Reinventing Russia:

Reinventing Russia Lauren Perfect, Tom Ryan, Scott Sweeney, 2016-02-01 *Reinventing Russia* Yitzhak M.

BRUDNY, Yitzhak M Brudny, 2009-06-30 What caused the emergence of nationalist movements in many post communist states What role did communist regimes play in fostering these movements Why have some been more successful than others To address these questions Yitzhak Brudny traces the Russian nationalist movement from its origins within the Russian intellectual elite of the 1950s to its institutionalization in electoral alliances parliamentary factions and political movements of the early 1990s Brudny argues that the rise of the Russian nationalist movement was a combined result of the reinvention of Russian national identity by a group of intellectuals and the Communist Party's active support of this reinvention in order to gain greater political legitimacy The author meticulously reconstructs the development of the Russian nationalist thought from Khrushchev to Yeltsin as well as the nature of the Communist Party response to Russian nationalist ideas Through analysis of major Russian literary political and historical writings the recently published memoirs of the Russian nationalist intellectuals and Communist Party officials and documents discovered in the Communist Party archives Brudny sheds new light on social intellectual and political origins of Russian nationalism and emphasizes the importance of ideas in explaining the fate of the Russian nationalist movement during late communist and early post communist periods Table of Contents Acknowledgments 1 Russian Nationalists in Soviet Politics 2 The Emergence of Politics by Culture 1953 1964 3 The First Phase of Inclusionary Politics 1965 1970 4 The Rise and Fall of Inclusionary Politics 1971 1985 5 What Went Wrong with the Politics of Inclusion 6 What Is Russia and Where Should It Go Political Debates 1971 1985 7 The Zenith of Politics by Culture 1985 1989 8 The Demise of Politics by Culture 1989 1991 Epilogue Russian Nationalism in Postcommunist Russia Notes Index Reviews of this book Mr Brudny provides a salient background to understanding one of the great phenomena of post 1945 history how Russians arrive at their view of the West Ron Laurenzo Washington Times Reviews of this book Brudny is a good guide to the origins of what probably lies ahead Geoffrey A Hosking Times Literary Supplement Reviews of this book If readers think that today's anti Western antimarket antisemitic variety of Russian nationalism is simply the fallout from the country's current misery they should think again With care and intelligence Brudny traces its lineage back to the Khrushchev years What began among the so called village prose writers as a lament for a rural past ravaged by Stalin's experimentation gradually accumulated further grievances the devastation of Russian culture and monuments the infiltration of corrupting Western values and ultimately under Gorbachev the criminal destruction of Russian power Much of the book concentrates on how Khrushchev and Brezhnev tried but ultimately failed to harness this discontent for their own purposes Robert Legvold Foreign Affairs Reviews of this book Brudny's survey of relations between Russian nationalism and the Soviet state provides an in depth insight into one of the most complicated aspects of the Soviet multi national state Taras Kuzio International Affairs Reviews of this book A thought provoking book Virginia Quarterly Reviews of this book Brudny shows that Russian

cultural nationalism was a powerful force in the post Stalin years with ultimate political consequences In meticulous detail Brudny sets out the various strains of Russian nationalism and points to the regime s encouragement of a certain kind of nationalism as a means of bolstering legitimacy through the politics of inclusion This volume is a significant contribution to the literature R J Mitchell Choice Reviews of this book In Reinventing Russia situated at the intersection of culture specifically the literature of the village prose movement and politics Brudny has managed admirably to draw out the wider implications of his inquiry and provided an extremely useful set of orientation points in the current seemingly so chaotic political debate in Russia Hans J Rindisbacher European Legacy Reviews of this book Brudny s book paints a fascinating picture It delineates a rich Soviet culture and society one that is much more varied than has been previously depicted by most Western researchers The overriding importance of the book derives from its argument that the post Stalinist cultural debate in the Soviet Union is what created the infrastructure for the seemingly odd alliance between communist ideology and the nationalist intelligentsia today s red brown alliance It s a significant contribution to our understanding of the history of the nationalist idea Reinventing Russia provides an enthralling overview of a historic development that has been neglected by most Western researchers His book proves once more that anyone who seeks to understand developments in Eastern Europe cannot do so by merely analyzing the economic policy of the political maneuvers of the governing elite Shlomo Avineri Ha aretz Book Review Yitzhak Brudny offers us a most persuasive attempt to explain the intricate often puzzling relation between Soviet political and cultural bureaucracy and the rise of Russian nationalism in the post Stalin era His analysis of Russian nationalist ideology and its role in the corrosion of the official Soviet dogmas is uniquely insightful and provocative Students of Soviet and post Soviet affairs will find in Brudny s splendidly researched book an indispensable instrument to grasp the meaning of the still perplexing developments that led to the breakdown of the Leninist state In the growing body of literature dealing with nationalism and national identity this one stands out as boldly innovative theoretically challenging and culturally sophisticated Vladimir Tismaneanu University of Maryland College Park author of Fantasies of Salvation Yitzhak Brudny has produced an impressive and scholarly account of the divisions within the Russian political and cultural elite during the last four decades of the Soviet Union s existence His book is important both for the fresh light it throws on that period and as essential context for interpreting the debates on nationhood and statehood which rage in Russia today Archie Brown University of Oxford Reinventing Russia provides us with a vivid portrayal of the politics behind the rise of Russian nationalism in post Stalinist Russia It is a finely detailed study of not only the relationship of political authority to the spread of nationalist ideas but also reciprocally of the role played by these ideas in shaping the political Mark Beissinger University of Wisconsin Madison Rival nationalists literally shook the Soviet Union apart The very structure of the Soviet state encouraged all major ethnic groups including the Russians to view battles over resources in terms of ethnic and national conflict Brudny in this important study explores precisely how rival nationalist claims emerged during the years following

