Scythe and the City Christian Henriot, 2016-05-18 The issue of death has loomed large in Chinese cities in the modern era Throughout the Republican period Shanghai swallowed up lives by the thousands Exposed bodies strewn around in public spaces were a threat to social order as well as to public health In a place where every group had its own beliefs and set of death and funeral practices how did they adapt to a modern urbanized environment How did the interactions of social organizations and state authorities manage these new ways of thinking and acting Recent historiography has almost completely ignored the ways in which death created such immense social change in

China Now *Scythe and the City* corrects this problem Christian Henriot's pioneering and original study of Shanghai between 1865 and 1965 offers new insights into this crucial aspect of modern society in a global commercial hub and guides readers through this tumultuous era that radically redefined the Chinese relationship with death **A Sense of the City** Gala Maria Follaco, 2017-10-17 In *A Sense of the City* Gala Maria Follaco examines Nagai Kaf's 1879-1959 literary construction of urban spatialities from late Meiji through the early Sh wa period She argues that Kaf's urban critique was based on his awareness of the cultural sedimentation of the cityscape and of the complex relationship that it bore with the historical framework of modern Japan With the overall aim to define Kaf's position within pre-war Japanese literature Follaco touches upon key issues such as memory class difference and language ideologies draws connections between his sojourn abroad and strategies of mapping the city of Tokyo in his literature and takes into account works previously understudied including his biography of Washizu Kid and his photographs **Global Shanghai, 1850-2010** Jeffrey N Wasserstrom, 2008-11-25 This book explores the play of international forces and international ideas about Shanghai looking backward as far as its transformation into a subdivided treaty port in the 1840s and looking forward to its upcoming hosting of China's first World's Fair the 2010 Expo As such *Global Shanghai* is a lively and informative read for students and scholars of Chinese studies and urban studies and anyone interested in the history of Shanghai *Reappraising Republican China* Frederic E. Wakeman, Richard L. Edmonds, 2000 This book testifies to the accomplishments of Republican studies during the 1980s and early 1990s Reviewing many aspects of contemporary research it covers the transition from the late Qing dynasty to the Republic agricultural development from the mid 1890s to 1937 the political aspects of twentieth century Chinese urban history the problems of capacity building for Republican era governments political party organization finance and military matters Shanghai's modernization process the politics of the Kuomintang during the Nanjing decade and its relationship with fascism and Republican era diplomacy *China in War and Revolution, 1895-1949* Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades

Muscolino, 2009 This work explores interactions between society and environment in China's most important marine fishery the Zhoushan Archipelago off the coast of Zhejiang and Jiangsu from its 19th century expansion to the exhaustion of the most important fish species in the 1970s

The Scramble for China Robert Bickers, 2016-02-25 In the early nineteenth century China remained almost untouched by British and European powers but as new technology started to change this balance foreigners gathered like wolves around the weakening Qing Empire Would the Chinese suffer the fate of much of the rest of the world carved into pieces by Europeans Or could they adapt rapidly enough to maintain their independence This important and compelling book explains the roots of China's complex relationship with the West by illuminating a dramatic colourful and sometimes shocking period of the country's history
