Relativity A Point Of View Poems:

Relativity Kelly Cherry,1977 **Yeats, Eliot, Pound and the Politics of Poetry** Cairns Craig,2015-12-22 It has long been recognised that there is an apparently paradoxical relationship between the revolutionary poetic style developed by Yeats Eliot and Pound in the period during and after the First World War and the reactionary politics with which they were associated in the 1920s and 1930s Concentrating on their writings in the period up to the 1930s this study first published in 1982 helps to resolve the paradox and also provides a much needed reappraisal of the factors influencing their poetic and political development The work of these poets has usually been seen as deriving from the tradition of continental symbolist poetics Yeats Eliot Pound and the Politics of Poetry will be of interest to students of literature **A Gathering of Poets** Maggie Anderson,Alex Gildzen,Raymond A. Craig,1992 A collection of poems commemorating the twentieth anniversary of the killing of four Kent State students on May 4 1970 The Measured Word Kurt Brown,2001 Though the interests of science and art frequently seem to inhabit opposite poles The Measured Word assembles a brilliant anthology of twelve essays that illumine the historic and newly emerging relationships between the poetic and scientific imaginations Assembling the writings of leading contemporary poets essayists and thinkers Kurt Brown highlights ways in which poets use scientific discoveries and mathematical ideas to their artistic advantage and offers insight on the recently apparent integration of technology and other discoveries into the postmodernist poetry Here are meditations on the similarities and differences between the poetic and scientific imagination on the poetic use of fractals on hypertext on the changing shape of poetry in the scientific age Commentary by Czech poet and immunologist Miroslav Holub Paul Lake Alison Hawthorne Deming Alice Fulton Forrest Gander and Stephanie Strickland among others presents a diverse selection of opinions These viewpoints are complemented by many careful innovative readings of individual poems informed by the sciences The writings in this collection not only celebrate the advent of a new age of discovery but also identify the need for a revision of the western thinking that separates the mind and the heart replacing division with the reciprocity of mutual communication **Poet's Work, Poet's Play** Daniel Tobin,Pimone Triplett,2008 An indispensable resource for anyone interested in the art and craft of contemporary poetry **This Ghostly Poetry** Daniel Aguirre-Oteiza,2020-03-20 This Ghostly Poetry explores the fraught relationship between poetry and literary history in the context of the Spanish Civil War its aftermath and ongoing debates about historical memory in Spain **Browning, Victorian Poetics and the Romantic Legacy** Dr Britta Martens,2013-05-28 Taking an original approach to Robert Browning s poetics Britta Martens focuses on a corpus of relatively neglected poems in Browning s own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the

biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning's detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet's highly self-conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self-expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self-reference

Logan, 2010 This is a textbook for a survey course in physics taught without mathematics that also takes into account the social impact and influences from the arts and society It combines physics literature history and philosophy from the dawn of human life to the 21st century It will also be of interest to the general reader
