Regionalism And Regional Integration In Africa

**Ernest Tooichi Aniche, Ikenna Mike
Alumona, Innocent Moyo**

Regionalism And Regional Integration In Africa:

The Political Economy of Regionalism in Southern Africa Margaret Carol Lee, 2003 In the face of increasing globalisation regionalism continues to be seen as a conduit for enhancing Africa's integration into the world economy In the light of this the countries of southern Africa have made verbal commitments to enhance regional development and the integration of their economies This important book examines the challenges to regionalism in southern Africa It tackles the issues of political and economic instability overlapping membership in regional economic organisations increased intra regional trade through the creation of free trade agreements the ability to secure needed foreign investment and the failure of governments to make a political commitment to regionalism

Transfrontier Regionalism. The Revival of Regional Integration in Africa A.I. Asiwaju, 1999 The views and perspectives adopted by A I Asiwaju and D Bach appear sufficiently distinct yet they converge on several key issues i.e the informal achievement of regionalization in Africa through kinship and other non state networks the resistance of Africans to boundaries inherited from the colonial period and the consequences of the arbitrariness of these boundaries Anyone who has ever crossed the Seme border between the Federal Republic of Nigeria and the Republic of Benin cannot but subscribe to the perceptions shared by the two authors Whatever the purpose of the trip travellers crossing the border share the experience of being in a lawless area the occasional traveller who behaves suspiciously will immediately attract the attention of the immigration officer who begins to search through his papers scrupulously looking for any error on the other hand the market woman who knows the system crosses with ease The popularization of these border scenes by novels and video productions is significant evidence of the intensity of transborder movements in West Africa and of the constraints as well as the resources offered by the borders This dual reality of what appears as an obstacle to the implementation of institutionalized regional integration schemes and as the booster of an informal market driven trade flow is widely documented and discussed in the two papers

Regionalism, Security and Development in Africa Ernest Tooche Aniche, Ikenna Mike Alumona, Innocent Moyo, 2021-04-29 This book charts the history and contemporary landscape of African regionalism investigating how regional cooperation can be used to help to tackle security and development challenges in Africa Africa has a long tradition of regional cooperation with the oldest trade and monetary integration schemes in the developing world but its colonial period and partition have caused lasting damage that still be seen in today's African economies Contemporary post colonial African regionalism deeply rooted in notions of pan Africanism has served as a means of collective self reliance and economic transformation and development This book starts with the history and theory behind African regionalism before discussing and comparing regional organisations such as the Economic Community of Central African States ECCAS the Economic Community of West African States ECOWAS the Community of Sahel Saharan States CEN SAD Southern African Development Community SADC the Common Market for Eastern and Southern Africa COMESA and the East African Community EAC Finally the book considers how regional

integration and cooperation can help to address security and development challenges This ambitious and broad ranging book will be a valuable resource for researchers working on African regionalism security African integration and development and comparative regionalism Policymakers should also consider it a useful guide to the background and contemporary landscape of African regionalism *Regionalism and Africa's Development* S.K.B. Asante,2016-07-27 A critical appraisal of regionalism as a key strategy in Africa s development explaining the failures thus far of attempts at regional integration on the continent This is the first text to highlight the main features of the new post 1990 regional initiatives such as the all embracing African Economic Community and World Bank IMF African Development Bank EC and French initiatives and the challenges to Africa from trading blocs elsewhere in the post Uruguay Round environment *Building Capacity in African Regional Integration* S. K. B. Asante,2007 **Regional Integration in Africa** Sipho Buthelezi,2006 This study outlines the challenges to mutual linkages at a regional level to social and economic development across the continent Organised topically and covering all regional groupings in Africa the study provides a historical overview of integration and common markets of COMESA and ECOWAS discussion of Africa in the global economy the question of regionalism in North Africa and the Arab Maghreb union the case of the Southern African Development Community and a survey of the political economy of the Horn of Africa

Regionalism in Africa Daniel C Bach,2015-12-22 Africa which was not long ago discarded as a hopeless and irrelevant region has become a new frontier for global trade investment and the conduct of international relations This book surveys the socio economic intellectual and security related dimensions of African regionalisms since the turn of the 20th century It argues that the continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies the emergence of specific integration and security cultures the spread of cross border regionalisation processes at the expense of region building the interplay between territory space and trans state networks and the intrinsic ambivalence of global frontier narratives This is emphasized through the identification of distinctive threads of regionalism which by focusing on genealogies trajectories and ideals transcend the binary divide between old and new regionalisms In doing so the book opens new perspectives not only on Africa in international relations but also Africa s own international relations This text will be of key interest to students and scholars of African politics African history regionalism comparative regionalism and more broadly to international political economy international relations and global and regional governance Regional Economic Communities and Integration in Southern Africa Leon Mwamba Tshimpaka,Christopher Changwe Nshimbi,Inocent Moyo,2021-05-07 This book examines regional integration in Africa with a particular focus on the Southern African Development Community SADC It argues that the SADC s pursuit of a rationalist and state centric form of integration for Southern Africa is limited as it overlooks the contributory role and efficacy of non state actors who are relegated to the periphery The book demonstrates that civil society networks in Southern Africa constitute well governed self organised entities that function just like formal regional arrangements driven by state actors and technocrats The book

amplifies this point by deploying New Institutionalism and the New Regionalism Approach to examine the role and efficacy of non state actors in building regions from below The book develops a unique typology that shows how Southern African regional civil society networks adopt strategies norms and rules to establish an efficient form of alternative integration in the region Based on a critical analysis of this self organised regionalism the book projects the reality that alternative regionalism driven by non state actors is possible This book expands the study of regionalism in the SADC and makes a significant and innovative contribution to the study of contemporary regionalism

Contemporary Regional Development in Africa

Kobena T. Hanson, 2016-03-09 Contemporary Regional Development in Africa interrogates well known concerns in the areas of regionalism and economic integration in contemporary Africa while offering an added uniqueness by highlighting the capacity imperatives of the issues and proposing critical policy guideposts The volume juxtaposes a set of dynamic entanglements new and micro regionalism informal cross border trade intra African and African FDI plus cross border investments infrastructure development science and technology regional value chains conflict management and regional security with fluid interpretations of regional development The chapters provide snapshots of the several emerging and complex regionalisms and highlight a set of relevant and often overlapping analyses drawing on authors nuanced and granular understanding of the African landscape The varied yet interlinked nature of issues covered in this study make the book valuable and attractive to academics researchers policymakers and development practitioners

The New Regionalism in Africa Fredrik Söderbaum, 2017-03-02 This edited volume transcends conventional state centric and formalistic notions of regionalism and theorizes conceptualizes and analyzes the complexities and contradictions of regionalization processes in contemporary Africa The collection not only unpacks and theorizes the African state society complex with regard to new regionalism but also explicitly integrates the often neglected discourse of human security and human development In so doing the book moves the discussion of new regionalism forward at the same time as it adds important insights to security and development It is organized into three parts Part I theorizes conceptualizes and analyzes the new regionalism in Africa from the point of view of the region e g West East Central and Southern Africa The national perspectives in Part II focus on the new regionalism in Africa from the point of view of particular countries or specific state society complexes such as Kenya the Democratic Republic of the Congo DRC the enclave of Cabinda Angola and Zambia Part III contains two concluding chapters that tie the main threads of the volume together theoretically and empirically and discuss the contribution of the analytical framework the new regionalism approach NRA to the larger study of regionalism
