Reinventing Khomeini The Struggle For Reform In Iran:

Reinventing Khomeini Daniel Brumberg, 2001-04-15 *Reinventing Khomeini* offers a new interpretation of the political battles that paved the way for reform in Iran Brumberg argues that these conflicts did not result from a sudden ideological shift nor did the election of President Mohammad Khatami in 1997 really defy the core principles of the Islamic Revolution To the contrary the struggle for a more democratic Iran can be traced to the revolution itself and to the contradictory agendas of the revolution's founding father Ayatollah Ruhollah Khomeini A complex figure Khomeini was a fervent champion of Islam but while he sought a Shi'ite vision of clerical rule under one Supreme Leader he also strove to mesh that vision with an implicitly Western view of mass participatory politics The intense magnetism and charisma of the ayatollah obscured this paradox But reformers in Iran today while rejecting his autocratic vision are reviving the constitutional notions of government that he considered and even casting themselves as the bearers of his legacy In *Reinventing Khomeini* Brumberg proves that the ayatollah is as much the author of modern Iran as he is the symbol of its fundamentalist past *The Oxford Handbook of Islam and Politics* John L. Esposito, Emad El-Din Shahin, 2016 *The Oxford Handbook of Islam and Politics* with contributions from prominent scholars and specialists provides a comprehensive analysis of what we know and where we are in the study of political Islam **Key Islamic Political Thinkers** John L. Esposito, Emad El-Din Shahin, 2018-08-08 Islam has become a potent political force around the world since it reemerged in the late 1960s and 1970s as a religious political alternative to failed nationalist ideologies In countries throughout the world individuals and movements have attempted to reconstruct the political economic and social dimensions of their societies along Islamic lines taking different approaches to the sharia and to the questions of whether and how to establish an Islamic state *Key Islamic Political Thinkers* offers an examination of some of the leading intellectuals behind the resurgence of political Islam The essays in this volume cover a selection of thinkers that is representative of the main strands of contemporary Muslim political thought It starts with the forefathers of contemporary political Islam Hasan al Banna and Abu al Ala al Mawdudi analyzes the revolutionary ideas of Sayyid Qutb Ali Shari'ati and Ayatollah Khomeini and ends with the intellectuals of political Islam Hassan al Turabi Rashid al Ghannoushi Yusuf al Qaradawi Muhammad Khatami and Abdolkarim Soroush who exemplify the diversity and complexity of contemporary Muslim political discourse This volume provides a valuable guide to the most important intellectual architects of the Islamic revival *Iran and the Rise of Its Neoconservatives* Anoushiravan Ehteshami, Mahjoob Zweiri, 2007-06-29 This is the book that exposes the workings of Iranian politics today The authors penetrate the labyrinth of political relationships and family networks that is the Iranian ruling class and reveal the forces which brought hard line President Mahmoud Ahmadinejad to power They argue that the power base behind Ahmadinejad represents a kind of Iranian version of American neoconservatism The Iranian neocons like their Washington counterparts have come in from the cold Politicians and clerics exiled from influence under the reformist President Khatami have seized their chance to get back in to power and to push an

uncompromising foreign policy agenda Anoushiravan Ehteshami and Mahjoob Zweiri show how Ahmadinejad's surprise victory in the 2005 elections was just one facet of this group's strategy for regaining influence In an analysis which has major implications for Western policymakers the authors examine the group's agenda on issues like Iraq Israel and nuclear enrichment and assess how likely it is that they will be able to implement it Iran and the Rise of its Neoconservatives is the essential guide to the politics of this turbulent nation whose importance to world security has never been more keenly felt

Hidden Iran Ray Takeyh, 2025-06-25 A leading expert explains why we fail to understand Iran and offers a new strategy for redefining this crucial relationship For more than a quarter of a century few countries have been as resistant to American influence or understanding as Iran The United States and Iran have long eyed each other with suspicion all too eager to jump to conclusions and slam the door What gets lost along the way is a sense of what is actually happening inside Iran and why it matters With a new hard line Iranian president making incendiary pronouncements and pressing for nuclear developments the consequences of not understanding Iran have never been higher Ray Takeyh a leading expert on Iran's politics and history has written a groundbreaking book that demystifies the Iranian regime and shows how the fault lines of Iran's domestic politics serve to explain its behavior In Hidden Iran he explains why this country has so often confounded American expectations and why its outward hostility does not necessarily preclude the normalization of relations Through a clearer understanding of the competing claims of Muslim theology republican pragmatism and factional competition he offers a new paradigm for managing our relations with this rising power **Islamism and Post-Islamism in Iran** Yadullah

