Common Planning Time in Middle Level Schools Steven B. Mertens, Vincent A. Anfara, Micki M. Caskey, Nancy Flowers, 2013-03-01 This volume the ninth volume in the Handbook of Research in Middle Level Education is a compilation of research studies focusing on the use and implementation of common planning time CPT in middle level schools All of the studies were part of the Middle Level Education Research SIG s National Middle Grades Research Project NMGRP on Common Planning Time which provides additional evidence about teachers understandings experiences the benefits and barriers about CPT Since all researchers participating in the SIG sponsored project utilized the same data collection protocols and followed the same protocols the overall data collection was systematic and is highly reliable Five research questions were generated to guide the development of the data collection protocols While the authors were encouraged to use their data to address these project level questions they were not required to do so The project consisted of both qualitative and quantitative data collection Phase I qualitative consisted of observations of CPT meetings and structured interviews with teachers Phase II quantitative

was comprised of an online teacher survey Within the chapters of this volume a variety of relevant and meaningful research questions are examined utilizing both qualitative and quantitative methodologies

Self-Regulation in Adolescence

Gabriele Oettingen, Peter M. Gollwitzer, 2015-09-25 This interdisciplinary volume examines the challenges adolescents face and the self regulation tools that most effectively ease the transition to adulthood

How to Conquer the Barriers to

Intercultural Dialogue Christiane Timmerman, Barbara Segaeert, 2007-09 In a world society ruled by economic globalisation by political interests and theories such as Huntington's clash of civilisations that widen the gap between the North and the South the question should be asked of the role of the religion To what extent religion and politics can work together Can faith still be thought as a means of saving the world Considering that Christianity Islam and Judaism have much in common this collection of miscellanies wonders if these religions can join their forces for public benefit Senior and junior scholars from all over the world gathered for an interdisciplinary seminar analyse the contemporary international relationships and geopolitics through the prism of religion discussing whether it can provide practical solutions to solve conflicts and increase the respect of human rights

Transitions from School to Work Ingrid Schoon, Rainer K. Silbereisen, 2009-08-24 This volume made an important contribution to the growing literature on the transition from school to work It provides a different perspective on the global changes that have transformed school to work transitions since the 1970s offers an integrative conceptual framework for analysis and promotes a comparative cross national understanding of school to work transitions in a changing social context The articles assembled in this volume compare and assess variations in school to work transitions across Europe and North America providing empirical evidence on how young people negotiate the different options and opportunities available and assessing the costs and returns associated with different transition strategies Unlike many other volumes on this subject which are pitched at either the macro or micro level this volume attempts to integrate both perspectives capturing the complexity of this critical life course transition Furthermore the authors address policies aimed at improving the capacity of individuals to make effective transitions and at enabling societies to better coordinate educational and occupational institutions

Reforming Middle Level Education

Sue C. Thompson, Vincent A. Anfara, 2004-06-01 This volume of *The Handbook of Research in Middle Level Education* is a significant contribution to the literature on middle level schools because it is written specifically with policymakers in mind Middle level scholars have illuminated the most important issues concerning the education of young adolescents of which policymakers must be knowledgeable It is only by having informed policymakers that middle level schools can truly thrive and provide the kind of education that every young adolescent deserves The future of our country depends on it

Resources in Education, 2000

Schools and Public

Health Michael Gard, Carolyn Pluim, 2014-06-18 *Schools and Public Health* is a meditation on the past present and future of the relationship between public health and American public schools Gard and Pluim begin by developing a historical account of the way schools have been used in the public health policy arena in America They then look in detail at more contemporary

examples of school based public health policies and initiatives in order to come to a judgment about whether and to what extent it makes sense to use schools in this way With this is as the foundation the book then offers answers to the question of why schools have so readily been drawn into public health policy formulations First seeing schools as a kind of miracle factory is a long standing habit of mind that discourages careful consideration of alternative public health strategies Second schools have been implicated in public health policy in strategic ways by actors often with unstated political cultural ideological and financial motivations Finally the authors call for a more sophisticated approach to public health policy in schools and suggest some criteria for judging the potential efficacy of school based interventions In short the potential effectiveness of proposed interventions needs to be assessed not only against existing historical evidence but also against the competing roles society expects schools to play and the working life realities for those charged with implementing public health policies in schools
