Rehabilitation For Traumatic Brain Injury Physical Therapy Practice In Context:

Rehabilitation for Traumatic Brain Injury Maggie Campbell, 2000 This textbook is designed for those who have head injured clients as part of their caseload but have little or no specialist training or experience in this area In other words those who work outside of specialist units It aims to help the reader to develop a deeper understanding of the pathology and effects of any significant traumatic insult to the brain The emphasis is on the long term and continuing deficits of these clients which require ongoing rehabilitation rather than on the acute immediate post injury aspects of care which are usually dealt with in special units The content focuses on the general principles and issues involved rather than on the clinical details of care It will help give those working in this area an understanding of the importance of their role in the ongoing rehabilitation process

Physical Management in Neurological Rehabilitation Maria Stokes, 2004 Building upon the success of the first edition of this popular book the new edition of Physical Management in Neurological Rehabilitation has been completely up dated and revised to reflect changes in practice today The authors consider the theoretical basis and scientific evidence of effective treatment taking a multidisciplinary problem solving approach to patient management which involves patients and carers in goal setting and decision making Book jacket

Physical Management for Neurological Conditions E-Book Maria Stokes, Emma Stack, 2011-04-19 The third edition of this popular textbook formerly Physical Management in Neurological Rehabilitation and now renamed Physical Management for Neurological Conditions maintains its scientific and research base with extensive use of references and case studies It is the only book for physiotherapists that offers a comprehensive overview of the basic principles of neurological rehabilitation specific neurological neuromuscular conditions and the related physiotherapy treatment approaches used Important areas which feature throughout are discussed in relation to the different neurological conditions and include a non prescriptive multidisciplinary problem solving approach to patient management involvement of the patient and carer in goal setting and decision making client centred practice use of outcome measures to evaluate the effects of treatment in everyday practice use of case studies to illustrate clinical practice scientific evidence of treatment effectiveness Additional specialist editor Dr Emma Stack Refined content but with the inclusion of 4 brand new chapters an introductory chapter on rehabilitation in practice one on respiratory management and two covering self management and falls under the section entitled Skill Acquisition and Learning 11 new expert contributors join the reduced contributor team of 31
