Natural Born Killers The Original Screenplay

Kevin Alexander Boon

Natural Born Killers The Original Screenplay:

Natural Born Killers Quentin Tarantino, 2000 This original screenplay offers fans and film buffs the opportunity to compare Tarantino's original vision with Oliver Stone's version of the story of Mickey and Mallory outlaw lovers on the run

Natural Born Killers, 1993 **The Oliver Stone Encyclopedia** James M. Welsh, Donald M. Whaley, 2013 Oliver Stone has written and directed many memorable films while also developing a reputation for tackling controversial subjects such as the Turkish prison system *Midnight Express* the Vietnam war *Platoon* and *Born on the Fourth of July* insider trading Wall Street presidential assassination JFK and a voyeuristic media *Natural Born Killers* Along the way Stone has been nominated for more than 10 Academy Awards and three times received Oscars for his work In *The Oliver Stone Encyclopedia* James M. Welsh and Donald M. Whaley provide an overarching evaluation of Stone's work as screenwriter producer and director While the entries in this volume address all of the usual aspects of Stone's career they also explore new avenues of critical evaluation especially influences such as Friedrich Nietzsche and Buddhism which Stone converted to in the 1990s In addition this volume traces Stone's obsession with Latin American politics evident in his film *Salvador* 1986 his screenplay for Alan Parker's *Evita* 1996 and the documentaries *Commandante* 2003 *Looking for Fidel* 2004 and *South of the Border* 2010 Each entry is followed by a bibliography of published sources both in print and online A comprehensive and engaging examination of the director *The Oliver Stone Encyclopedia* will appeal to scholars and fans alike as the most comprehensive reference on this director's body of work **Cinema of Simulation: Hyperreal Hollywood in the Long 1990s** Randy Laist, 2016-09-22

Hyperreality is an Alice in Wonderland dimension where copies have no originals simulation is more real than reality and living dreams undermine the barriers between imagination and objective experience The most prominent philosopher of the hyperreal Jean Baudrillard formulated his concept of hyperreality throughout the 1980s but it was not until the 1990s that the end of the Cold War along with the proliferation of new reality bending technologies made hyperreality seem to come true In the lost decade between the fall of the Berlin Wall and 9/11 the nature of reality itself became a source of uncertainty a psychic condition that has been recognizably recorded by that seismograph of American consciousness Hollywood cinema The auteur cinema of the 1970s aimed for gritty realism and the most prominent feature of Reagan era cinema was its fantastic unrealism Clinton era cinema however is characterized by a prevailing mood of hyperrealism communicated in various ways by such benchmark films as *JFK* *Pulp Fiction* and *The Matrix* The hyperreal cinema of the 1990s conceives of the movie screen as neither a window on a preexisting social reality realism nor as a wormhole into a fantastic dream dimension escapism but as an arena in which images and reality exchange masks blend into one another and challenge the philosophical premises which differentiate them from one another *Cinema of Simulation: Hyperreal Hollywood in the Long 1990s* provides a guided tour through the anxieties and fantasies reciprocally social and cinematic which characterize the surreal territory of the hyperreal **Pulp Fiction** Jason Bailey, 2013-11-11 Film expert Jason Bailey explores Quentin

Tarantino's PULP FICTION in a comprehensive book illustrated throughout with original art inspired by the film and including sidebars and special features on everything from casting close calls to deleted scenes Bailey discusses how the film was revolutionary examines its director's influences illuminates its pop culture references and describes its phenomenal legacy

Script Culture and the American Screenplay Kevin Alexander Boon, 2008-01-10 By considering the screenplay as a literary object worthy of critical inquiry this volume breaks new ground in film studies Though the history of the screenplay is as long and rich as the history of film itself critics and scholars have neglected it as a topic of serious research Script Culture and the American Screenplay treats the screenplay as a literary work in its own right presenting analyses of screenplays from a variety of frameworks including feminism Marxism structuralism philosophy and psychology In distancing the text of screenplays from the on screen performance typically associated with them Kevin Alexander Boon expands the scope of film studies into exciting new territory with this volume Script Culture and the American Screenplay is divided into two parts Part 1 provides a general background for screenplay studies tracing the evolution of the screenplay from the early shot lists and continuities of George M. Seldes and Thomas Harper Ince to the more detailed narratives of contemporary works Part 2 offers specific primarily thematic critical examinations of screenplays along with discussions of the original screenplay and the screenplay adaptation In all Boon explains that screenplay criticism distinguishes itself from traditional film studies in three major ways The primary focus of screenplay criticism is on the screenplay rather than the film the focus of screenplay studies is on the screenwriter rather than the director and screenplay criticism like literary criticism is written to illuminate a reader's understanding of the text Boon demonstrates that whether we are concerned with aesthetics and identifying rules for distinguishing the literary from the non literary or whether we align ourselves with more contemporary theories which recognize texts as distinguishable in their inter relationships and marked difference screenplays constitute a rich cache of works worthy of critical examination Film scholars as well as students of film creative writing and literary studies will appreciate this singular volume
