Regional And Ethnic Cooking San Francisco Cooking:

The Food Section Kimberly Wilmot Voss, 2014-04-24 Food blogs are everywhere today but for generations information and opinions about food were found in the food sections of newspapers in communities large and small Until the early 1970s these sections were housed in the women's pages of newspapers where women could hold an authoritative voice The food editors often a mix of trained journalist and home economist reported on everything from nutrition news to features on the new chef in town They wrote recipes and solicited ideas from readers The sections reflected the trends of the time and the cooks of the community The editors were local celebrities judging cooking contests and getting calls at home about how to prepare a Thanksgiving turkey They were consumer advocates and reporters for food safety and nutrition They helped make James Beard and Julia Child household names as the editors wrote about their television appearances and reviewed their cookbooks These food editors laid the foundation for the food community that Nora Ephron described in her classic 1968 essay *The Food Establishment* and eventually led to the food communities of today Included in the chapters are profiles of such food editors as Jane Nickerson Jeanne Voltz and Ruth Ellen Church who were unheralded pioneers in the field as well as Cecily Brownstone Poppy Cannon and Clementine Paddleford who are well known today an analysis of their work

demonstrates changes in the country's culinary history The book concludes with a look at how the women's pages folded at the same time that home economics saw its field transformed and with thoughts about the foundation that these women laid for the food journalism of today

Regional American Food Culture Lucy M. Long, 2009-10-13 Regional American food culture still exists and is strongest in more rural homogenous areas of the country Regional foods are a major component of regional identities and Americans make a big deal about their home grown favorites The current food cultures of the major American regions northeast New England the Mid Atlantic the South the West the Midwest and subregions are illuminated here like never before Everyone knows something about the iconic fare of a region such as Soul Food in the South and New England clam bakes but with this resource readers are able to delve wider and deeper into how Americans from Alaska to Hawaii to the Amish country of the Midwest to the Eastern Seaboard sustain themselves and what their food lifestyles are today The unique regional food cultures that have developed according to natural resources and population are increasingly affected by social and economic trends Increasingly mobile Americans generally have access to the same fast food and supermarket chain offerings read the same mass market food magazines and watch the cable food shows and younger generations may have less time to continue family food traditions such as baking the ethnic breads and desserts that their mothers did *Regional American Food Culture* discusses the various traditions within the context of a new millennium Narrative chapters describe the background of the regional food culture what the primary foods are how the food is cooked and by whom what the typical meals are how food is used in special occasions and diet and health issues in the regions A chronology resource guide selected bibliography and illustrations complement the text
