Regional Cooperation And Growth Triangles In Asean:

Regional Cooperation and Growth Triangles in ASEAN Mun Heng Toh, Linda Low, 1993 **Growth Triangles in Asia** Myo Thant, Min Tang, Hiroshi Kakazu, 1998 This book describes the triangle arrangement of economic cooperation that has emerged in Asia and discusses their potential and future prospects in the current economic climate *China-Asian Sub-Regional Cooperation* Li Mingjiang, 2011 This book is an edited volume about China ASEAN relations with contributions from experts based in China and Singapore The book includes a few excellent papers that were presented at a conference the editor organized in October 2009 and also two other research papers They examine China ASEAN relations from a sub regional cooperation perspective The book discusses and analyzes China ASEAN cooperation in the Greater Mekong River Sub region GMS the emerging Pan Beibu economic zone ASEAN's growth triangles and the hydraulic power sector as well as China ASEAN economic relations in the wake of the financial crisis They carefully review the progresses that have been achieved examine new policy proposals that have been put forth and explore problems that exist in all these sub regional cooperation schemes between China and ASEAN **Growth Triangles in Asia** Asian Development Bank, 1994 A form of regional economic cooperation that has gained rapid acceptance in Asia during the past decade growth triangles bring together the resources of a number of countries to foster economic development in a region The papers in this collection focus on three cases the first brings Mainland Chinese Taiwanese and Hong Kong investment to the Pearl River Delta and Fujian province in southern China the second has developed on the borders of Singapore the Indonesian province of Riau and the Malaysian state of Johor and the third is planned for development in the Tumen River Delta on China's northeast border with Siberia and North Korea A product of the Workshop on Growth Triangles in Asia held in Manila in February 1993 this collection defines explores and debates the issues surrounding the establishment of growth triangles and makes predictions about their potential For each case there is one paper that addresses general issues while others concentrate on more specific concerns such as the role of infrastructure public policy or foreign investment The contributors are all regional scholars well known for their experience and expertise in the field **Globalization, Regionalization and Cross-Border Regions** M. Perkmann, N. Sum, 2002-07-12 Cross border regions are newly emerging social spaces stretching across national borders Globalization makes national borders more permeable and leads to a rearrangement of economic and political interactions This is particularly pronounced within supra regional blocs featuring specific internal border regimes The ensuing opportunities are increasingly seized to create border spanning discourses and institutions This is illustrated in the book by a range of experts analyzing cross border regions in Europe America East Asia and Africa **The SIJORI Cross-Border Region** Francis E Hutchinson, Terence Chong, 2016-06-14 Twenty five years ago the governments of Singapore Malaysia and Indonesia agreed to jointly promote the city state the state of Johor in Malaysia and the Riau Islands in Indonesia Facilitated by common cultural references a more distant shared history and complementary attributes

interactions between the three territories developed quickly Logistics networks have proliferated and production chains link firms based in one location with affiliates or transport facilities in the other territories These cross border links have enabled all three locations to develop their economies and enjoy rising standards of living Initially economic in nature the interactions between Singapore Johor and the Riau Islands have multiplied and grown deeper Today people cross the borders to work go to school or avail of an increasing range of goods and services New political social and cultural phenomena have developed Policymakers in the various territories now need to reconcile economic imperatives and issues of identity and sovereignty Enabled by their proximity and increasing opportunities families have also begun to straddle borders with resulting questions about citizenship and belonging Using the Cross Border Region framework which seeks to analyse these three territories as one entity simultaneously divided and bound together by its borders this book brings together scholars from a range of disciplines Its 18 chapters and more than 20 maps examine the interaction between Singapore Johor and the Riau Islands over the past quarter century and seek to shed light on how these territories could develop in the future

Regional Change in Industrializing Asia Leo van Grunsven, 2019-01-04 First published in 1998 this book responds to the dynamics of Industrializing Asia and the behavioural changes of actors which in response to changing internal and external forces have given rise to and are constantly giving rise to alterations in patterns of growth From a geographical perspective these are expressed in regional change understood as a reconstruction of spatial organization The imperatives of dynamic comparative advantage changing global or regional competitiveness and regional competition faced by different actors entities or territorial units can be identified as important forces underlying and shaping regional change This volume provides further illumination contextualization and interpretation of the spatiality of the economic reality in Industrializing Asia as well as the role played by and the implications for different actors The objectives of this book are 1 to outline the processes of regional change linked to responses in the form of restructuring and integrative and regionalization tendencies as well as the realignment of the global regional local divide in production systems complexes and the operation of firms associated with reorganization of production in the process of maintaining and reconfiguring comparative advantage 2 to highlight the wide scope of the process by considering differential units of analysis linked to the agents and manifestations of regional change and the role of scale in terms of the spatial units involved 3 to highlight the implications as to the current and future position or role of differential actors agents particularly nation state in shaping the new economic reality in the region and as a corollary its positioning in the global economic order
