

A man in a green shirt is leaning over a person who is lying down, possibly on a gurney. A single light bulb hangs from the ceiling, casting a focused light on the scene. The background is dark and out of focus.

The Palgrave Handbook on the Problem of Animal Suffering in the Philosophy of Religion B. Kyle Keltz, 2025-07-28

Atheists argue that animal pain disease suffering and death cause a problem for theism because they believe that an all knowing all powerful and all good God would not use millions of years of animal suffering just to make a world suitable for humans Animal suffering was not a concern for theism through the medieval period but it has been increasingly discussed in philosophy of religion since modern times and there is especially a large and growing amount of literature on this subject that has been published in the last few decades This handbook serves as a guide for those interested in the literature on the problem by bringing together experts in the philosophy of religion theology environmental ethics and the philosophy of animal minds It not only presents major formulations of the problem of animal suffering and major theodicies but it also discusses metaethical issues regarding animal suffering the question of animal consciousness and self awareness and their implications for animal suffering and what implications available theodicies might have for animal ethics

**Dealing with Bioethical Issues in a Globalized World** Joris Gielen, 2020-01-09 This book addresses the complexity of talking about normativity in bioethics within the context of contemporary multicultural and multi religious society It offers original contributions by specialists in bioethics exploring new ways of understanding normativity in bioethics In bioethical publications and debates the concept of normativity is often used without consideration of the difficulties surrounding it whereas there are many competing claims for normativity within bioethics Examples of such competing normative bioethical discourses can be perceived in variations and differences in bioethical arguments within individual religions and the opposition between bioethical arguments from specific religions and arguments from bioethicists who do not claim religious allegiance We also cannot merely assume that a Western understanding of normative bioethics

will be unproblematic in bioethics in non Western cultures and religions Through an analysis of normativity in Christian Hindu Buddhist Islamic and Jewish bioethics the book creates awareness of the complexity of normativity in bioethics The book also covers normative bioethics outside an explicitly religiously committed context and specific attention is paid to bioethics as an interdisciplinary endeavor It reveals how normativity relates to empirical and global bioethics which challenges it faces in bioethics in secular pluralistic society and how to overcome these By doing that this book fills an important gap in bioethics literature

**Vital Issues in the Inerrancy Debate** F. David Farnell, Norman L. Geisler, Joseph M. Holden, William C. Roach, Phil Fernandes, 2016-01-14 The inerrancy of God's Word has been attacked throughout church history Today's assaults are unique since neo evangelicals now surrender to post modernistic ideas of history and historical critical ideologies that assault this vital doctrine They seek to redefine the orthodox meaning of inerrancy Since the signing of the Chicago Statements troubling signs have once again appeared in recent years among many who either did not fight the battles for the inerrancy of Scripture as did the International Council on Biblical Inerrancy or who do not remember the troubling times that caused their development The nature and definition of inerrancy are now being changed to include ideas of fallibility History is forgotten The need arises for sounding the alarm for Vital Issues in Inerrancy Evangelical schools and churches that broke away earlier to defend inerrancy surrender now to academic prestige and scholarly fads instead of faithfulness to God's inerrant Word The contributors pray that the Lord will raise up a new generation with the spiritual fervency of the International Council on Biblical Inerrancy to uphold the inerrancy of God's Word Isaiah 40:8 The grass withers the flower fades But the word of our God stands forever

Theoretical and Research Issues in Africana Studies James E. Turner, 2014-08-01 The year of 1980 marked a pivotal turning point in the American political landscape the electoral victory of presidential candidate

Ronald Reagan the beginnings of the public hysteria and eventual legislative dismantling of affirmative action and other civil rights initiatives the dawn of the ruthless reign of neo conservatism and in some ways serving as the glue the ascent of neo liberalism as the prevailing ideology and standard logic of viewing and ordering the world Some thirty five years later it is almost difficult to remember a world and more precisely a moment in United States history when these things were not so dominant When thinking about the lasting impact of that moment David Harvey writes Future historians may well look upon the years 1978 1980 as a revolutionary turning point in the world s social and economic history revolutionary impulses seemingly spread and reverberated to remake the world around us in a totally different image In short this was an instance of profound transformation it was the dawn of the counterrevolution By no means immune to the changes in the larger political landscape Black activists and intellectuals also felt the ground moving beneath their feet in 1980 as many would gradually shift from an all out advance towards liberation to a posture concerned with what James Turner described as the preservation of the modest gains made by African Americans over the last decade The previous decade witnessed an obvious waning in the Black liberation movement a slew of high profile manhunts arrests court cases and outright criminalizing of radical activists the unearthing of Cointelpro the blooming of the liberation movement in Southern Africa a taxing debate around various articulations of Marxism and Black nationalism the full swing of feminism and a full decade of Africana Studies which also meant institutionalized space to foster such discussions It was these changing times that provided the context for the important gathering of Black activists and intellectuals in Ithaca New York during September 1980 at the Africana Studies and Research Center at Cornell and the content for this book Bound together by the dual purposes of both assessing the road traveled and preparing for the journey ahead the ensemble in attendance gathered to ponder the Next Decade as the conference theme spelled out plainly A quick glance at the conference s list of attendees demonstrates the extraordinary sphere of activity that was the Africana Studies and Research Center at Cornell Participants and attendees at this historic meeting included Toni Cade Bambara Lerone Bennett Johnella Butler John Henrik Clarke Gayla Cook Louis Farrakhan Hoyt Fuller Ewart Guinier Vincent Harding Robert Harris Stephen Henderson Robert Johnson George Kent George Lamming Tilden Lemelle Bernard Magubane Manning Marable William Nelson William Sales Michael Thelwell Bettye Collier Thomas Eleanor Traylor Ivan Van Sertima Ronald Walters Shirley Weber Sylvia Wynter Howard Dodson William Strickland and two of the visual artists featured in this book David Bradford and Bertrand Phillips This book is both a contribution to the historiography of the Black African Studies movement and an intellectual treasure representing the ideas and visions of many of the best minds at a crucial juncture in the African world
