The Toyah Phase of Central Texas Nancy Adele Kenmotsu, Douglas K. Boyd, 2012-09-01 In the fourteenth century a culture arose in and around the Edwards Plateau of Central Texas that represents the last prehistoric peoples before the cultural upheaval introduced by European explorers This culture has been

labeled the Toyah phase characterized by a distinctive tool kit and a bone tempered pottery tradition Spanish documents some translated decades ago offer glimpses of these mobile people Archaeological excavations some quite recent offer other views of this culture whose homeland covered much of Central and South Texas For the first time in a single volume this book brings together a number of perspectives and interpretations of these hunter gatherers and how they interacted with each other the pueblos in southeastern New Mexico the mobile groups in northern Mexico and newcomers from the northern plains such as the Apache and Comanche Assembling eight studies and interpretive essays to look at social boundaries from the perspective of migration hunter farmer interactions subsistence and other issues significant to anthropologists and archaeologists *The Toyah Phase of Central Texas Late Prehistoric Economic and Social Processes* demonstrates that these prehistoric societies were never isolated from the world around them Rather these societies were keenly aware of changes happening on the plains to their north among the Caddoan groups east of them in the Puebloan groups in what is now New Mexico and among their neighbors to the south in Mexico

An incredibly detailed account of Indigenous lifeways during the initial rounds of European exploration in south central North America Several hundred tribes of Native Americans were living within or hunting and trading across the present day borders of Texas when Cabeza de Vaca and his shipwrecked companions washed up on a Gulf Coast beach in 1528 Over the next two centuries as Spanish and French expeditions explored the state they recorded detailed information about the locations and lifeways of Texas's Native peoples Using recent translations of these expedition diaries and journals along with discoveries from ongoing archaeological investigations William C Foster here assembles the most complete account ever published of Texas's Native peoples during the early historic period AD 1528 to 1722 Foster describes the historic Native peoples of Texas by geographic regions His chronological narrative records the interactions of Native groups with European explorers and with Native trading partners across a wide network that extended into Louisiana the Great Plains New Mexico and northern Mexico Foster provides extensive ethnohistorical information about Texas's Native peoples as well as data on the various regions animals plants and climate Accompanying each regional account is an annotated list of named Indigenous tribes in that region and maps that show tribal territories and European expedition routes A very useful encyclopedic regional account of the Europeans and Native peoples of Texas who encountered one another during the relatively unexamined two hundred years before the Spanish occupation of Texas and the French establishment of Louisiana
