Presentations Of Gender:

Presentations of Gender Robert J. Stoller, 1985 *Gender Revolution* Pamela Aronson, Matthew R. Fleming, 2023-10-12
Gender Revolution carefully examines the profound transformations happening in both public and private arenas of gender relations. It also draws critical attention to the simultaneous and potent challenges that have risen in response. The authors look to large scale phenomena in this contemporary study and address how electoral politics and the MeToo movement are reshaping everyday life. This gender revolution has led to a culture in which women and increasing numbers of men refuse to accept traditional gender norms and gender inequalities. People of all genders no longer tolerate abuses of power in politics or in their interpersonal relationships. Despite vigorous resistance, women are seizing power and refusing to back down in ways both large and small. The authors note on the one hand that people of all genders in support of these transformations are voting for progressive candidates, engaging on social media and making their interpersonal relationships more equal. On the other hand, they document considerable backlash and contestation as some people are resisting these changes and creating adversarial gender divisions. Probing across these issues, the book develops an analysis of gendered social and cultural change that reveals how movement ideas diffuse into broader culture. Gender Revolution presents a vibrant and essential study for a moment marked by significant changes to attitudes, beliefs, and views surrounding gender and gender relations and will appeal to readers interested in the scholarly study of gender, society, politics, media, law, and culture.

Invisible Families Mignon Moore, 2011-10-17 Mignon R. Moore brings to light the family life of a group that has been largely invisible: gay women of color. In a book that challenges long-standing ideas about racial identity, family formation, and motherhood, *Invisible Families* draws from interviews and surveys of one hundred Black gay women in New York City. *Invisible Families* explores the ways that race and class have influenced how these women understand their sexual orientation, find partners, and form families. In particular, the study looks at the ways in which the past experiences of women who came of age in the 1960s and 1970s shape their thinking and have structured their lives in communities that are not always accepting of their openly gay status. Overturning generalizations about lesbian families derived largely from research focused on white middle-class feminists, *Invisible Families* reveals experiences within Black American and Caribbean communities as it asks how people with multiple stigmatized identities imagine and construct an individual and collective sense of self. The Presentation Skills Workshop Sherron Bienvenu, 2000 This workshop supplies all the hands-on instruction and practical tools needed to design and lead effective training sessions. It supplies many tools such as lesson plans, overheads, learning exercises, worksheets, and examples. Gender Visibility and Erasure Vasiliki (Vicky) Demos, Marcia Texler Segal, 2022-08-15 *Gender Visibility and Erasure* offers a unique way of focusing on gender by identifying the multiple contexts in which issues of visibility, invisibility, and erasure manifest, considering who is seen and who is ignored, who has voice and who is silenced, who has agency and who is controlled. **Self-(re)presentation now** Nancy Thumim, 2020-05-18 Questions of presentation and

representation of individuals groups and communities have become key sites of struggle as evidenced by the battles in both physical and digital spaces battles which have also thrown the roles of digital affordances systems industries and structures into relief This book shows that questions about the re presentation of the self in digital culture are now key to how the field of media and communication must engage with the political and demonstrates the wide range of scholarship focusing on presentation and representation of the self in recent times The contributors show that questions of self presentation and representation in digital culture are the focus of lively debate critique and investigation and that this is taking place from a number of theoretical perspectives and locations across the globe This book was originally published as a special issue of Popular Communication

Pop Culture and Power Dawn H. Currie, Deirdre M. Kelly, 2022-03-01 Literacy education has historically characterized mass media as manipulative towards young people who as a result are in need of close reading skills By contrast Pop Culture and Power treats literacy as a dynamic practice shaped by its social and cultural context It develops a framework to analyse power in its various manifestations arguing that power works through popular culture not as everyday media Pop Culture and Power thus explores media engagement as an opportunity to promote social change Seeing pop culture as a teaching opportunity rather than as a threat Dawn H Currie and Deirdre M Kelly worked with K 12 educators to investigate how pop culture can support teaching for social justice Currie and Kelly began the research for this project with a teacher education seminar in media analysis where participants designed classroom activities using board games popular film music videos and advertisements These activities were later piloted in participants classrooms enabling the authors to identify and address practical issues encountered by student learners Case studies describe the design implementation and retrospective assessment of activities engaging learners in media analysis and production Following the case studies the authors consider how their approach can foster ethical practices when engaging in the digital environment Pop Culture and Power offers theoretically informed yet practical tools that can help educators prepare youth for engagement in our increasingly complex world of mediated meaning making
