Bullying in American Schools Dorothy L. Espelage, Susan M. Swearer, 2004-02-04 Much of our knowledge about bullying behaviors comes from research conducted over the past several decades in Europe Australia and Canada Until the past decade research in the United States has lagged behind our European Australian and Canadian counterparts This book seeks to fill this void by forwarding research on bullying across contexts conducted with American participants This book is an exciting compilation of research on bullying in school aged youth conducted across the United States by a representative group of researchers including developmental social counseling school and clinical psychologists As such it presents a picture of the complexity of bullying behaviors and offers suggestions for using data based decision making to intervene and reduce bullying behaviors in our nation s schools Given the complexity of bullying and victimization this book gives guidance for schools as they develop prevention and intervention programming for bullying Providing a source through which school administrators can utilize the research findings the book is divided into five parts Part I illustrates the importance of individual characteristics across bully victim subtypes Part II addresses how peer groups relate to bullying across the school years Part III explores how teachers and classrooms influence bullying and aggression during the school years Part IV implicates ecological systems in fostering and maintaining bullying in schools It also highlights the potential for these systems to work in combating bullying Part V focuses on specific aspects of prevention and intervention planning

Expelling Hope Christopher G. Robbins, 2008-07-15 Winner of the 2008 Critics Choice Award presented by the American Educational Studies Association Expelling Hope raises critical questions about the effects of punitive policies particularly zero tolerance and repressive social relationships on youth of color and public schooling It argues convincingly that zero tolerance is a catchword or linchpin for an array of discourses and social practices that support the criminalization of youth the militarization of public schooling and culture and the marketization of public life Politically impassioned and intellectually rigorous the book provides the framework for an alternative vision of youth and schooling one rooted in hope that calls for youth to be treated as agents of a democratic future

Research Anthology on School Shootings, Peer Victimization, and Solutions for Building Safer Educational Institutions
Management Association, Information Resources, 2020-09-10

Though decades ago school shootings were rare events today they are becoming normalized Active shooter drills have become more commonplace as pressure is placed on schools and law enforcement to prevent the next attack Yet others argue the traumatizing effects of such exercises on the students Additionally violence between students continues to remain problematic as bullying pervades children s lives both at school and at home leading to negative mental health impacts and in extreme cases suicide Establishing safer school policies promoting violence prevention programs building healthier classroom environments and providing better staff training are all vital for protecting students physically and mentally

The *Research Anthology on School Shootings Peer Victimization and Solutions for Building Safer Educational Institutions* examines the current sources of violence within educational systems and it offers solutions on how to provide a safer space for both students and educators alike Broken into four sections the book examines the causes and impacts that peer victimization has on students and how this can lead to further violence and investigates strategies for detecting the warning signs The book provides solutions that range from policies and programs that can be established to strategies for teaching nonviolence and promoting coexistence in the classroom Highlighting a range of topics such as violence prevention school climate and bullying this publication is an ideal reference source for school administrators law enforcement teachers government and state officials school boards academicians researchers and upper level students who are intent on stopping the persisting and unfortunate problem that is school violence
