Moral Relativism Steven Lukes, 2011-05-26 Do we as humans have no shared standards by which we can understand each other Do we truly have divergent views about what constitutes good and evil harm and welfare dignity and humiliation or is there some underlying commonality that wins out These questions show up everywhere from the debate over female circumcision to the UN Declaration of Human Rights They become ever more pressing in an age of mass immigration religious extremism and the rise of identity politics So by what right do we judge particular practices as barbaric Who are the real barbarians This provocative book takes an enlightening look at what we believe why we believe it and whether there really is an irreparable moral discord between us and them Relativism-Relativity Marin Cileva, Maria-Ana Tupan, 2013-07-26 Relativism Relativity An Interdisciplinary Perspective on a Modern Concept is a revisionary and historicist approach to an issue which cuts across the disciplinary borders of science philosophy ethics and art Sceptical of stereotypes including those of the totalising fictions of the Enlightenment supposedly steeped in absolutism and substantialism the authors endeavour to bring to light an alternative mode of cognitive mapping which runs from the seventeenth century to the age of complexity Current notions of fractal geometry rhizomatic linking of open structures hypertextuality the superposition of symbolic systems and nonlinear reality of chance and determinism are traced back to the work of Leibniz Laurence Sterne and D Alembert Similarly to H l ne V drine who documented the dark side of the Renaissance in *Les Philosophies de la Renaissance* 1971 the essayists here see the issue of the absolutism relativism polarity as the focal point in the construction of a new eighteenth century whose ground breaking ideas first launched in the tentative form of the essay acquired a quasi canonical status in the French Encyclopaedia and referenced other disciplinary fields psychology ethics social science entering into fertile negotiations with discursive and formal innovations in literature **Rationality, Relativism and the Human Sciences** Joseph Margolis, A.S. Krausz, R. Burian, 2012-12-06 The Greater Philadelphia Philosophy Consortium was launched in the early eighties It began during a particularly lean period in the American economy But its success is linked as much to the need to be in touch with the rapidly changing currents of the philosophical climate as with the need to insure an adequately stocked professional community in the Philadelphia area faced perhaps permanently with the threat of increasing

attrition The member schools of the Consortium now include Bryn Mawr College the University of Pennsylvania Temple University and Villanova University that is the schools of the area that offer advanced degrees in philosophy The philosophy faculties of these schools form the core of the Consortium which offers graduate students the instructional and library facilities of each member school The Consortium is also supported by the associated faculties of other regional schools that do not offer advanced degrees notably those at Drexel University Haverford College La Salle University and Swarthmore College both philosophers and members of other departments as well as interested and professionally qualified persons from the entire region The affiliated and core professionals now number several hundreds and the Consortium s various ventures have been received most enthusiastically by the academic community At this moment the Consortium is planning its fifth year of what it calls the Conferences on the Philosophy of the Human Studies

Ethical Relativism and Universalism Saral Jhingran,2001-01-01 The present work addresses itself to one of the most hotly debated issues in contemporary ethics relativism Relativism has become a formidable argument in Western socio moral thought under the impact of postmodern writings The author presents a detailed critique of various relativist and postmodernist theses without rejecting some of their empirically justified observations She underscores the fact that the intercultural communication which has been going on since time immemorial puts a question mark to the postmodernist theories of indeterminacy of translation incommensurability of various conceptual frameworks etc The author supports cognitivism in ethics according to which the moral properties of the object of moral judgement do in some way determine or cause that judgment This view is not to be confused with any realist ontological commitment She asserts that universalizability is the necessary condition of all rational judgments including the moral ones The author also discusses the relationship between self and others and in this context she draws upon the insights of ancient Indian thinkers She proposes that minimum moral principles and maxims can be agreed upon through reasoning and intercultural discourse

Rationalism, Realism, and Relativism Robert L. Arrington,2019-05-15 During the 1970s and 1980s the field of ethics underwent a profound change in perspective from noncognitivism to cognitivism regarding moral judgments and reasoning Although metaethical noncognitivism had been the predominant point of view during the previous three decades a series of attacks had undermined its authority by the 1970s and it gave way to the cognitivist belief that moral judgments have truth values This book provides a descriptive and critical guide to the often bewildering scene that resulted from these controversies in contemporary moral epistemology
