Preserving Charlestons Past Shaping Its Future:

Renaissance in Charleston James M. Hutchisson, Harlan Greene, 2003 The essays tell how these and other individuals faced the tensions and contradictions of their time and place While some traced their lineage back to the city s first families others were relative newcomers Some broke new ground racially and sexually as well as artistically others perpetuated the myths of the Old South Some were censured at home but praised in New York London and Paris The essays also underscore the significance and growth of such cultural institutions as the Poetry Society of South Carolina the Charleston Museum and the Gibbes Art Gallery BOOK JACKET **Giving Preservation a History** Max Page, Randall Mason, 2004 Table of contents

Mason, Max Page, 2019-10-21 In this volume some of the leading figures in the field have been brought together to write on the roots of the historic preservation movement in the United States ranging from New York to Santa Fe Charleston to Chicago Giving Preservation a History explores the long history of historic preservation how preservation movements have taken a leading role in shaping American urban space and development how historic preservation battles have reflected broader social forces and what the changing nature of historic preservation means for efforts to preserve national urban and local heritage The second edition adds several new essays addressing key developing areas in the field by major new voices The new essays represent the broadening range of scholarship on historic preservation generated since the publication of the

first edition taking better account of the role of cultural diversity and difference within the field while exploring the connections between preservation and allied concerns such as environmental sustainability LGBTQ and nonwhite identity and economic development The Southern Past William Fitzhugh Brundage,2009-07 Annotation Since the Civil War whites and blacks have struggled over the meanings and uses of the Southern past Indeed today s controversies over flying the Confederate flag renaming schools and streets and commemorating the Civil War and the civil rights movement are only the latest examples of this ongoing divisive contest over issues of regional identity and heritage The Southern Past argues that these battles are ultimately about who has the power to determine what we remember of the past and whether that remembrance will honor all Southerners or only select groups For more than a century after the Civil War elite white Southerners systematically refined a version of the past that sanctioned their racial privilege and power In the process they filled public spaces with museums and monuments that made their version of the past sacrosanct Yet even as segregation and racial discrimination worsened blacks contested the white version of Southern history and demanded inclusion Streets became sites for elaborate commemorations of emancipation and schools became centers for the study of black history This counter memory surged forth and became a potent inspiration for the civil rights movement and the black struggle to share a common Southern past rather than a divided one W Fitzhugh Brundage s searing exploration of how those who have the political power to represent the past simultaneously shape the present and determine the future is a valuable lesson as we confront our national past to meet the challenge of current realities **For the Public Record** Barbara Stuhler,2000-06-30 Through a judicious selection of documents from the papers of the League of Women Voters of the United States in the Library of Congress Stuhler reveals the rich history of an organization designed to serve the public interest In the aftermath of the 72 year long effort by American women to win the vote the League was formed to prepare these new voters for their responsibilities as full participating citizens The organization s first president Maud Wood Park and her associates established Citizenship Schools throughout the nation to educate women and they were so successful that one newspaper complained Why not for men too Succeeding presidents built the League s reputation as an organization inventive in its dual roles as a voter educator and civic activist While League members were expected to be nonpartisan they were also encouraged to be active in their parties a sometimes confusing posture Nevertheless the League as an advocate in support of specified public policies succeeded in maintaining an informed nonpartisanship that came to be respected by opinion and political leaders and the public learned that it could depend upon the League for unbiased information in election contests In making it possible for women to show their strength and do what they have done for some 80 years the League has made incalculable contributions to the public good Students scholars and the informed public interested in American political and women s history will find this documentary collection invaluable **South Carolina and the New Deal** J. I. Hayes,2001 JACK IRBY HAYES JR revisits the South Carolina of the 1930s to determine the impact of federal programs on the state s

economy politics culture and citizenry He traces the waxing and waning of support for programs such as Works Progress Administration WPA Civilian Conservation Corps CCC and the Federal Emergency Relief Administration FERA and concludes that the modernization of South Carolina would have been delayed without their intervention Suggesting that the New Deal hastened the end of one party political domination Hayes proposes that it also initiated a new era of modernized agriculture and banking practices rural electrical service labor restrictions relief programs and cultural resurgence Hayes finds that Franklin Delano Roosevelt s initiatives enjoyed widespread support among South Carolinians He documents the welcoming of agricultural and erosion controls welfare relief child labor laws minimum wage requirements public construction state parks and massive hydroelectric projects He also credits the New Deal with sparking an intellectual reawakening and a restoration of faith in capitalism democracy and progress But Hayes demonstrates that **South Carolina Women** Joan Marie Johnson, Marjorie Julian Spruill, Valinda W. Littlefield, 2009-05-25 The Pedestrian and the City Carmen Hass-Klau, 2014-11-27 The Pedestrian and the City provides an overview and insight into the development politics and policies on walking and pedestrians it includes the evolution of pedestrian friendly housing estates in the 19th century up to the present day Key issues addressed include the struggle of pedestrianization in town centers the attempts to create independent pedestrian footpaths and the popularity of traffic calming as a powerful policy for reducing pedestrian accidents Hass Klau also covers the wider aspects of urban and transport planning especially public transport essential for promoting a pedestrian friendly environment The book includes pedestrian friendly policies and guidelines from a number of European countries and includes case studies from the UK Germany Britain France Spain Italy the Netherlands Denmark the US and Canada with further examples from ten additional countries It also contains a unique collection of original photographs including before and after photos of newly introduced pedestrian friendly transport policies As the pedestrian environment has become ever more crucial for the future of our cities the book will be invaluable to students and practicing planners geographers transport engineers and local government officers **South Carolina Women** Marjorie Julian Spruill, 2010-01-25 The biographical essays in this volume provide new insights into the various ways that South Carolina women asserted themselves in their state and illuminate the tension between tradition and change that defined the South from the Civil War through the Progressive Era As old rules including gender conventions that severely constrained southern women were dramatically bent if not broken these women carved out new roles for themselves and others The volume begins with a profile of Laura Towne and Ellen Murray who founded the Penn School on St Helena Island for former slaves Subsequent essays look at such women as the five Rollin sisters members of a prominent black family who became passionate advocates for women s rights during Reconstruction writer Josephine Pinckney who helped preserve African American spirituals and explored conflicts between the New and Old South in her essays and novels and Dr Matilda Evans the first African American woman licensed to practice medicine in the state Intractable racial attitudes often caused women

to follow separate but parallel paths as with Louisa B Poppenheim and Marion B Wilkinson Poppenheim who was white and Wilkinson who was black were both driving forces in the women s club movement Both saw clubs as a way not only to help women and children but also to showcase these positive changes to the wider nation Yet the two women worked separately as did the white and black state federations of women s clubs Often mixing deference with daring these women helped shape their society through such avenues as education religion politics community organizing history the arts science and medicine Women in the mid and late twentieth century would build on their accomplishments
