Theories of Nationalism

A Critical Introduction

Foreword by
Fred Halliday

‘[A] comprehensive, balanced and critical overview of current debates on nationalism.’ — Fred Halliday

Nationalism A Critical Introduction

Philip Spencer

Nationalism A Critical Introduction:

Nationalism Philip Spencer, Howard Wollman, 2002-04-25 Spencer and Wollman remain succinct and clear in their critical introduction to the most influential nationalism theories. The book is well structured, the arguments clearly presented. Its format makes it a great textbook for all seeking a deeper understanding of nationalism and national identity, while those already familiar with the subject will no doubt enjoy this erudite volume as well. **Sociology** This book is a valuable source for the interested reader who needs a concise and critical introduction into theories and theorists of nationalism. The extensive bibliography and a good index make it a work which should be on the bookshelf of anyone teaching nationalism. **Journal of Contemporary European Studies** *Nationalism* provides an indispensable review of the study of nationalism that both introduces and critically positions all the main issues, theories and contemporary debates. Drawing upon and introducing a wide range of literatures from across politics, sociology, history, social anthropology and cultural studies, the authors seek to further challenge fixed notions of national identity, ethnicity and culture to more fully explore and understand the contemporary complexities of citizenship and the genuine potential for a cosmopolitan democracy. The text surveys both classical and contemporary approaches, including those from within feminism, postmodernism, postcolonialism and globalization studies. It will be essential reading for all students and academics seeking a deeper understanding of nationalism and national identity today. **Theories of Nationalism** Umut Ozkirimli, 2017-09-16 This widely used and highly acclaimed text provides a comprehensive and balanced introduction to the main theoretical perspectives on nationalism. The 3rd edition has been revised and updated throughout and includes a new chapter on the practical outworking of theory in the contemporary politics of nationalism. **Rethinking Nationalism** Jonathan S. Hearn, 2020-06-29 This is an innovative and interdisciplinary introduction to the study of nationalism. The author uses paired chapters first to present the work of key authors in relation to each of a set of key themes: primordialism, modernism, power and culture, and then critically to rethink these core concepts. **Theories of Nationalism** Umut Özkirimli, 2000 *Theories of Nationalism* will be essential reading for students of politics, international relations, sociology and history, as well as for the general reader. **Nationalism** Philip Spencer, 2002 Spencer and Wollman seek to challenge fixed notions of national identity, ethnicity and culture to more fully explore and understand the contemporary complexities of citizenship and the genuine potential for a cosmopolitan democracy. **Rethinking Nationalism** Jonathan Hearn, 2006-04-13 Two key textbooks for the study of nationalism.

Rethinking Stateless Nations and National Identity in Wales and the Basque Country Sophie

Williams, 2018-08-10 This book looks at the fundamental components of national identity as understood by ordinary nation members and the way in which it is mobilised by political elites. Drawing on an original case comparison between Wales and the Basque Country, the author suggests there are many commonalities between these two nations, particularly around the fundamentals of their national identities. However, differences occur in terms of degree of intensity of feeling and around the

politicisation of identity with more entrenched and hostile political positioning in the Basque Country than Wales Through a multi level comparison the book generates insights into national identity as a theoretical concept and in a stateless nation context It argues for national identity s intangible yet polemical nature looking at the primordialist way it is understood its permanence and importance coupled with its lack of everyday salience and consequent obligations

An Introduction to Political Theory John Hoffman,Paul Graham,2013-09-13 This book provides an engaging and intellectually challenging introduction to political ideologies while at the same time giving an accessible route into the subject for those new to politics Supported by an outstanding companion website it has strong claims to be the best undergraduate textbook on ideologies on the market Dr Mike Gough University of East Anglia Introduction to Political Theory is a text for the 21st century It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape Bringing together classic and contemporary political concepts and ideologies into one book this new text introduces the major approaches to political issues that have shaped the modern world and the ideas that form the currency of political debate Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively contentious and relevant This thoroughly revised and updated second edition contains new chapters on global justice and political violence as well as an expanded treatment of globalisation and the state A wide range of pedagogical features helps to clarify extend and apply students understanding of the fundamental ideologies and concepts This is comprised of Case studies demonstrate how political ideas concepts and issues manifest in the real world Focus boxes encourage students to appreciate alternative viewpoints A range of thought provoking photographs challenge students to examine concepts from a different angle Suggestions for further reading and weblinks are also provided to help students to further their understanding Introduction to Political Theory is accompanied by an innovative website with multiple choice questions biographies of key figures in political theory further case studies and an innovative how to read feature which helps students get to grips with difficult primary texts

Redefining Nationalism in Modern China S. Shen,2007-11-13 Why do the Chinese sometimes speak out against U S and yet at other times remain silent This book uses a variety of previously untapped sources including a range of news sources within China itself weblogs and interviews with prominent figures to make a powerful new argument about the causes and consequences of the new Chinese nationalism

State Formation in Afghanistan Mujib Rahman Rahimi,2017-08-17 The creation of Afghanistan in 1880 following the Second Anglo Afghan War gave an empowering voice to the Pashtun people the largest ethnic group in a diverse country In order to distil the narrative of the state s formation and early years a Pashtun centric version of history dominated Afghan history and the political process from 1880 to the 1970s Alternative discourses made no appearance in the fledgling state which lacked the scholarly institutions and any sense of recognition for history thus providing no alternatives to the narratives produced by the British whose quasi colonial influence in the region was supreme Since 1970 the ongoing

crises in Afghanistan have opened the space for non Pashtuns including Tajiks Hazaras and Uzbeks to form new definitions of identity challenge the official discourse and call for the re writing of the long established narrative At the same time the Pashtun camp through their privileged position in the political settlements of 2001 have attempted to confront the desire for change in historical perceptions by re emphasising the Pashtun domination of Afghan history This crisis of hegemony has led to a deep antagonism between the Pashtun and non Pashtun perspectives of Afghan history and threatens the stability of political process in the country

The Enigmatic Realm of **Nationalism A Critical Introduction**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary.
