National Civic Review No 4 Winter 2003:

National Civic Review, No. 4, Winter 2003 Robert Loper, Michael E. McGrath, 2004-01-01 **Engaging Strangers** Daniel J. Monti Jr., 2013 Partisans on both the left and right wings of America's theory class and political spectrum believe we're in trouble big trouble The economy is limping along Inequality has reached unprecedented levels And we seem to be on the verge of being overwhelmed by immigrants who don't look and act anything like our grandparents did much less the men and women who founded our country Angry scared disengaged and distrustful when we aren't openly antagonistic toward each other Americans can't figure out who we are as a people and openly fret about our best days being behind us To make matters worse our political system the one place we're supposed to be able to work on behalf of a broader public good with people who aren't like us appears even more broken than these other parts of our culture There's some unexpected good news however and it's coming from one of the last places in America you'd expect different people to be getting along Boston Bostonians well known for their unwelcoming and sometimes violent treatment of newcomers and unwillingness to find common ground with people deemed outsiders aren't acting broken or taking their resentments out on each other these days They've turned instead to calmer ways of talking about each other and treating each other in public Far from being disconnected and afraid people in Boston are better connected and more respectful of each other and their city is better organized and more orderly than at any time in its long and storied history Bostonians have learned to get along with the strangers among them in ways their ancestors never knew or expected the rest of us would be willing to entertain much less master They have their civic act together **Engaging Strangers** explores how the people of Boston have learned to practice a more congenial and respectful set of civic virtues In this book the author provides a model for civic conduct for the rest of America to study and follow **Foundations for Social Change** Daniel Faber, Deborah McCarthy Auriffeille, 2005-09-01 This multi-disciplinary collection blends broad overviews and case studies as well as different theoretical perspectives in a critique of the relationship between United States philanthropic foundations and movements for social change Scholars and practitioners examine how these foundations support and or thwart popular social movements and address how philanthropic institutions can be more accountable and democratic in a sophisticated provocative and accessible manner **Foundations for Social Change** brings together the leading voices on philanthropy and social movements into a single collection and its interdisciplinary approach will appeal to scholars students foundation officials non-profit advocates and social movement activists **Design Strategy** Nancy C. Roberts, 2023-11-14 A new approach to addressing the contemporary world's most difficult challenges such as climate change and poverty Conflicts over the problem and the solution plague the modern world and land problem solvers in what has been called wicked problem territory a social space with high levels of conflict over problems and solutions In **Design Strategy** Nancy C Roberts proposes design as a strategy of problem solving to close the gap between an existing state and a desired state Utilizing this approach designers and change agents are better able to

minimize self defeating conflicts over problems and solutions break the logjam of opposition and avoid the traps that lock problem solvers into a never ending cycle of conflict Design as a field continues to grow and evolve but Design Strategy focuses on three levels of design where wicked problems tend to lurk strategic design of private and public organizations systemic design of networked and overlapping economic technical political and social subsystems and regenerative design of life giving realignment between humanity and nature Within this framework Roberts presents refreshingly interdisciplinary case studies that integrate theory and practice across diverse fields to guide professionals in any domain from business and nonprofit organizations to educational and healthcare systems and finally offers hope that humanity can tackle the existential challenges we face in the twenty first century
