**Social and Cultural Dimensions of Indian Indentured Labour and Its Diaspora** Maurits S. Hassankhan, Lomarsh Roopnarine, Radica Mahase, 2016-11-10 This book is the third publication originating from the conference Legacy of Slavery and Indentured Labour Past present and future which was organised in June 2013 by the Institute of Graduate Studies and Research IGSR Anton de Kom University of Suriname This book is divided into four sections Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka *Leprosy and colonialism* Stephen Snelders, 2017-05-31 Leprosy and colonialism investigates the history of leprosy in Suriname within the context of Dutch colonial power and racial conflict from the plantation economy and the age of slavery to the modern colonial state It explores the relationship between the modern stigmatization and exclusion of people affected with leprosy and the political tensions and racial fears originating in colonial slave society exerting their influence until after the decolonization up to the present day In the book colonial sources are read from shifting perspectives of the colonial rulers and from below the ruled Though leprosy is today a neglected tropical disease recognizing influences of our colonial heritage in our global management of health and disease and exploring the perspectives of other cultures are essential in a time in which migration movements make the permeability of boundaries and transmission of diseases more common then perhaps ever before

*Fifty Years Later*, 1995-01-01 The Dutch slave trade slavery and abolitionism have long remained unduly neglected issues in the burgeoning international debate on capitalism modernity and antislavery Fifty Years Later now offers a thorough and wide ranging discussion of antislavery in the Netherlands and in the Dutch colonial world and also provides a fresh contribution to the ongoing debate on the relationship between abolitionism and economic political and cultural modernization in the Western world at large The contributors to this volume are Seymour Drescher Pieter C Emmer Stanley L Engerman Edwin Horlings Gerrit J Knaap Maarten Kuitenbrouwer Gert Oostindie Robert Ross Angelie Sens and Alex van Stipriaan **Jews in Another Environment** Robert Cohen, 2023-11-27 The most important Jewish center in the western hemisphere during the eighteenth century was the great colony Surinam There Jews formed perhaps the most privileged Jewish community in the world They were often plantation and slave owners as well as a sizeable proportion of the white population They had their own village with extensive autonomous rights This book is a study of the impact of environment on Jewish life in a colonial society It analyzes the impact of environment upon migratory patterns health and mortality economic structures intellectual life and communal dynamics Following the methods of social history this book uses an interdisciplinary approach to examine the impact of environment upon the modification of traditional values and modes of behavior This is the first full length monograph on Surinamese Jewry to appear in two hundred years The first one the Historical Essay of David Nassy treated Jewish history as part of the colonial experience This book treats the colonial experience as part of Jewish history White Lies and Black Markets Karwan Fatah-Black, 2015-04-21 In White Lies and Black Markets Fatah Black

offers a new account of the colonization of Suriname one of the major European plantation colonies on the Guiana Coast in the period between 1650 1800 While commonly portrayed as an isolated tropical outpost this study places the colony in the context of its connections to the rest of the Atlantic world These economic and migratory links assured the colony s survival but also created many incentives to evade the mercantilistically inclined metropolitan authorities By combining the available data on Dutch and North American shipping with accounts of major political and economic developments the author uncovers a hitherto hidden world of illicit dealings and convincingly argues that these illegal practices were essential to the development and survival of the colony and woven into the fabric of the colonial project itself
