brings together in one volume available information on the pathology of Australian native vertebrate wildlife excluding fish. It provides rapid access to documented information on diseases in Australian wildlife domiciled either in Australia or overseas. The book comprises 45 chapters each detailing pathological changes caused by specific pathogens including viruses, bacteria, fungi, protozoa, helminths and ectoparasites and other injurious agents and conditions such as toxins and neoplasia affecting terrestrial and marine mammals, birds, reptiles and amphibians. Although the aim is to describe morphological, gross and microscopic changes, the author also indicates history and clinical signs, thus providing guidance as to which lesions should be specifically searched for and what ancillary testing might be needed to confirm a diagnosis. Illustrated throughout with colour photographs, this will be the essential reference for veterinary pathologists and clinicians as well as wildlife researchers, zoos, wildlife parks, environmentalists, conservationists and students. Awarded a 2010 Whitley Certificate of Commendation for Zoological Resource.

Australian Bird Names Jeannie Gray, Ian Fraser, 2013-05-15. Australian Bird Names is aimed at anyone with an interest in birds, words or the history of Australian biology and bird watching. It discusses common and scientific names of every Australian bird to tease out the meanings which may be useful, useless or downright misleading. The authors examine every species, its often many and varied common names, its full scientific name with derivation, translation and a guide to pronunciation. Stories behind the name are included as well as relevant aspects of biology, conservation and history. Original descriptions translated by the authors have

been sourced for many species As well as being a book about names this is a book about the history of ever developing understandings of birds about the people who contributed and most of all about the birds themselves 2013 Whitley Award Commendation for Zoological Resource
