Presence Of The Past In Politics 1956 After 1956 In Hungary:

The Presence of the Past in Politics Heino Nyssönen, 1999 **Hungary since 1945** Árpád von Klimó, 2017-12-14 Lying on the political fault line between East and West for the past seventy five years the significance of Hungary in geopolitical terms has far outweighed the modest size of its population This book charts the main events of these tumultuous decades including the 1956 Uprising the end of Hungarian communism entry into the European Union and the rise to power of Viktor Orbán and the national conservative ruling party Fidesz **Magyars and Political Discourses in the New Millennium**

Melinda Kovács, 2014-11-20 In this book Melinda Kovács analyzes various areas of Hungarian political discourse newspapers party websites informational books on the EU and government produced brochures sent to all households in Hungary The inquiry is supported by an understanding of politics as achieving and negotiating change in discourse which is not to be equated with simple language use In addition to language discourse also encompasses the meanings shared by members of a political community along with the conventions of what is possible or plausible in politics In the case of Hungary at the start of the twenty first century it is quite plausible to promote ethno nationalism and it is quite possible to understand Hungarian political community in terms of historical references different from or devoid of communism and post communism An exploration of discourses generated between 1999 and 2013 reveals that while political developments in recent years have been a cause for legitimate concern Hungarian political discourse has been making these developments plausible

Fabricating Authenticity in Soviet Hungary Péter Apor, 2015-03-01 This book explores the memory of the First Hungarian Soviet Republic of 1919 which proved crucial for communist Hungarian political culture in the twentieth century Apor approaches the topic in an innovative way focusing on the understudied aspects of European memory cultures Offering great insights on how a dictatorship remembers and the concept of authenticity Apor's study integrates the broad range of processes through which history is sought to be rendered authentic The volume successfully reveals the crooked history of the retrospective revisions of the iconic First Republic between the years of its 30th and 40th anniversary 1949 and 1959

Catholics and Political Violence in the Twentieth Century Lucia Ceci, 2024-10-14 Catholics and Political Violence in the Twentieth Century presents a historical reconstruction of the ways in which Catholics have justified the recourse to political violence during the twentieth century a period marked by major wars nationalisms decolonization ideological clashes and episodes of genocide Legitimation processes are particularly complex when this violence is not endorsed by the state and perhaps used against it Depending on perspective the protagonists of this radical form of collective action may be seen as terrorists or freedom fighters Written by a leading historian of contemporary Catholicism this book examines a series of case studies from different parts of the world selected because of the central role played by the Catholic religion They range from Northern Ireland to the Basque Country from the Philippines to Colombia and from Mexico to Rwanda It highlights how theological sources paradigms of martyrdom and symbols of the Christian tradition have provided a catalogue of reasons to

give moral value to violence and promote it in the name of God By looking at the history of Catholicism in global terms and adopting a transnational perspective Catholics and Political Violence in the Twentieth Century sheds a critical light on the themes that are crucial to understanding the relationship between religion and violence It will appeal to scholars and students working and studying in the fields of Modern and Contemporary History Religious Studies Terrorism Studies Cultural and Global Studies Intellectual History and the History of Political Thought **Remains of Socialism** Maya Nadkarni,2020-07-15 In Remains of Socialism Maya Nadkarni investigates the changing fates of the socialist past in postsocialist Hungary She introduces the concept of remains both physical objects and cultural remainders to analyze all that Hungarians sought to leave behind after the end of state socialism Spanning more than two decades of postsocialist transformation Remains of Socialism follows Hungary from the optimism of the early years of transition to its recent right wing turn toward illiberal democracy Nadkarni analyzes remains that range from exiled statues of Lenin to the socialist era Bambi soda and from discredited official histories to the scandalous secrets of the communist regime s informers She deftly demonstrates that these remains were far more than simply the leftovers of an unwanted past Ultimately the struggles to define remains of socialism and settle their fates would represent attempts to determine the future and to mourn futures that never materialized Narrating, Doing, Experiencing Annikki Kaivola-Bregenhøj,Barbro Klein,Ulf Palmenfelt,2006-06-15 How do people tell of experiences things and events that mean a lot to them and are unforgettable Eight Nordic folklorists here examine personal experience stories and the way they are narrated in an attempt to gain an understanding of the people behind them and to reveal how these people handle their history their lives and their cultural memory All the articles are based on interviews and narrator researcher collaboration The stories tell about birth sickness and miraculous cures intergenerational relations war and matters not normally talked about The analyses complement one another and the work may be used as a university course book *Conservatism and Memory Politics in Russia and Eastern Europe* Katalin Miklóssy,Markku Kangaspuro,2021-12-13 This book discusses the diverse practices and discourses of memory politics in Russia and Eastern Europe It argues that currently prevailing conservatism has a long tradition which continued even in Communist times and is different to conservatism in the West which can accommodate other viewpoints within liberal democratic systems It considers how important history is for conservatism and how history is reconstituted according to changing circumstances It goes on to examine in detail values which are key to conservatism such as patriotism Christianity and religious life and the traditional model of the family the importance of the sovereign national state within globalization and the emphasis on a strong paternal state featuring hierarchy authority and political continuity The book concludes by analysing how far states in the region are experiencing a common trend and whether different countries conservative narratives are reinforcing each other or are colliding *Challenges to Democracy* Sten Berglund,2001-01-01 The book is written in a systematic clear and accessible style and provides an excellent introduction to the state of democracy in

contemporary postsocialist Europe Recommended for undergraduate graduate research and faculty collections P Rutland Choice The euphoria evidenced in the aftermath of the collapse of communist regimes in the late 1980s and early 1990s sometimes conveyed the impression that the process of democratization would be achieved without difficulty or tribulation This book sets out to provide a thorough comparative analysis of the challenges which face the emerging democracies of Central and Eastern Europe and considers the impact of political change Drawing heavily on available survey data the book provides an in depth account of how the new democracies of Central and Eastern Europe have coped with four major challenges political fragmentation nationalism lack of respect for human rights and poorly developed civil service systems The book demonstrates that although the first few years of the 1990s were marked by increasing disenchantment with the new regimes the change of governments as a direct result of the electoral process and the prospects for European integration have served to reverse this negative trend Indeed the authors find that the new political systems have managed to cope with the challenges so effectively that striking similarities with Western democracies are now apparent

Narrating, Doing, Experiencing Annikki Kaivola-Bregenhøj, Klein Barbro, Palmenfelt Ulf, 2018-11-01 How do people tell of experiences things and events that mean a lot to them and are unforgettable Eight Nordic folklorists here examine personal experience stories and the way they are narrated in an attempt to gain an understanding of the people behind them and to reveal how these people handle their history their lives and their cultural memory All the articles are based on interviews and narrator researcher collaboration The stories tell about birth sickness and miraculous cures intergenerational relations war and matters not normally talked about The analyses complement one another and the work may be used as a university course book
