parents can engage with their children's philosophical questions and help them develop their philosophical selves

Children's Fiction Sourcebook Margaret Hobson, Jennifer Madden, Ray Prytherch, 2018-12-17 First published in 1992 this Sourcebook is a basic working tool for all those concerned with children's reading. It will help librarians and teachers to select a comprehensive stock of children's fiction for their institutions. The authors in the sourcebook have been selected on the grounds of importance, popularity and current availability. Author entries are arranged in alphabetical order and indexes provided by title, series, age range and genre. Each entry consists of some background information and evaluative comment on style of the book, a list of the author's books with publisher, date and price and literary agent where applicable. There is a suggestion of similar authors, sequels, related series and reader age range.

Observing Children in the Primary Classroom (RLE Edu O) Richard Mills, 2012-05-31 In a sequence of observations of six children aged 5-11 in six different state schools, this book offers a slice of classroom life, a microcosm of the educational scene. Since the book was first written, there have been many changes in the curriculum, structure, governance and funding of British primary schools, as well as in the language used to describe these changes. But *Observing Children in the Primary Classroom* remains as valid now as earlier as a lively and entertaining indicator of children's daily school experience. We see the reception class of an infant's school through the eyes of Mike, a lively five-year-old traveller boy. Six-year-old Rashda, a girl of Asian heritage, grapples with English as a Second Language at her multi-ethnic city school. Slow learner David finds school life rather overpowering despite receiving expert extra help. Lucy, eight, is a star in everything she does at her Roman Catholic school, while Lorraine, one year older, is cheerful but utterly bewildered. Finally, Peter organises his work in an open-plan setting and makes some surprising choices.

The 100 Most Popular Young Adult Authors Bernard A. Drew, 1997-10-15 The book focuses on individuals writing in the 90s but also includes 12 classic authors, e.g. Mark Twain, Louisa May Alcott, J.R.R. Tolkien, who are still widely read by teens. It also covers some authors known primarily for adult literature, e.g. Stephen King, and some who write mainly for middle readers but are also popular among young adults, e.g. Betsy Byars. An affordable alternative to multivolume publications, this book makes a great collection, development tool and resource for author studies. It will also help readers find other books by and about their favorite writers.

Best Books for Children, Preschool Through Grade 6, 2006 *St. James Guide to Fantasy Writers* David Pringle, 1996 Concise discussions of the lives and principal works of writers of various forms of fantasy, including heroic fantasy, sword and sorcery, humorous fantasy, adult fairy tales and fables and children's fantasies, still popular with adults. Written by subject experts.

Children's Literature Review Alan Hedblad, 1995-10-27 Presents literary criticism on writers and illustrators for children and young adults. Critical essays are selected from leading sources, including published journals, magazines, books, monographs, reviews and scholarly papers.
