

The background of the cover is a complex, abstract composition. The upper portion features a dense, swirling pattern in shades of blue and purple, resembling marbled paper or a microscopic view of a liquid. The lower portion shows a close-up, angled view of a computer keyboard, with the keys and their corresponding circuitry visible in a muted, monochromatic palette. The overall effect is a blend of organic, fluid patterns with the structured, mechanical elements of technology.

Reinventing The Wheel A Buddhist Response To The Information Age:

Reinventing the Wheel Peter D. Hershock, 1999-07-23 Suggests that certain Buddhist notions may act as an antidote to the adverse effects of high tech media *Buddhist Responses to Globalization* Leah Kalmanson, James Mark Shields, 2014-07-22 This interdisciplinary collection of essays highlights the relevance of Buddhist doctrine and practice to issues of globalization From various philosophical religious historical and political perspectives the authors show that Buddhism arguably the world's first transnational religion is a rich resource for navigating today's interconnected world *Buddhist Responses to Globalization* addresses globalization as a contemporary phenomenon marked by economic cultural and political deterritorialization and also proposes concrete strategies for improving global conditions in light of these facts Topics include Buddhist analyses of both capitalist and materialist economies Buddhist religious syncretism in highly multicultural areas such as Honolulu the changing face of Buddhism through the work of public intellectuals such as Alice Walker and Buddhist responses to a range of issues including reparations and restorative justice economic inequality spirituality and political activism cultural homogenization and nihilism and feminist critique In short the book looks to bring Buddhist ideas and practices into direct and meaningful yet critical engagement with both the facts and theories of globalization *Routledge Handbook of Religions in Asia* Bryan Turner, Oscar Salemink, 2014-09-25 The Routledge Handbook of Religions in Asia provides a contemporary and comprehensive overview of religion in contemporary Asia Compiled and introduced by Bryan S Turner and Oscar Salemink the Handbook contains specially written chapters by experts in their respective fields The wide ranging introduction discusses issues surrounding Orientalism and the historical development of the discipline of Religious Studies It conveys how there have been many centuries of interaction between different religious traditions in Asia and discusses the problem of world religions and the range of concepts such as high and low traditions folk and formal religions popular and orthodox developments Individual chapters are presented in the following five sections Asian Origins religious formations Missions States and Religious Competition Reform Movements and Modernity Popular Religions Religion and Globalization social dimensions Striking a balance between offering basic information about religious cultures in Asia and addressing the complexity of employing a western terminology in societies with radically different traditions this advanced level reference work will be essential reading for students researchers and scholars of Asian Religions Sociology Anthropology Asian Studies and Religious Studies *French Philosophy of Technology* Sacha Loeve, Xavier Guchet, Bernadette Bensaude Vincent, 2018-05-28 Offering an overall insight into the French tradition of philosophy of technology this volume is meant to make French speaking contributions more accessible to the international philosophical community The first section Negotiating a Cultural Heritage presents a number of leading 20th century philosophical figures from Bergson and Canguilhem to Simondon Dagognet or Ellul and intellectual movements from Personalism to French Cybernetics and political ecology that help shape philosophy of technology in the Francophone area

and feed into contemporary debates ecology of technology politics of technology game studies The second section Coining and Reconfiguring Technoscience traces the genealogy of this controversial concept and discusses its meanings and relevance A third section Revisiting Anthropological Categories focuses on the relationships of technology with the natural and the human worlds from various perspectives that include anthropotechnology Anthropocene technological and vital norms and temporalities The final section Innovating in Ethics Design and Aesthetics brings together contributions that draw on various French traditions to afford fresh insights on ethics of technology philosophy of design techno aesthetics and digital studies The contributions in this volume are vivid and rich in original approaches that can spur exchanges and debates with other philosophical traditions

Religious Transformation in Modern Asia ,2015-02-24 This volume explores the religious transformation of each nation in modern Asia When the Asian people who were not only diverse in culture and history but also active in performing local traditions and religions experienced a socio political change under the wave of Western colonialism the religious climate was also altered from a transnational perspective Part One explores the nationals of China Taiwan Hong Kong Korea and Japan focusing on the manifestations of Japanese religion Chinese foreign policy the British educational system in Hong Kong in relation to Tibetan Buddhism the Korean women of Catholicism and the Scottish impact in late nineteenth century Korea Part Two approaches South Asia through the topics of astrology the works of a Gujar t saint and Himalayan Buddhism The third part is focused on the conflicts between indigenous religions and colonialism Buddhism and Christianity Islam and imperialism and Hinduism and Christianity in Southeast Asia

