how democracy itself emerged as the pivotal question within German domestic politics around which everything else came to revolve In this process Ernst Troeltsch emerged as one of the most eloquent and persuasive voices advocating for democracy and peace and always promoting the ideals of freedom and human dignity for all peoples

German-Jewish Cultural Identity from 1900 to the Aftermath of the First World War Elisabeth Albanis,2013-04-09 By illustrating the quintessentially different self perceptions of three German writers of Jewish background all born in or around 1880 in Berlin this book examines a range of German Jewish identities in a socio cultural context in Wilhelmine Germany Moritz Goldstein 1880 1977 the conflict of his dual identity and the interplay between being a German writer and a cultural Zionist is covered first Particular attention is given to the genesis of his essay *Deutsch j discher Parna* with its call for Jews to vacate their seats in German literary culture The range of positions unfolding in the debate following its publication in *Der Kunstwart* in 1912 serves to illustrate the spectrum of German Jewish self definition at the time In the second part the writings of Julius Bab 1880 1955 are examined in so far as they shed light on his advocacy of a synthesis of *Deutschtum* and *Judentum* The far side of the spectrum of German Jewish self definition is represented by Ernst Lissauer 1882 1937 who propagated complete assimilation considering the Jewish element as an obstacle which had to be overcome on the road to *Deutschtum* This study depicts how external cultural and political influences shaped the transformation of their ideas of what it meant to be Jewish in Germany and how they responded to increasing anti-Semitism By recognising the way in which the individual s cultural identity was constantly refashioned in the face of external challenges a fuller understanding of the evolving self perception of German Jews is reached

Friedrich Rosen Amir Theilhaber,2020-09-07 The German lacuna in Edward Said s

Orientalism has produced varied studies of German cultural and academic Orientalisms. So far the domains of German politics and scholarship have not been conflated to probe the central power knowledge nexus of Said's argument. Seeking to fill this gap, the diplomatic career and scholarly literary productions of the centrally placed Friedrich Rosen serve as a focal point to investigate how politics influenced knowledge generated about the Orient and charts the roles knowledge played in political decision making regarding extra-European regions. This is pursued through analyses of Germans in British imperialist contexts, cultures of lowly diplomatic encounters in Middle Eastern cities, Persian poetry in translation, prestigious Orientalist congresses in northern climes leveraging knowledge in high stakes diplomatic encounters, and the making of Germany's Islam policy up to the Great War. Politics drew on bodies of knowledge and could promote or hinder scholarship. Yet scholars never systemically followed empire in its tracks but sought their own paths to cognition. On their own terms or influenced by Oriental savants, they aligned with politics or challenged claims to conquest and rule.
