Present Personal Philosophy And The Hidden Face Of Language:

The Present Personal Hagi Kenaan, 2005-02-09 Is philosophy deaf to the sound of the personal voice While philosophy is experienced at admiring resenting celebrating and at times renouncing language philosophers have rarely succeeded in being intimate with it Hagi Kenaan argues that philosophy's concern with abstract forms of linguistic meaning and the objective propositional nature of language has obscured the singular human voice In this strikingly original work Kenaan explores the ethical and philosophical implications of recognizing and responding to the individual presence in language In pursuing the philosophical possibility of listening to language as the embodiment of the human voice Kenaan explores the phenomenological notion of the personal He defines the personal as the irresolvable tension that exists between the public character of language necessary for intelligibility and the ways in which we as individuals remain riveted to our words in a contingently singular manner The Present Personal fuses phenomenology and aesthetics and the traditions of Continental and Anglo American philosophy drawing on Wittgenstein J L Austin Kant Kierkegaard and Heidegger as well as literary works by Kafka Kundera and others By asking new questions and charting fresh terrain Kenaan does more than offer innovative investigations into the philosophy of language The Present Personal and its concern with the intimate and personal nature of language uncovers the ethical depth of our experience with language Kenaan begins with a discussion of Kierkegaard's existential critique of language and the ways in which the propositional structure of language does not allow the spoken to reflect the singularity of the self He then compares two attempts to subvert the hegemony of content the pragmatic turn of J L Austin and the poetic path of Heidegger Kenaan concludes by turning to Kant and discovering an analogy between the experience of meaning in language and the aesthetic experience of encountering beauty Kenaan's reconceptualization of philosophy's approach to language frees the contingent singularity of language while at the same time permitting it to continue to dwell within the confines of content

Shoah Presence: Architectural Representations of the Holocaust

Eran Neuman, 2016-04-01 Through the analysis of several commemorative acts in space matter and image namely museums and memorials this book reflects on the ways in which architecture as a discipline a practice and a discourse represents the Holocaust In doing so it problematises how one presents an extreme historical case in a contemporary context and integrates the historical into actuality By examining several cases the book defines the issues faced by various architects who dealt with this topic and discusses their separate and distinctive approaches In each case it analyses the ways in which the cultural and political contexts of commemoration led to a different interpretation of the condition Focusing on the Ghetto Fighters House the world's first Holocaust museum Yad Vashem Israel's national Holocaust memorial in Jerusalem the US Holocaust Memorial Museum in Washington and the Holocaust Memorial in Berlin the book discusses how the representation of history by architecture creates a dialectic process in which architecture mediates the past to the present while at the same time creating a present saturated with historical contexts It shows how together they are incorporated into one another and

create a new reality past and present intertwined **'Yo!' and 'Lo!'** Rebecca Kukla, Mark Lance, 2009 Much of 20th century philosophy approached metaphysical and epistemological issues through an analysis of language This book demonstrates that non declarative speech acts including vocative hails Yo and calls to shared attention Lo are as fundamental to the possibility and structure of meaningful language as are declaratives

The Ethics of Visuality Hagi Kenaan, 2013-05-30 Our world is saturated with images Overwhelmed by this proliferation of visual stimuli our gaze becomes increasingly bored and distracted Do we ever really read and engage with images Can they ever provide the sense of meaningfulness we crave French Jewish philosopher Emmanuel Levinas confronted and subverted these questions A superficial reading of his works might indicate an ambivalence if not a wholesale critique of the visual whose mode of signification remains for him objectified finite and flat Yet an enigmatic statement Ethics is an optics recurred throughout his work Hagi Kenaan takes this mysterious idea as the starting point for a strikingly original philosophical argument on the place of visuality in Levinas ethics The Ethics of Visuality analyses Levinas philosophy of the human face in order to show how his vision of Otherness alterity and transcendence can open up for us a new and surprising kind of optics that is so needed for an ethical living in the contemporary world Where other critical approaches have largely undermined Levinas ambivalence towards the visual The Ethics of Visuality uncovers the relevance of Levinas bias against the visual to developing a radical philosophy theory of visual meaning in which the aesthetic is always already intertwined with the ethical

