

NATIONHOOD & IDENTITY THE BRITISH STATE

DAVID POWELL

Nationhood And Identity The British State

Brian Jenkins

Nationhood And Identity The British State:

Nationhood and Identity David Powell, 2002-08-23 David Powell charts the political evolution of the UK The result is a cultural history of British politics seen through music sport war and literature and an attempt to look into the future of the nationalisms that survive in Britain today Nationhood and Identity David Powell, 2002 Britannia towering female with helmet and spear symbol of the British Isles has been one of history's most enduring icons But who is she Whom does she represent Who are the British The Scots Welsh and Irish not to mention the English have been asking themselves these questions for hundreds of years Their answers have played themselves out in the political and cultural fields at the highest levels and shaped the histories of all these regions that together are known as Britain David Powell charts the political evolution of the United Kingdom from the Act of Union between Great Britain and Ireland passed in 1800 to the late 20th century debates over devolution to Scotland and Wales the future of Northern Ireland and Britain's membership of the EU Bloomsbury Publishing **The Idea of Englishness** Krishan Kumar, 2016-02-24 Ideas of Englishness and of the English nation have become a matter of renewed interest in recent years as a result of threats to the integrity of the United Kingdom and the perceived rise of that unusual thing English nationalism Interrogating the idea of an English nation and of how that might compare with other concepts of nationhood this book enquires into the origins of English national identity partly by questioning the assumption of its long standing existence It investigates the role of the British empire the largest empire in world history in the creation of English and British identities and the results of its disappearance Considering the myths of the English the ideas and images that the English and others have constructed about their history and their sense of themselves as a people the distinctiveness of English social thought in comparison with that of other nations the relationship between English and British identity and the relationship of Englishness to Europe this wide ranging comparative and historical approach to understanding the particular nature of Englishness and English national identity will appeal to scholars of sociology cultural studies and history with interests in English and British national identity and debates about England's future place in the United Kingdom *At the Margins of Victorian Britain* Dennis Grube, 2013-07-15 Victorian Britain at the head of the vast British Empire was the wealthiest and most powerful country in the world Yet not all Britons were seen as possessing the characteristics that defined what it actually meant to be British At the Margins of Victorian Britain focuses on the political means of policing unwanted others in Victorian society the Irish Catholics and Jews atheists prostitutes and homosexuals In this groundbreaking study Dennis Grube details the laws and conventions that were legally and culturally enforced in order to bar these others from gaining power and influence in Victorian Britain Utilizing a wide ranging analysis the book focuses on key case studies the anti-Semitism implicit in Lord Rothschild's barring from the House of Commons the fine line between accepted male love and companionship and homosexuality culminating in the Oscar Wilde trials of the 1890s and how laws against disease were used to police prostitutes and correct moral vices Political and legal

rhetoric backed by the force of legislation set the boundaries of Britishness and enforced those boundaries through the majesty of British law As Jews Roman Catholics and atheists were brought into a genuine sense of partnership in the British constitution by being allowed to seek election to Parliament homosexuals prostitutes and the allegedly innately criminal Irish found themselves further and more vehemently displaced as the nineteenth century progressed Otherness stopped being a religious question and became instead a moral one That fundamental shift marks the moment that Britishness became a values based question And we've been arguing about what those values are ever since This will be essential reading for those working in the fields of Victorian studies social and cultural history and constitutional identity **The Societal**

Foundations of National Competitiveness Michael J. Mazarr, 2022-06-21 Nations rise and fall succeed or fail in rivalries and enjoy stability or descend into chaos because of a complex web of factors that affect competitive advantage One critical component is the package of essential social characteristics of a nation The ultimate story of the Cold War is that the United States was simply a more competitive society than the Soviet Union more energetic more vibrant more innovative more productive more legitimate Through analysis of comparative studies of historical eras and trends historical case studies and the findings of issue specific empirical research the report explores how seven characteristics of a society determine its competitive standing and distinguish dynamic and competitively successful nations If the history surveyed in this report provides an accurate guide to the future the fate of the United States in today's rivalries will not be determined solely or even in significant degree by the numbers of its weapons or amounts of defense spending or how many proxy wars it wins but by the basic characteristics of its society The author applies the seven leading characteristics that affect national standing to the United States to create a snapshot of where the country stands That application provides some reason for optimism The United States continues to reflect many of these characteristics and the overall synergistic engine more than any other large country in the world However multiple trends are working to weaken traditional U S advantages Several such as the corruption of the national information space pose acute risks to the long term dynamism and competitiveness of the nation raising the worrying prospect that the United States has begun to display classic patterns of a major power on the far side of its dynamic and vital curve

