Religion And Ethnicity Minorities And Social Change In The Metropolis:

Religion and Ethnicity R. Barot,1992-12-01 **Ethnicity, Gender and Social Change** Harriet Bradley,Steve Fenton,1999-02-08 Ethnicity Gender and Social Change explores the social space occupied by both gender and ethnicity As recognition of the sociological importance of gender and ethnicity has grown so has the opportunity for exploring the intersections between them This volume brings together both theoretical reflections and new research in this key area For the sociologist this presents a conceptual challenge while for the individual it may present a series of dilemmas These are intriguingly traced out in studies which take us from Punjabi families in the UK to Surinamese migrants in Amsterdam to Hindu and Muslim women and Black nurses in Britain the African and Asian diasporas and gender identity in post Soviet Latvia **Multiculturalism and Minority Religions in Britain** Malory Nye,2012-12-06 A detailed case study of the International Society for Krishna Consciousness ISKCON in Britain The book studies the particular development of a new religious movement within the context of Britain and issues relating to minority religions place within a multicultural but still hegemonically Christian society **Religion in Higher Education** Sophie Gilliat-Ray,2019-07-16 This title was first published in 2000 The place of religion in universities and institutes of higher education has become increasingly topical and contested in recent years largely due to the growth of religious diversity on campus Issues such as shared worship spaces equal opportunities and the management of inter religious conflict concern university administrators and students alike Based on primary empirical research this book indicates the need for clear guidelines on these issues and provides the data to inform policy making Offering the first study of the practical and sociological implications of the multi faith campus this book provides a context for examining some of the dynamics of religious diversity in Britain more generally as well as providing a useful analysis for the wider international context Key themes covered include religion in institutions inter faith relations the changing roles of religious professionals secularisation and resacralisation and religion youth and identity **Theorising Religion** John Walliss,2017-10-24 Religion is controversial and challenging Whilst religious forces are powerful in numerous societies they have little or no significance for wide swaths of public or private life in other places The task of theoretical work in the sociology of religion is therefore to make sense of this apparently paradoxical situation in which religion is simultaneously significant and insignificant The chapters of Part One consider the classical roots of ideas about religion that dominated sociological ways of thinking about it for most of the twentieth century Each chapter offers sound reasons for continuing to find theoretical inspiration and challenge in the sociological classics whilst also seeking ways of enhancing and extending their relevance to religion today Part Two contains chapters that open up fresh perspectives on aspects of modern post modern and ultra modern religion without necessarily ignoring the classical legacy The chapters of Part Three chart new directions for the sociological analysis of religion by fundamentally re thinking its theoretical basis by extending its disciplinary boundaries and by examining previously overlooked topics **War and Ethnicity** David

Turton,2002 Includes statistics **Rethinking Religious Education and Plurality** Robert Jackson,2013-02-01 How should schools deal with religions in matters of curriculum procedure and policy As Western society becomes increasingly multicultural in character schools must reassess the provision of religious education and look at how they might adapt in order to accommodate students diverse experiences of plurality This book offers a critical view of approaches to the treatment of different religions in contemporary education in order to devise approaches to teaching and learning and to formulate policies and procedures that are fair and just to all Beginning with a contextual overview of the religious social and cultural changes of the past fifty years the book goes on to illuminate and assess six different responses to the challenges posed by religious plurality in schools Conclusions are drawn from the various positions explored in this book identifying what the character of religious education should be how it should be taught and addressing the issues raised for policy practice and research Rethinking Religious Education and Plurality argues for a plural approach to education and will be a valuable resource for students and researchers studying courses in religious education as well as teachers education advisers and policy makers **Routledge Handbook of Religions in Asia** Bryan Turner,Oscar Salemink,2014-09-25 The Routledge Handbook of Religions in Asia provides a contemporary and comprehensive overview of religion in contemporary Asia Compiled and introduced by Bryan S Turner and Oscar Salemink the Handbook contains specially written chapters by experts in their respective fields The wide ranging introduction discusses issues surrounding Orientalism and the historical development of the discipline of Religious Studies It conveys how there have been many centuries of interaction between different religious traditions in Asia and discusses the problem of world religions and the range of concepts such as high and low traditions folk and formal religions popular and orthodox developments Individual chapters are presented in the following five sections Asian Origins religious formations Missions States and Religious Competition Reform Movements and Modernity Popular Religions Religion and Globalization social dimensions Striking a balance between offering basic information about religious cultures in Asia and addressing the complexity of employing a western terminology in societies with radically different traditions this advanced level reference work will be essential reading for students researchers and scholars of Asian Religions Sociology Anthropology Asian Studies and Religious Studies The Transnational Family Deborah Bryceson,Ulla Vuorela,2020-12-16 Migrant networks in the form of families associational ties and social organizations stretch across the globe connecting cultures and bridging national boundaries The effects of this global networking are vast This book is the first to stand back and explore the impact Families living outside of their original national boundaries have had and continue to have a profound influence over the flow of people goods money and information More in depth perspectives reveal how immigrants face troubling issues of cultural identity economic change political uncertainty and social welfare From an examination of nineteenth century transnational families emigrating from Europe to the Ghanaian Pentecostal diaspora in Europe today this book combines broadly based analysis with more unusual

case studies to reveal the complexities that immigrants and refugees must contend with in their daily lives What are the experiences of migrant Turkish women living in Germany In what ways has religion been hybridized amongst West African Muslim migrants in Paris What are the gender relations and transnational ties amongst Bosnian refugees Never has such a topic been more relevant Problems relating to immigrants and refugees situations in their adopted countries continue to grow This book wide ranging in its geographical and thematic scope is a highly important and timely addition to debates on transnational families immigrants and refugees

Explorations in the Sociology of Language and Religion Tope Omoniyi, Joshua A. Fishman, 2006-08-17 The Sociology of Language and Religion SLR is still in its infancy as a sub discipline in the macrosociolinguistic tradition It is therefore no coincidence that the editorial collaboration to produce its first definitive text Explorations in the Sociology of Language and Religion has involved Joshua A Fishman often cited in the literature as one of the founders of the Sociology of Language Tope Omoniyi brings to the collaboration an insightful and incisive critical eye for engaging with diversity in the treatment of language and religion Together as editors they have successfully midwived the birth of SLR The studies and debates contained in this volume revisit those themes that both of the contributory disciplines of Sociology of Language and Religion have common interest in The contributing authors explore new methodologies and paradigms of analysis that they deem appropriate for this interesting and complex interface in an attempt to demonstrate how the shared interests of these disciplines impact social practices in various communities around the world The ultimate objective of the discussions is to fashion tools for creating a body of new knowledge that supports the emergence of a better society Towards this end the authors have harnessed resources from varied geographical cultural linguistic and religious constituencies without compromising analytical depth In the process they have opened up new areas of sociolinguistic inquiry The volume is thus presented as a highly useful reference resource both for undergraduate and postgraduate scholarship