Philosophy's Moods: The Affective Grounds of Thinking Hagi Kenaan, Ilit Ferber, 2011-08-13 Philosophy's Moods is a collection of original essays interrogating the inseparable bond between mood and philosophical thinking What is the relationship between mood and thinking in philosophy In what sense are we always already philosophizing from within a mood What kinds of mood are central for shaping the space of philosophy What is the philosophical imprint of Aristotle's wonder Kant's melancholy Kierkegaard's anxiety or Nietzsche's shamelessness Philosophy's Moods invites its readers to explore the above questions through diverse methodological perspectives The collection includes twenty one contributions by internationally renowned scholars as well as younger and emerging voices In pondering the place of the subjective and personal roots that thinking is typically called to overcome the book challenges and articulates an alternative to a predominant tendency in philosophy to view the theoretical content and the affective side of thought as opposed to one another

Levinas and James Megan Craig, 2010 Bringing to light new facets in the philosophy of Emmanuel Levinas and William James Megan Craig explores intersections between French phenomenology and American pragmatism Craig demonstrates the radical empiricism of Levinas's philosophy and the ethical implications of James's pluralism while illuminating their relevance for two philosophical disciplines that have often held each other at arm's length Revealing the pragmatic minimalism in Levinas's work and the centrality of imagery in James's prose she suggests that aesthetic links are crucial to understanding what they share Craig's suggestive readings change current perceptions and clear a path for a more open pluralistic and creative pragmatic phenomenology that takes cues from

both philosophers **Language Pangs** Ilit Ferber, 2019 We usually think about language and pain as opposites the one is about expression and communication the other very private unspeakable and isolating Language Pangs challenges these familiar conceptions and proposes a reconsideration of the relationship between pain and language in terms of an essential interconnectedness rather than the common exclusive opposition Language Pangs brings together discussions of philosophical as well as literary texts focusing on the relationship between pain and language It provides close readings of Johann Gottfried Herder's Treatise on the Origin of Language Martin Heidegger's seminar on Herder's text about language and Sophocles play Philoctetes **Pandora's Senses** Vered Lev Kenaan, 2008-02-05 The notorious image of Pandora haunts mythology a woman created as punishment for the crimes of man she is the bearer of hope yet also responsible for the earth's desolation She binds together perpetuating dichotomies that underlie the most fundamental aspects of the Western canon beauty and evil body and soul depth and superficiality truth and lie Speaking in multiplicity Pandora emerges as the first sign of female complexity In this compelling study Vered Lev Kenaan offers a radical revision of the Greek myth of the first woman She argues that Pandora leaves a decisive mark on ancient poetics and shows that we can unravel the profound impact of Pandora's image once we recognize that Pandora embodies the very idea of the ancient literary text Locating the myth of the first woman right at the heart of feminist interrogation of gender and textuality Pandora's Senses moves beyond a feminist critique of masculine hegemony and shows the centrality of this iconic figure among the poetics of such central genres as the cosmological and didactic epic the Platonic dialogue the love elegy and the ancient novel Pandora's Senses innovates our understanding of gender as a critical lens through which to view ancient literature *Mood* Birgit Breidenbach, Thomas Docherty, 2019-04-10 Mood is a phenomenon whose study is inherently interdisciplinary While it has remained resistant to theorisation it nonetheless has a substantial influence on art politics and society Since its practical omnipresence in every day life renders it one of the most significant aspects of affect studies it has garnered an increasing amount of critical attention in a number of disciplines across the humanities sciences and social sciences in the past two decades Mood Interdisciplinary Perspectives New Theories provides a comprehensive theoretical and empirical exploration of the phenomenon of mood from an interdisciplinary angle Building on cutting edge research in this emerging field and bringing together established and new voices it bridges the existing disciplinary gap in the study of mood and further consolidates this phenomenon as a crucial concept in disciplinary and interdisciplinary study By combining perspectives and concepts from the literary studies philosophy musicology the social sciences artistic practice and psychology the volume does the complexity and richness of mood related phenomena justice and benefits from the latent connections and synergies in different disciplinary approaches to the study of mood **Despite Oneself** Claudia Welz, Karl Verstryng, 2008
