rival Canadian Airlines and touched countless lives This is its story **Insights and Research on the Study of Gender and Intersectionality in International Airline Cultures** Albert J. Mills, 2017-07-24 This book brings together three decades of research by Albert J Mills and his colleagues on the gendering of airline cultures over time Inspired by feminist theory and drawing largely on archival research it traces the way that gender discrimination develops takes hold and changes in the formation of organizational cultures **Sex, Strategy and the Stratosphere** A. Mills, 2006-05-15 This book provides an historical account of how discriminatory practices develop and change The author presents a historical account of the discriminatory practices of airline companies British Airways Air Canada and Pan American Airways It covers the years 1919 to 1991 and is organized around key periods in the treatment of female employees **Brace for Impact** Peter Pigott, 2016-06-18 Why do planes disappear or fall out of the sky Brace for Impact traces the evolution of accident investigation and explains why flying is the safest form of travel The history of air accidents is a harrowing one Yet today flying is the safest mode of transportation thanks in no small part to the work of crash detectives Whenever a plane falls from the sky the investigators pick through the wreckage for the clues they need to decipher what happened to that flight Before the invention of the black box and the evolution of forensic accident investigation the causes often remained a mystery Since the Wright brothers first took flight aircraft design pilot training aircraft maintenance and air traffic control have all evolved to current standards of safety Because of lessons learned from tragedies such as what befell the Comets in the 1950s the Douglas DC 10s in the 1970s and ill fated Air India TWA and Swissair flights flight safety continues to improve In many ways the history of aviation is the history of air crash investigation **Canada** Michelangelo Sabatino, Rhodri Windsor Liscombe, 2016-11-15 Canada is a country of massive size of diverse geographical features and an equally diverse population all features that are magnificently reflected in its architecture In this book Rhodri Windsor Liscombe and Michelangelo Sabatino offer a richly informative history of Canadian architecture that celebrates and explores the country's many contributions to the spread of architectural modernity in the Americas A distinct Canadian design attitude coalesced during the twentieth century one informed by a liberal hybrid and pragmatic mindset intent less upon the dogma of architectural language and more on thinking about the formation of inclusive spaces and places Taking a fresh perspective on design production they map the unfolding of architectural modernity across the country from the completion of the transcontinental railway in the late 1880s through to the present Along the way they discuss architecture within the broader contexts of political industrial and sociocultural evolution the urban suburban expansion and new building technologies Examining the works of architects and firms such as ARCOP Eric Arthur Ernest Cormier Brigitte Shim and Howard Sutcliffe this book brings Canadian architecture chronologically and thematically to life **Gender, Feminist and Queer Studies** Donna Bridges, Clifford Lewis, Elizabeth Wulff, Chelsea Litchfield, Larissa Bamberry, 2023-07-13 Exploring scholarship research practice and activism on gender feminist and queer studies this edited collection examines analyses and critiques the nature

and causes of inequality disadvantage and marginalisation faced by women non hegemonic and LGBTIQ identities who do not fit hegemonic notions of masculinity femininity and heteronormativity The chapters in this book critically analyse and challenge visible and invisible power relations privilege and prejudice by problematising the artificial organisation of people into hierarchies that preference hegemonic masculinities white and heteronormative identities In questioning often unchallenged and legitimised inequality and disadvantage this book locates itself in the juxtaposition where the lived experiences of individuals activism community participation research and scholarship collide with mainstream local national and globalised culture and politics Divided into four parts this book provides a platform for interrogating how social change can occur in the current neoliberal political context of increasing conservatism **Dominion of Capital** Don
