Stephen Hart

Religion And Economic Justice:

Religion and Economic Justice Michael Zweig, 1992-08-11 Original essays by distinguished contributors from economics religious ethics and biblical studies Do Justice Rebecca M. Blank, 1992 For individuals as well as lay study groups this resource presents a much needed blend of theology and economics for all Christians interested in responding practically compassionately and justly to difficult economic realities *What Does the Lord Require?* Stephen Hart, 1996 From the support given to Reagan and Bush's conservative economic agenda by the Religious Right to the questioning of some features of American capitalism by the Catholic Bishops Christians have been highly visible in the public forum during the last decade In *What Does the Lord Require* Stephen Hart shows that the views on economic issues held by less vocal Christians are also grounded in deeply held religious beliefs For these grass roots Christians Hart writes faith lays the foundation for views that range from staunchly conservative to radical Hart paints a rich portrait of how everyday Christians actually connect their faith to such issues as economic equality government intervention and the rights of private enterprise Drawing on lengthy interviews he makes a comprehensive analysis of forty seven diverse Christians Roman Catholics Pentecostals mainline Protestants Jehovah's Witnesses and others who range from manual laborers to corporate executives from conservatives to socialists The results are sometimes surprising On economic issues Hart shows evangelicals and fundamentalists are at least as liberal as mainline Protestants One Missionary Alliance member for example bases her populist views on the ideas that we are all children of God and God favors the lowly Many traditionalists come to liberalism through the belief that economic life should be governed by an ethical vision not just market forces Modernists on the other hand often desire an unbridled free market out of concern to maximize individual freedom Hart identifies five themes from Christian tradition voluntarism universalism love thisworldliness and otherworldliness that respondents repeatedly draw upon when they think about economic justice issues He shows how these themes are used to support both conservative and liberal views arguing that Christianity is a terrain of debate with no single inherent set of political implications let alone the monolithic conservative ones promoted by the Christian Right In fact he writes the respondents tend to speak in more liberal terms when they articulate the social implications of faith than when they talk about economic issues in purely secular terms Christian faith thus provides many Americans with a vision that can contribute to change in the direction of greater equality community and economic justice Most Americans are members of Christian churches and the last decade has shown the tremendous impact politically active Christians can have In *What Does the Lord Require* Stephen Hart offers a new understanding of how faith shapes the capacity of grass roots Christians to participate in public debate about economic life

Tenth Anniversary Edition of Economic Justice for All Catholic Church. Economic Justice and the State Ronald H. Nash,1986-01-01 Women, Faith, and Economic Justice Jackie M. Smith,1985-01-01 **Religion and the Obligations of Citizenship** Paul J. Weithman,2002-08-15 In Religion and the Obligations of Citizenship Paul J Weithman asks whether citizens in a liberal democracy may base their votes and their public political arguments on their religious beliefs Drawing on empirical studies of how religion actually functions in politics he challenges the standard view that citizens who rely on religious reasons must be prepared to make good their arguments by appealing to reasons that are accessible to others He contends that churches contribute to democracy by enriching political debate and by facilitating political participation especially among the poor and minorities and as a consequence citizens acquire religiously based political views and diverse views of their own citizenship He concludes that the philosophical view which most defensibly accommodates this diversity is one that allows ordinary citizens to draw on the views their churches have formed when voting and offering public arguments for their political positions **Economic Justice for All** Catholic Church.