Shahibzadeh, 2016-06-01 This book is a study of overlooked themes in Iran's contemporary political and intellectual history It investigates the way Iranian Muslim intellectuals have discussed politics and democracy As a history of Iranian Islamism and its transformation to post-Islamism this work demonstrates that Muslim intellectuals have enriched the Iranian society epistemologically aesthetically ethically and politically This book examines the internal conflicts of the Islamist ideology as the intellectual underpinnings of the 1979 Revolution its contribution to the formation of the post-revolutionary state and the post-Islamist response to the democratic deficits of the post-revolutionary state Seeking to overcome the shortcomings of historiographical approaches this book demonstrates the intellectual and political agency of Muslim intellectuals from the 1960s to the present **Nuclear Iran: The Birth of an Atomic State** David Patrikarakos, 2020-12-17 The Iranian nuclear

crisis has dominated world politics since the beginning of the century with the country now facing increasing diplomatic isolation talk of military strikes against its nuclear facilities and a disastrous Middle East war What is Iran's nuclear programme all about What is its genesis There is little real understanding of Iran's nuclear programme in particular its history which is now over fifty years old This ground-breaking book is unprecedented in its scope It argues that the history of Iran's nuclear programme and the modern history of the country itself are irretrievably linked and only by understanding one can we understand the other From the programme's beginnings under the Shah of Iran the book details the central role of

the US in the birth of nuclear Iran and through the relationship between the programme's founder and the Shah of Iran himself the role that nuclear weapons have played in the programme since the beginning The author's unique access to the father of Iran's nuclear programme as well as to key scientific personnel under the early Islamic Republic and to senior Iranian and Western officials at the centre of today's negotiations sheds new light on the uranium enrichment programme that lies at the heart of global concerns What emerges is a programme that has for a variety of reasons a deep resonance to Iran This is why it has persisted with it for over half a century in the face of such widespread opposition Drawing on years of research across the world David Patrikarakos has produced the most comprehensive examination of Iran's nuclear programme in all its forms to date Media, Culture and Society in Iran Mehdi Semati, 2007-09-24 By exploring topics such as the Internet print press advertising satellite television video rock music literature cinema gender religious intellectuals and secularism this unique and wide ranging volume explains Iran as a complex society that has successfully managed to negotiate and embody the tensions of tradition and modernity democracy and theocracy isolation and globalization and other such cultural political dynamics that escape the explanatory and analytical powers of all too familiar binary relations Featuring contributions from among the best known and emerging scholars on Iranian media culture society and politics this volume uncovers how the existing perspectives on post revolutionary Iranian society have failed to appreciate the complexity the paradoxes and the contradictions that characterize life in contemporary Iran resulting in a general failure to explain and to anticipate its contemporary social and political transformations The Political Ideology of Ayatollah Khamenei Yvette Hovsepian-Bearce, 2015-07-03 Ayatollah Ali Hosseini Khamenei Supreme Leader of the Islamic Republic of Iran is one of the most controversial and influential Muslim leaders in the world today As Iran's main decision maker his theocratic ideology and decisions carry global consequences The Political Ideology of Ayatollah Khamenei is the first book to identify and analyze the development and evolution of the theocratic ideology of the Supreme Leader from 1962 to 2014 using his own writings speeches and biographies as well as literature published in the Islamic Republic of Iran This work provides new insights into Khamenei's political thought and behavior and their impact on Iran's domestic regional and international policies Correlating the development of Khamenei's personality character and political behavior with Iran's internal and external challenges this study explores key issues of the Middle East region in particular Iran's political posture toward Israel the United States and the Muslim world and the diplomatic crises unfolding over Iran's nuclear development program This work provides a comprehensive chronological and thematic survey of Khamenei's life This book will be of interest to students scholars researchers diplomats and policymakers focusing on Middle Eastern politics Iranian affairs Islamic studies and international relations and could serve as an essential resource for those striving to understand Iran's policies toward Israel the United States and the Muslim world as shaped by its supreme autocrat Christianity in Persia and the Status of Non-muslims in Iran A.
