A coherent overview of pressure groups in Britain and how they influence the government, accessible to non-specialist graduate and undergraduate students. Discusses what pressure groups are and how they are studied, their place in a democracy, their internal structures and dynamics, their cooperation and resources, and their relationship to the central government, Parliament, the press, and public, and other pressure points. Distributed in the US by St Martin's Press. Annotation copyright by Book News Inc, Portland, OR.

Public Policy and the Arts: A Comparative Study of Great Britain and Ireland Ruth-Balandina M.

Quinn, 2018-08-20. First published in 1998, this volume considers the subject of arts policy as a subject of public policy, making proper in UK and Ireland, with a particular focus on theatre as a profession rather than a mere hobby. Previous studies have placed the burden of policy improvements on the arts themselves, looking at what the arts can do to be worthy of government funding and favourable policy, and have seen government actions as if they have a uniform effect. This study takes the arts out of the abstract and discusses specific ways that diverse activities, with even more diverse needs, can be best approached with government policy, assessing the strengths and weaknesses of government initiatives. It is aimed at both political scientists and anyone with an interest in arts and cultural policy.

The Palgrave Encyclopedia of Interest Groups, Lobbying and Public Affairs Phil Harris, Alberto Bitonti, Craig S. Fleisher, Anne Skorkjær Binderkrantz, 2022-06-20. The growing need for a concise and comprehensive overview of the world of interest groups, lobbying, and public affairs called for a compendium of existing research, key theories, concepts, and case studies. This project is the first transnational encyclopedia to offer such an interdisciplinary and wide overview of these topics, including perspectives on public relations, crisis management, communication studies, as well as political science, political marketing, and policy studies. It is an interdisciplinary work which involved an extraordinary pool of contributors, made up of leading scholars and practitioners from all around the globe. It is a live and evolving project focused on drawing together grounded international knowledge for our diverse and developing world. The 200 entries of the Palgrave Encyclopedia of Interest Groups, Lobbying, and Public Affairs, to be found as a live reference work online here and in two print volumes in 2022, address these research avenues, tackling a growing demand for a comprehensive international reference work regarding key global sectors and policymaking structures, looking beyond the traditional markets of Europe and North America to incorporate practice and research from Asia, Africa, Oceania, and Latin America. This encyclopedia acts as a synthesis of existing research and aims to aid academics, students, and practitioners.

navigate their relevant fields around the globe **The Conspicuous Corporation** Neil James Mitchell,1997 Shows why business sometimes loses in policy debates despite often having overwhelming resources *The Politics of Religion and the Religion of Politics* Ira Sharkansky,2000-01-01 Prominent political theorist Ira Sharkansky looks at the intersection of religion and politics using the case of Israel where a chief rabbi officiates along with a prime minister to examine how the two inform each other Focusing more on similarities than differences Sharkansky demonstrates that both religion and politics can justify their position on the moral high ground Both are involved in shaping our values and standard of living however neither religion nor politics can claim a monopoly of virtue Political demagogues have their religious equivalents in self serving prophets and false messiahs and politicians and religious leaders both may violate the morality that they preach Sharkansky examines the place of intellectual certainty doubt charisma and passion in both realms He argues that Israel among other Western democracies where politics and religion intersect supports a successful fusion of the two The Rise and Fall of Privatization in the Russian Oil Industry L. Sim,2008-10-24 A study of the actors and institutions that shaped decision making on privatization in the Russian oil industry between 1992 and 2006 The book analyses the origins of privatization as a policy on a macro industry wide level as well as presenting three in depth case studies of privatization on a company level
