Rehabilitation Of Myth

Jeppe Sinding Jensen

Rehabilitation Of Myth:

The Rehabilitation of Myth Joseph Mali, 2002-05-02 In this important essay Joseph Mali argues that Vico's New Science must be interpreted according to Vico's own clues and rules of interpretation principally his claim that the master key of his New Science is the discovery of myth Following this lead Mali shows how Vico came to forge his new scientific theories about the mythopoeic constitution of consciousness society and history by reappraising or rehabilitating the ancient and primitive mythical traditions which still persist in modern times He further relates Vico's radical redefinition of these traditions as the true narrations of all religious social and political practices in the civil world to his unique historical depiction of Western civilisation as evolving in a rational and cyclical motions On this account Mali elaborates the wider distinctly revisionist implications of Vico's New Science for the modern human sciences He argues that inasmuch as the New Science exposed the linguistic and other cultural systems of the modern world as being essentially mythopoeic it challenges not only the Christian and Enlightenment ideologies of progress in his time but also the main cultural ideologies of our time

Myth and the Human Sciences Angus Nicholls, 2014-12-05 This is the first book length critical analysis in any language of Hans Blumenberg's theory of myth Blumenberg can be regarded as the most important German theorist of myth of the second half of the twentieth century and his *Work on Myth* 1979 has resonated across disciplines ranging from literary theory via philosophy religious studies and anthropology to the history and philosophy of science Nicholls introduces Anglophone readers to Blumenberg's biography and to his philosophical contexts He elucidates Blumenberg's theory of myth by relating it to three important developments in late nineteenth and early twentieth century German philosophy hermeneutics phenomenology and philosophical anthropology while also comparing Blumenberg's ideas with those of other prominent theorists of myth such as Vico Hume Schelling Max Müller Frazer Sorel

Freud Cassirer Heidegger Horkheimer and Adorno According to Nicholls Blumenberg's theory of myth can only be understood in relation to the human sciences since it emerges from a speculative hypothesis concerning the emergence of the earliest human beings For Blumenberg myth was originally a cultural adaptation that constituted the human attempt to deal with anxieties concerning the threatening forces of nature by anthropomorphizing those forces into mythic images In the final two chapters Blumenberg's theory of myth is placed within the post war political context of West Germany Through a consideration of Blumenberg's exchanges with Carl Schmitt as well as by analysing unpublished correspondence and parts of the original Work of Myth manuscript that Blumenberg held back from publication Nicholls shows that Blumenberg's theory of myth also amounted to a reckoning with the legacy of National Socialism

Myth in the Modern Novel Liisa Steinby, 2023-03-20 Myth in the Modern Novel Imagining the Absolute posits a twofold thesis First although Modernity is regarded as an era dominated by science and rational thought it has in fact not relinquished the hold of myth a more primitive form of thought which is difficult to reconcile with modern rationality Second some of the most important statements as to the reconcilability of myth and Modernity are found in the work of certain prominent novelists This book offers a close examination of the work of eleven writers from the late eighteenth century to the beginning of the twenty first

representing German French American Czech and Swedish literature The analyses of individual novels reveal a variety of intriguing views of myth in Modernity and offer an insight into the modernizing transformations myth has undergone when applied in the modern novel The study shows the presence of the subconscious the mythic layer in modern western culture and how this has been dealt with in novelistic literature **Literature, History, Choice** Hillel Weiss,2013-11-01 Starting with a discussion on the elements of the genre of alternative counterfactual history and on its place between the poles of historical determinism and relativism this book develops a literary theory of the historical alternativeness principle and applies it to the reading of The City with All That is Therein Ir u mloa one of the most important and less studied books of the greatest Israeli writer Nobel Prize winner S Y Agnon 1887 1970 The investigation reveals that this principle is by no means inherent solely in modernism and postmodernism but lies at the very basis of the reading process particularly at the levels of plot and character origination and historical and historiographical conceptions that underlie the author s imagination The book is intended for all who are interested in modern literature and theory **The Odyssey of Political Theory** Patrick J. Deneen,2003-04-14 This important book offers readers original insights into The Odyssey and it provides a new understanding of the classic works of Plato Rousseau Vico Horkheimer and Adorno **Easternization of the West** Colin Campbell,2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences
