Holding Schools Accountable Kris Sloan,2006-12-30 Sloan explores the varied contours of the educational accountability movement that has swept the United States He describes the historical origins and underlying assumptions of present day accountability measures current issues surrounding accountability relationships between the accountability and the standards movements and the role of standardized testing in each of these movements and provides a critical reading of the seemingly divided literature concerning the effects of accountability on public education This volume also focuses on the implications of accountability measures on parents families and communities including details of the varied efforts by grassroots organizations that have raised concerns over current accountability measures While there has been a substantial amount of parent and community opposition to both state and national accountability policies increasingly these organizations are offering suggestions for ways to make accountability measures better and more responsive to both community and student needs The work concludes by offering valuable suggestions about improving even strengthening accountability measures in ways that are more responsive and respectful of students their families and local communities

Rogers,2016-08-30 Children enter the world curiously hard wired for creativity and imagination After a few short years of school something drastically changes for them Why There is an unmistakable and deliberate attempt to control the learning of young people who find themselves sitting in our schools The industrial model of schooling has taken its toll and victims without remorse It programs curious young minds to become helpless dependent and compliant It is manipulation and malpractice but few seem to notice or care After years of observing and participating in some of these questionable practices
