The Ashgate Companion to the History of Textile Workers, 1650-2000 Dr Elise van Nederveen Meerkerk, Mr Els Hiemstra-Kuperus, Prof Dr Lex Heerma van Voss, 2013-06-28 This impressive collection offers the first systematic global and comparative history of textile workers over the course of 350 years This period covers the major changes in wool and cotton production and the global picture from pre industrial times through to the twentieth century After an introduction the first part of the book is divided into twenty national studies on textile production over the period 1650 2000 To make them useful tools for international comparisons each national overview is based on a consistent framework that defines the topics and issues to be treated in each chapter The countries described have been selected to include the major historic producers of woollen and cotton fabrics and the diversity of global experience and include not only European nations but also Argentina Brazil China Egypt India Japan Mexico Turkey Uruguay and the USA The second part of the book consists of ten comparative papers on topics including globalization and trade organization of production space identity workplace institutions production relations gender ethnicity and the textile firm These are based on the national overviews and additional literature and will help apply current interdisciplinary and cultural concerns to a subject traditionally viewed largely through a social and economic history lens Whilst offering a unique reference source for anyone interested in the history of a particular country's textile industry the true strength of this project lies in its capacity of international comparison By providing global comparative studies of key textile industries and workers both geographically and thematically this book provides a comprehensive and contemporary analysis of a major element of the world's economy This allows historians to challenge many of the received ideas about globalization for instance highlighting how global competition for lower production costs is by no means a uniquely modern issue and has been a feature of textile production for much of the last 350 years As such this collection will be welcomed by all scholars engaged in the history of the textile industry and international trade

The British Left and India Nicholas Owen, 2007-11-15 From the formation of the Indian National Congress in 1885 to the winning of independence in 1947 this book traces the complex and often troubled relationship between anti imperialist campaigners in Britain and in India Nicholas Owen traces the efforts of British Radicals and socialists to identify forms of anti imperialism in India which fitted comfortably with their existing beliefs and their sense of how authentic progressive movements were supposed to work On the other side of the relationship he charts the trajectory of the Indian National Congress as it shifted from appeals couched in language familiar to British progressives to the less familiar vocabulary and techniques of Mahatma Gandhi The new Gandhian methods of self reliance had unwelcome implications for the work that the British supporters of Congress had traditionally undertaken leading to the collapse of their main organisation and the precipitation of anti imperialist work into the turbulent cross currents of left wing British politics Metropolitan anti imperialism became largely a function of other

commitments whether communist theosophical pacifist socialist or anti fascist Revealing the strengths and weaknesses of these connections The British Left and India looks at the ultimate failure to create the durable alliance between anti imperialists which the British Empire s governors had always feared Drawing on a wide range of newly available archival material in Britain and India including the records of campaigning organizations political parties the British government and the imperial security services this book is a powerful account of the diverse and fragmented world of British metropolitan anti imperialism