Stalin's death and why they proved to be simultaneously so robust and pernicious Blair Ruble Director Kennan Institute Woodrow Wilson Center

Reinventing Russia Lauren Perfect, Tom Ryan, Scott Sweeney, 2008 An account of the politics and passion of the Russian revolution It is a stand alone textbook combining accessible narrative rigorous analysis and hands on activities to illuminate one of the twentieth century's most tumultuous periods

Reinventing Russia Yitzhak M. Brudny, 2000-10-02 Brudny argues that the rise of the Russian nationalist movement was a combined result of the reinvention of Russian national identity by a group of intellectuals and the Communist Party's active support of this reinvention in order to gain greater political legitimacy

National Bolshevism David Brandenberger, 2002 During the 1930s Stalin and his entourage rehabilitated famous names from the Russian national past in a propaganda campaign designed to mobilize Soviet society for the coming war In a provocative study David Brandenberger traces this populist national Bolshevism into the 1950s highlighting the catalytic effect that it had on Russian national identity formation

Reinventing Russia Tom Ryan, Lauren Perfect, Scott Sweeney, 2021-04

The Legacy Structure of Russia's One Hundred Year Transformation David Foley, 2018-11-16 Research and analysis of the post Soviet Russian experience of political economic and social change have generally focused attention on the complications and influences of the Soviet legacy on the transition process with most early main stream studies emphasizing the difficulties of the adoption of the institutions of democracy and a free market economy to the centralized command and control legacy structures carried over from that adjacent system to the more recent analyses that have attempted to explain why the Putinist hybrid authoritarian democracy emerged to take control of the Russian state The complex nature of the Russian experience of political social and economic change had yet to be explained as a long term legacy analysis until now with the linkages presented in this study of the legacies and structures that have defied attempts at reform by the Bolsheviks the Soviets and the modern Republicans The political geography of Russia represents a districting system that defines the people and places and represents an influential legacy structure that has had a long reach from the Russia of Imperialism to the Russia of Putinism and the twenty first century A clearer understanding of the influences the Imperial legacy brings to the Russian transformation enables the student of post Soviet Russian transition an opportunity to contextualize the strong linkages of historical governance structures with the one hundred years of Bolshevik and Soviet system capture and the struggles of transformation faced by the government and people of Russia today

Russia's Regional Identities Edith Clowes, Gisela Erbslöh, Ani Kokobobo, 2018-01-17 Contemporary Russia is often viewed as a centralised regime based in Moscow with dependent provinces made subservient by Putin's policies limiting regional autonomy This book however demonstrates that beyond this largely political view by looking at Russia's regions more in cultural and social terms a quite different picture emerges of a Russia rich in variety with different regional identities cultures traditions and memories The book explores how identities are formed and rethought in contemporary Russia and outlines the nature of particular regional identities from Siberia and the Urals to southern Russia from the Russian heartland

to the non Russian republics **Russia's Futures** Richard Sakwa,2019-03-04 Russia is back as a major force in global politics but what does this mean Is Russia the dangerous revisionist foe that meddles in Western elections and tries to subvert the liberal international order Or is it a country precariously trying to maintain security and enhance prosperity at home while re asserting its place as a great power in the world today In this book renowned Russia scholar Richard Sakwa explores current debates on Russia placing them in historical context and outlining the fundamental challenges currently facing the country Post communist Russia had to grapple with a unique set of problems including reconstituting the political system rebuilding the economy re imagining the nation and rethinking Russia s place in the world The solutions are still being sought but this hard hitting study argues that the failure to create an international system in which Russia s transformation became part of a revised world order has made the search far more difficult than it may otherwise have been Although Russia is one of the oldest states in Europe in its contemporary guise it is one of the youngest Russia has had many pasts and given its size centrality and complexity it will also have many futures **Authoritarian Russia** Vladimir Gel'man,2015-07-01 Russia today represents one of the major examples of the phenomenon of electoral authoritarianism which is characterized by adopting the trappings of democratic institutions such as elections political parties and a legislature and enlisting the service of the country s essentially authoritarian rulers Why and how has the electoral authoritarian regime been consolidated in Russia What are the mechanisms of its maintenance and what is its likely future course This book attempts to answer these basic questions Vladimir Gel man examines regime change in Russia from the collapse of the Soviet Union in 1991 to the present day systematically presenting theoretical and comparative perspectives of the factors that affected regime changes and the authoritarian drift of the country After the fall of the Soviet Union Russia s national political elites aimed to achieve their goals by creating and enforcing of favorable rules of the game for themselves and maintaining informal winning coalitions of cliques around individual rulers In the 1990s these moves were only partially successful given the weakness of the Russian state and troubled post socialist economy In the 2000s however Vladimir Putin rescued the system thanks to the combination of economic growth and the revival of the state capacity he was able to implement by imposing a series of non democratic reforms In the 2010s changing conditions in the country have presented new risks and challenges for the Putin regime that will play themselves out in the years to come

Reinventing Russia Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the power of words has are more evident than ever. They have the ability to inspire, provoke, and ignite change. Such could be the essence of the book **Reinventing Russia**, a literary masterpiece that delves deep into the significance of words and their impact on our lives.
