## **Natos Peace Enforcement Tasks And Policy Communities 1990 1999:**

*NATO's Peace Enforcement Tasks and Policy Communities* Giovanna Bono, 2017-11-30 This book was published in 2003 How has NATO managed to survive and transform itself into a peace enforcement organization Challenging the dominant assumption that NATO intervened in the Balkans because of the threat that conflicts in the region posed to European security this book develops a new set of research questions based on the hypothesis of the existence of policy communities The author demonstrates that there were shifting policy communities in operations that shaped the Alliance s transformation process arguing that NATO would not have succeeded in assuming peace enforcement tasks without other factors ranging from organisational dynamics domestic politics and the impact of ad hoc reactions to external events coming into play Highlighting the role of NATO as an actor in international security this volume is aimed at academics and practitioners in the field of international relations

**National Role Conceptions in a New Millennium** Michael Grossman, Francis Schortgen, Gordon M. Friedrichs, 2022-02-17 *National Role Conceptions in a New Millennium* examines the transformation of the international system through an examination of the role conceptions adopted by the different global actors Advancing current role theory scholarship in International Relations the contributors take as their starting point the question of how international actors are responding to the reordering of the global system They reflect on the rise of new actors and the reemergence of old rivalries the decline of established norms and the unleashing of internal political forces such as nationalism and parochialism They argue that changes in the international system can impact how states define their roles and act as a variable in both domestic and international role contestations Further they examine the redefinition of roles of countries and the international organizations that have been central to the US and western dominated world order including major powers in the world the US Russia China Britain etc as well as the European Union NATO and ASEAN By looking at international organizations this text moves beyond the traditional subjects of role theory in the study of international relations to examine how roles are contested in non state actors *National Role Conceptions in a New Millennium* is the first attempt to delve into the individual motivations of states to seek role transition As such it is ideal for those teaching and studying both theory and method in international relations and foreign policy analysis

**NATO Beyond 9/11** E. Hallams, L. Ratti, B. Zyla, 2013-11-20 This collection reflects on the significance of the 9 11 terrorist attacks for the transatlantic alliance Offering an analysis of NATO s evolution since 2001 it examines key topics such as the alliance s wars in Afghanistan its military operation in Libya global partnerships burden sharing and relations with the US and Russia

**NATO and the Western Balkans** Niall Mulchinock, 2017-03-28 This book provides a critical examination of NATO s evolving strategic and operational roles in the Western Balkans since the disintegration of Yugoslavia in 1991 with a particular focus on Bosnia Kosovo and the former Yugoslav Republic of Macedonia in both the conflict and post conflict phases While there is a myriad of literature available on the various conflicts that engulfed the former Yugoslavia after the collapse of communism less has

been written on NATO's overall role in these conflicts. This text therefore fills the gap offering a thematic study of NATO's roles and duties in this region from the early 1990s to the present day. The levels of analysis introduced by Mulchinock provide a new framework for examining NATO's response to the Yugoslav wars of secession focusing on the role of key NATO member states and the role of different NATO Secretaries General along with the impact of inter-institutional cooperation and conflict with other international organisations.

**Crises in the Atlantic Alliance** L. Eznack, 2012-11-28 Through a theoretical and empirical examination of the 1956 Suez Crisis, the 1966 NATO crisis and the 2003 Iraq crisis, Eznack explores the connections between affect and emotion, the occurrence of crises and the repair of those crises in close allies' relationships and provides a new perspective on alliances and friendly relations among states.

*The United States and NATO since 9/11* Ellen Hallams, 2009-12-04 The US decision not to work through NATO after 9/11 left many European members of the alliance feeling deflated. This decision reflected not only the unilateralism of the Bush Administration but also the belief that US operational freedom and flexibility had been hampered during NATO's two Balkans interventions. This book examines US attitudes to and perspectives on the transatlantic alliance with a particular focus on US-NATO relations since 9/11. It demonstrates that following the decision to bypass NATO after 9/11, the Bush Administration's perceptions of the alliance shifted due to a belated recognition that NATO did indeed have much to offer the US. Hallams explores NATO's contributions to post-combat reconstruction and stabilisation operations in Afghanistan and Iraq and argues that the events of 9/11 galvanised NATO into undertaking an accelerated program of transformation that has done much to reinvigorate the alliance. This book offers an optimistic assessment of the transatlantic alliance counter-balanced by realistic reflections on the problems it faces. Drawing on interviews with US and NATO officials, it argues that NATO is far from irrelevant and that prospects for the alliance remain fundamentally positive. It will be of interest to students and scholars of US Foreign Policy, American politics, international relations, security studies and transatlantic studies.

**The End of European Security Institutions?** Benjamin Zyla, 2020-03-06 This book discusses Brexit's implications for the two most important security institutions in Europe: the EU's Common Foreign and Security Policy (CFSP) and the North Atlantic Treaty Organization (NATO). While Brexit is still unfolding, this book asks what it would mean for the future embedding of the UK into CFSP and NATO as well as how it will most likely affect the inner mechanics of the transatlantic alliance. NATO and CFSP, in particular, in the years to come. The book is divided into two parts. Part I provides a historical overview of the evolution of the relationships between the UK and NATO and the EU respectively. Part II discusses the geopolitical contexts and potential impacts of Brexit, focusing on the contemporary security environment as well as the options that the EU has in the event an agreement is concluded. Using both predictive and normative arguments, this book provides likely scenarios for an event that continues to be a source of much uncertainty for the global community. Making an important contribution to one of the most important policy debates in international security affairs today, this book is of interest to students and researchers of international

security affairs European politics and global governance as well as policymakers and practitioners working on the Brexit file
