Preserving The Old Dominion Historic Preservation And Virginia Traditionalism:

Preserving the Old Dominion James Michael Lindgren, 1993 In 1889 tradition minded women including many from Virginia's most prominent families formed the Association for the Preservation of Virginia Antiquities APVA the first state preservation organization in the United States And where better After all who else could so readily claim both colonial and Confederate heritage both Jamestown and the White House of the Confederacy In Preserving the Old Dominion cultural historian James Lindgren shows how the preservation movement strove to rebuild a revered past upon the foundations of its historic structures While vividly capturing entertaining incidents white gloved pilgrimages a Richmond costume ball even a search for a Jamestown Rock to set back those arriviste New Englanders and introducing battling often with each other preservationists Lindgren also explores the serious consequences of these sometimes amusing efforts He shows how the reinvention of the past shaped contemporary Virginia and the South In a very real sense the battle between North and South was replayed at the end of the nineteenth century in a contest to control the nation's past The AVPA's significance lies not only in the fact that it played a major role in the resurgence of conservatism in the late nineteenth century South but that it fits into a larger American picture where tradition minded Americans tapped their history whether imagined or real to shape their identity Preserving the Old Dominion incorporates history anthropology architecture archaeology religion and politics it will be of interest to historians in all fields as well as women's studies scholars

Restoring Women's History Through Historic Preservation Gail Lee Dubrow, Jennifer B. Goodman, 2003-01-28 This essay collection draws upon work presented at three national conferences on women and historic preservation held at Bryn Mawr College in 1994 Arizona State University in 1997 and at Mount Vernon College in 2000

Giving Preservation a History Randall F. Mason, Max Page, 2004-08-02 In this volume some of the best figures in the field have come together to write on preservation movements across the country from New York to Atlanta to Santa Fe and others Giving Preservation a History also touches on the European roots of the historic preservation movement on how preservation movements have taken a leading role in shaping American urban space and urban development how historic preservation battles have reflected broader social forces and what the changing nature of historic preservation means for the effort to preserve the nation's past

Preserving Historic New England James M. Lindgren, 1995-11-09 By the first years of the twentieth century the memory of old time New England was in danger What had once been a land of small towns populated by tradition minded Yankees was now becoming almost unrecognizable with a floodtide of immigrants and the constant change of a modernizing society At the same time cities such as Boston Portsmouth and Salem were bursting at the seams with factories high rises and uncontrollable growth During a period when the Colonial Revival and progressive movements held sway Yankees asserted their influence through campaigns to redefine the meaning of their Anglo American forebears As part of the reaction the modern preservation movement was founded by William Sumner Appleton Jr a privileged old blooded Bostonian Resisting not simply this

avalanche of change but the amateurish romanticism of fellow antiquaries Appleton founded the Society for the Preservation of New England Antiquities in 1910 While examining SPNEA in the context of progressivism Preserving Historic New England focuses on its redefinition of preservation to fit the methodology of science the economy of capitalism and the aestheticism of architecture In so doing preservation not only became a profession defined by those male worlds but remade Yankee memory to accord with the modern corporate order Historic Preservation Resources ,1994 **Heritage Conservation in the United States** John H. Sprinkle, Jr.,2023-05-25 Heritage Conservation in the United States begins to trace the growth of the American historic preservation movement over the last 50 years viewed from the context of the civil rights and environmental movements The first generation of the New Preservation 1966 1991 was characterized by the establishment of the bureaucratic structures that continue to shape the practice of heritage conservation in the United States The National Register of Historic Places began with less than a thousand historic properties and grew to over 50 000 listings Official recognition programs expanded causing sites that would never have been considered as either significant or physically representative in 1966 now being regularly considered as part of a historic preservation planning process The book uses the story of how sites associated with African American history came to be officially recognized and valued and how that process challenged the conventions and criteria that governed American preservation practice This book is designed for the historic preservation community and students engaged in the study of historic preservation Historic Preservation for a Living City Robert R. Weyeneth,2000 This text charts the changing philosophy of the American preservation movement since the 1950s It traces the Historic Charleston Foundation s approach to preservation from the organization s establishment to its concerns with the conservation of rural spaces and building craft traditions *The Creative Destruction of Manhattan, 1900-1940* Max Page,1999 The oxymoron creative destruction suggests the tensions that are at the heart of urban life between stability and change between particular places and undifferentiated spaces between market forces and planning controls and between the natural and unnatural in city growth Page investigates these cultural counter weights through case studies of Manhattan s development with depictions ranging from private real estate development along Fifth Avenue to Jacob Riis s slum clearance efforts on the Lower East Side from the elimination of street trees to the efforts to save City Hall from demolition Contrary to the popular sense of New York as an ahistorical city the past as recalled by powerful citizens was in fact at the heart of defining how the city would be built BOOK JACKET The American Discovery of Tradition, 1865-1942 , **Boston's "changeeful Times"** Michael Holleran,2001 He describes subdivision design innovations and the use of deed restrictions limits on building heights and neighborhood zoning protection to control ever increasing urban growth