The Ethics of Ordinary Technology Michel Puech,2016-04-28 Technology is even more than our world our form of life our civilization Technology interacts with the world to change it Philosophers need to seriously address the fluidity of a smartphone interface the efficiency of a Dyson vacuum cleaner or the familiar noise of an antique vacuum cleaner Beyond their phenomenological description the emotional experience acquires moral significance and in some cases even supplies ethical resources for the self If we leave this dimension of modern experience unaddressed we may miss something of value in contemporary life Combining European humanism Anglophone pragmatism and Asian traditions Michel Puech pleads for an ethical turn in the way we understand and address technological issues in modern day society Puech argues that the question of power is what needs to be reconsidered today In doing so he provides a three tier distinction of power power to modify the outer world our first intention method in any case technology power over other humans our enduring obsession politics and domination power over oneself ethics and wisdom

Buddhism and Intelligent Technology Peter D. Hershock,2021-01-28 Machine learning big data and AI are reshaping the human experience and forcing us to develop a new ethical intelligence Peter Hershock offers a new way to think about attention personal presence and ethics as intelligent technology shatters previously foundational certainties and opens entirely new spaces of opportunity Rather than turning exclusively to cognitive science and contemporary ethical theories Hershock shows how classical Confucian and Socratic philosophies help to make

visible what a history of choices about remaking ourselves through control biased technology has rendered invisible But it is in Buddhist thought and practice that Herschok finds the tools for valuing and training our attention resisting the colonization of consciousness and engendering a more equitable and diversity enhancing human technology world relationship Focusing on who we need to be present as to avoid a future in which machines prevent us from either making or learning from our own mistakes Herschok offers a constructive response to the unprecedented perils of intelligent technology and seamlessly blends ancient and contemporary philosophies to envision how to realize its equally unprecedented promises

The Economics of Abundance Wolfgang Hoeschele, 2016-03-23 No matter how many resources we consume we never seem to have enough The Economics of Abundance is a balanced book in which Wolfgang Hoeschele challenges why this is so He claims that our current capitalist economy can exist only on the basis of manufactured scarcity created by scarcity generating institutions and these institutions manipulate both demand and supply of commodities Therefore demand consistently exceeds supply and profits and economic growth can continue at the cost of individual freedom social equity and ecological sustainability The fact that continual increases in demand are so vital to our economy leads to an impasse many people see no alternative to the generation of ever more demand but at the same time recognize that it is clearly unsustainable ecologically and socially So can demand only be reduced by curtailing freedom and is this acceptable This book argues that by analyzing how scarcity generating institutions work and then reforming or dismantling them we can enhance individual freedom and support entrepreneurial initiative and at the same time make progress toward social justice and environmental sustainability by reducing demands on vital resources This vision would enable activists in many fields social justice civil liberties and environmental protection as well as many entrepreneurs and other members of civil society to work together much more effectively make it more difficult to portray all these groups as contradictory special interests and thereby help generate momentum for positive change Meanwhile for academics in many fields of study the concept of the creation of scarcity or abundance may be a highly useful analytical tool

Tibetan Subjectivities on the Global Stage Shelly Bhoil, Enrique Galvan-Alvarez, 2018-11-08 Tibetan Subjectivities on the Global Stage Negotiating Dispossession explores the many ways Tibetans are reimagining their cultural identity since the communist takeover of Tibet in the 1950s Focusing on developments taking place in Tibet and the diaspora this collection of essays addresses a wide range of issues at the heart of Tibetan modernity From the political dynamics of the exiled community in India to the production of contemporary Tibetan literature in the PRC the collection delves into various aspects of current significance for the Tibetan community worldwide such as the construction of Bon identity in exile the strategic use of the discourse of development or the issue of cultural and linguistic purity in an increasingly hybrid and globalized world Moving away from the preservationist paradigm that regards Tibetan culture as an endangered and precious object the essays in this book portray Tibetan identities in motion as lived subjectivities that travel change and creatively reimagine

themselves on various global stages Even if recent Tibetan history is marked by imposed transitions and a sense of dispossession this collection highlights the ways Tibetans have not only managed traumatic historical events but also become agents of change and reinventors of their own traditions

The Languages of Religion Sipra Mukherjee, 2018-06-14 This book analyses the power that religion wields upon the minds of individuals and communities and explores the predominance of language in the actual practice of religion Through an investigation of the diverse forms of religious language available oral traditions sacred texts evangelical prose and national rhetoric used by faith insiders such as missionaries priests or religious leaders who play the communicator's role between the sacred and the secular the chapters in the volume reveal the dependence of religion upon language demonstrating how religion draws strength from a past that is embedded in narratives infusing the sacred language with political power The book combines broad theoretical and normative reflections in contexts of original detailed and closely examined empirical case studies Drawing upon resources across disciplines the book will be of interest to scholars of religion and religious studies linguistics politics cultural studies history sociology and social anthropology
