is acknowledged as an empty signifier that means different things depending on the positionality of the perceiving subject. The work appeals to scholars of nation studies and Asian and Indonesian studies as well as those interested in the empirical grounding of poststructuralist theories. The Politics of the Periphery in Indonesia John H. Walker, Glenn

Banks, Minako Sakai, 2009-01-01 The Politics of the Periphery in Indonesia is a thought provoking examination of local politics and the dynamics of power at Indonesia's geographic and social margins. After the fall of Suharto in 1998 and the introduction of a policy of decentralization in 2001, local stakeholders secured and consolidated decision making power and set about negotiating new relations with Jakarta. The volume deals with power struggles and local national tensions looking among other things at resource control, the historical roots of regional identity politics and issues relating to Chinese Indonesians. The authors develop information in ways that transcend the post colonial territorial boundaries of Indonesia in the Malay Indonesian archipelago and use case studies to show how the changes described have galvanized Indonesian politics at the cultural and geographical peripheries. Political Power and Communications in Indonesia Karl D.

Jackson, Lucian W. Pye, 2023-11-10 Few general books are currently available on Indonesia despite its enormous human and economic resources. Hence the importance of this book which offers the latest research of internationally respected scholars with extensive first hand experience in the archipelago. Their particular concern is with the realities of power and the patterns of communication in a society distinguished by both its poverty and its great potential. The contributors to the volume span a wide spectrum of viewpoints and present various interpretations of Indonesian society. Taken together, however, the essays support the thesis that Indonesia is a bureaucratic polity, a political system in which power is hierarchically

organized influence is monopolized by an official elite and individuals outside officialdom have little effect on events These authorities examine in depth such subjects as the role of the military the impact of bureaucracy the importance of political parties the character of the mass media and the direction of economic development as well as other matters essential for an understanding of current development in the country Political Power and Communications in Indonesia is addressed not only to students of Indonesia or specialists in comparative politics and political development but quite as directly to persons seeking basic information about an extremely interesting and complex society Its broad coverage makes it a veritable handbook about how government functions in Indonesia This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978

The Politics of Migration in Indonesia and Beyond Riwanto Tirtosudarmo, 2019-01-22 This book examines the social and political dimensions of migration from a perspective between the realms of demography and politics It approaches the issue of migration by highlighting the important power relations that have previously been neglected in studies in the area The book starts by investigating Indonesian migration to provide an understanding of internal migration It then looks beyond its national borders for a wider understanding of Asia and showcases several case studies both in Indonesia and beyond to illustrate the intricate politics of migration Further it considers the politics of migration from the sending country perspective and unravels the link between migration and security The book provides reviews of the wider literature relating to population mobility and distribution and shows readers how to adopt a new perspective in the study of movement of people an issue that is becoming increasingly important as movement of people unfolds globally in terms of both volume and direction This book is a valuable resource for students academics and researchers in the area of demography and social politics especially those interested in migration and refugees It also offers insights for those interested in understanding decentralization in greater depth
