*Tibet and Nationalist China's Frontier* Hsiao-ting Lin,2011-01-01 In this ground breaking study Hsiao Ting Lin demonstrates that the Chinese frontier was the subject neither of concerted aggression on the part of a centralized and indoctrinated Chinese government nor of an ideologically driven nationalist ethnopolitics Instead Nationalist sovereignty over Tibet and other border regions was the result of rhetorical grandstanding by Chiang Kai shek and his regime Tibet and Nationalist China s Frontier is invaluable for an understanding of past and present China Tibet relations Tibet and Nationalist China s Frontier makes a crucial contribution to the understanding of past and present China Tibet relations A counterpoint to erroneous historical assumptions this book will change the way Tibetologists and modern Chinese historians frame future studies of the region

Van Slyke,1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of The Cambridge History of China they represent the most complete and stimulating political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949

*Modern China's Ethnic Frontiers* Hsiao-ting Lin,2010-09-13 The purpose of this book is to examine the strategies and practices of the Han Chinese Nationalists vis vis post Qing China s ethnic minorities as well as to explore the role they played in the formation of contemporary China s Central Asian frontier territoriality and border security The Chinese Revolution of 1911 initiated by

Sun Yat sen liberated the Han Chinese from the rule of the Manchus and ended the Qing dynastic order that had existed for centuries. With the collapse of the Qing dynasty the Mongols and the Tibetans who had been dominated by the Manchus took advantage of the revolution and declared their independence. Under the leadership of Yuan Shikai the new Chinese Republican government in Peking in turn proclaimed the similar five nationality Republic proposed by the Revolutionaries as a model with which to sustain the deteriorating Qing territorial order. The shifting politics of the multi ethnic state during the regime transition and the role those politics played in defining the identity of the modern Chinese state were issues that would haunt the new Chinese Republic from its inception to its downfall. Modern China's Ethnic Frontiers will be of interest to students and scholars of Chinese history, Asian history and modern history.

[The Encyclopedia of the Korean War](#)  
Spencer C. Tucker, Paul G. Pierpaoli Jr., 2010-04-09. A multidimensional multidisciplinary work on one of the least understood but most important conflicts in modern history. A cornerstone work in ABC-CLIO's distinguished list of reference works on military history. The Encyclopedia of the Korean War: A Political, Social, and Military History is a comprehensive resource on the confrontation that became the first shooting war of the Cold War, the first limited conflict of the Atomic Age, and the war that led to a dramatic escalation of the national security state while foreshadowing U.S. involvement in Vietnam. The Encyclopedia of the Korean War offers complete coverage of strategies, weapon systems, and clashes that marked the course of events on the battlefield. But this authoritative multidisciplinary work expands beyond the military perspective to portray the overall culture of the era, addressing a variety of political, economic, social, and popular culture topics as well. Incorporating a wealth of recent research, the new edition adds more than 130 entries and updated coverage throughout, plus more bibliographic listings, an expanded historiographical essay, and a documents volume.

*Wu Han, Historian* Mary G. Mazur, 1955-01-01. This biography spotlights the life of a key Chinese intellectual, Wu Han, well known in China as a major twentieth-century historian and democratic political figure. World attention was drawn to Wu in the mid-1960s as the first of Mao Zedong's targets in the Cultural Revolution. The biography locates Wu in the rapid changes in the social and political environment of his times, from the early years of the twentieth century until his death in prison in 1969. With Wu Han's life as the focus, the narrative deals with the momentous changes in Chinese society and government during the last century. Mazur bases the biographical account on extensive interviewing in China and penetrates a great deal deeper than the conventional conception of the shift from Nationalist to Communist regimes in the PRC. The complex life of Wu Han is of interest to specialist and non-specialist readers alike, both because of the broad relevance of the historical and political issues he and those around him confronted in the context of the times in China, and because of the direct narrative biographical style revealing the conflicts and depth in the human situation. Mazur relates Wu Han's life to the momentous changes and conflicts surging through Chinese society, with special emphasis on the complex role intellectuals have played during the course of change.

**Age of Exploration** Elisabeth Kaske, Elisabeth Köll, 2024-08-19 In the early twentieth century Chinese intellectuals came to realize that Westerners surpassed them not only in knowledge of the world but also in knowledge of China itself A rising generation of Chinese scientists engineers and administrators was eager to address this state of affairs and began to retrace the footsteps of Western explorers who had crisscrossed China during the preceding century The nine case studies assembled in this book show how a new cohort of professional Chinese explorers traveled studied appropriated and reshaped national space from the 1920s to the 1950s In some instances the explorers drew directly from the fieldwork practices of their Western predecessors In others they trained compilers to collect and systematize local knowledge that could be passed up the administrative hierarchy to government and national institutions Their projects helped to claim natural resources prepare for infrastructural development and create new institutionalized knowledge and public engagement with textual representations of China's geobody This book elucidates the ways in which

knowledge production in early twentieth century China centered on space and contributed to China's transformation into a modern nation state
