Presidency Crisis And Regeneration:

The Presidency Herman Finer,1974 **The Presidency, Crisis and Regeneration** Herman Finer,1960 *The Presidency and Political Science: Paradigms of Presidential Power from the Founding to the Present: 2014* Raymond Tatalovich,Steven E Schier,2014-12-18 This history of presidential studies surveys the views of leading thinkers and scholars about the constitutional powers of the highest office in the land from the founding to the present Guide to the Presidency Michael Nelson,2015-05-01 The Guide to the Presidency is an extensive study of the most important office of the U S political system Its two volumes describe the history workings and people involved in this office from Washington to Clinton The thirty seven chapters of the Guide arranged into seven distinct subject areas ranging from the origins of the office to the powers of the presidency to selection and removal cover every aspect of the presidency Initially dealing with the constitutional evolution of the presidency and its development the book goes on to expand on the history of the office how the presidency operates alongside the numerous departments and agents of the federal bureaucracy and how the selection procedure works in ordinary and special circumstances Of special interest to the reader will be the illustrated biographies of every president from Washington to the present day and the detailed overview of the vice presidents and first ladies of each particular office Also included are two special appendices one of which gathers together important addresses and speeches from the Declaration of Independence to Clinton s Inaugural Address and another which provides results from elections and polls and statistics from each office *The Presidency. Crisis and Regeneration. (Third Impression.).* Herman FINER,1974 The Powers of the Presidency ,2013 This is a comprehensive and illustrative work on the historical and contemporary perspective on presidential powers guiding readers through the presidency as a constitutional office with many updated features from the previous edition **The Silence of Constitutions (Routledge Revivals)** Michael Foley,2013-01-11 First published in 1989 Michael s Foley s book deals with the abeyances present in both written and unwritten constitutions arguing that these gaps in the explicitness of a constitution and the various ways they are preserved provide the means by which constitutional conflict is continually postponed Abeyances are valuable therefore not in spite of their obscurity but because of it *The Power of the Presidency* Robert S. Hirschfield,2017-07-05 The American presidency is the most powerful political office in the world But this impressive statement serves only to raise a whole series of fundamental questions What is the scope of presidential powers and what are its limits Can the president use all the authority of his office or is that authority more formal than effective Does the presidency have sufficient power to meet today s needs or do the problems of the modern age demand a more powerful executive Is there a danger of dictatorship in the growth of political authority or will the presidency remain an office of constitutional democratic leadership This book explores such questions by presenting a wide range of views on presidential power from a variety of sources original supporters and opponents of the office presidents themselves Supreme Court decisions and professional students of the presidency **The Presidency and Political Science** Raymond

Tatalovich, Thomas S. Engeman, 2003-07-29 This is the first book to survey the intellectual history of presidential scholarship from the Founding to the late 20th century Reviewing the work of over sixty thinkers including Alexander Hamilton Thomas Jefferson Woodrow Wilson Richard Neustadt James McGregor Burns and Theodore Lowi the authors identify six central questions the answers to which can help form a theory of presidential power Does presidential power derive from the prerogatives of office or from incumbency Does presidential influence depend upon force of personality rhetorical leadership or partisanship Does presidential leadership depend upon historical context or is regime building manifested through political institutional and constitutional developments Does presidential leadership vary between domestic and foreign affairs Does the president actively or passively engage the legislative process and promote a policy agenda Does the organization of the executive branch service presidential leadership Arguing that three paradigms have dominated the history of presidential scholarship Hamiltonianism Jeffersonianism and Progressivism the authors conclude that today s understanding of the presidency is characterized by a new realism and old idealism This book will appeal to students and scholars as well as to general readers with an interest in the American presidency *Congressional Tenure of Office* United States. Congress. House. Committee on the Judiciary, 1966

The Enthralling World of E-book Books: A Thorough Guide Unveiling the Benefits of E-book Books: A World of Ease and Flexibility Kindle books, with their inherent portability and ease of availability, have liberated readers from the limitations of physical books.