The Politics of Nationhood P. Lynch, 1999-01-13 For over a century the Conservative Party has been identified as the patriotic party defending the nation state and British identity Thatcherism sought to rework the Conservative politics of nationhood in the light of changed circumstances but the Thatcher and Major Governments faced significant problems managing the Union European integration and a multicultural society Philip Lynch examines the key developments and statecraft problems in the conservative politics of nationhood during the Thatcher and Major period

Irish Nationalism and the British State Brian Jenkins, 2006-05-12 No detailed description available for Irish Nationalism and the British State **Debating Nationhood and Government in Britain, 1885-1939** Duncan Tanner, 2006 This book is the first in depth study of the debates over devolution in the four nations of the UK in the period up to 1939 It explores

divergent trends and attitudes towards the principle of devolution at both local and national UK levels explains the limitations of devolution as a political ideal and the inherent contradictions in the debates over devolution which were unresolvable in the period under study

The Making of English National Identity Krishan Kumar, 2003-03-13 Why is English national identity so enigmatic and so elusive Why unlike the Scots Welsh Irish and most of continental Europe do the English find it so difficult to say who they are The Making of English National Identity first published in 2003 is a fascinating exploration of Englishness and what it means to be English Drawing on historical sociological and literary theory Krishan Kumar examines the rise of English nationalism and issues of race and ethnicity from earliest times to the present day He argues that the long history of the English as an imperial people has as with other imperial people like the Russians and the Austrians developed a sense of missionary nationalism which in the interests of unity and empire has necessitated the repression of ordinary expressions of nationalism Professor Kumar's lively and provocative approach challenges readers to reconsider their pre conceptions about national identity and who the English really are

Strategy and the Sea N. A. M. Rodger, Jeremiah Ross Dancy, Benjamin Darnell, Evan Wilson, 2016 An important book presenting the latest insights by the leading world authorities on naval history This book presents a wide range of new research on many aspects of naval strategy in the early modern and modern periods Among the themes covered are the problems of naval manpower the nature of naval leadership and naval officers intelligence naval training and education and strategic thinking and planning The book is notable for giving extensive consideration to navies other than those of Britain its empire and the United States It explores a number of fascinating subjects including how financial difficulties frustrated the attempts by Louis XIV's ministers to build a strong navy how the absence of centralised power in the Dutch Republic had important consequences for Dutch naval power how Hitler's relationship with his admirals severely affected German naval strategy during the Second World War and many more besides The book is a Festschrift in honour of John B Hattendorf for more than thirty years Ernest J King Professor of Maritime History at the US Naval War College and an influential figure in naval affairs worldwide N A M Rodger is Senior Research Fellow at All Souls College Oxford J Ross Dancy is Assistant Professor of Military History at Sam Houston State University Benjamin Darnell is a D Phil candidate at New College Oxford Evan Wilson is Caird Senior Research Fellow at the National Maritime Museum Greenwich Contributors Tim Benbow Peter John Brobst Jaap R Bruijn Olivier Chaline J Ross Dancy Benjamin Darnell James Goldrick Agust n Guimer Paul Kennedy Keizo Kitagawa Roger Knight Andrew D Lambert George C Peden Carla Rahn Phillips Werner Rahn Paul M Ramsey Duncan Redford N A M Rodger Jakob Seerup Matthew S Seligmann Geoffrey Till Evan Wilson

Decoding **Nationhood And Identity The British State**: Revealing the Captivating Potential of Verbal Expression
