Religion - A Dialogue. - The Essays of Arthur Schopenhauer Arthur Schopenhauer, 2012-03-10 Schopenhauer is one of the few philosophers who can be generally understood without a commentary All his theories claim to be drawn direct from the facts to be suggested by observation and to interpret the world as it is and whatever view he takes he is constant in his appeal to the experience of common life This characteristic endows his style with a freshness and vigor which would be difficult to match in the philosophical writing of any country and impossible in that of Germany If it were asked whether there were any circumstances apart from heredity to which he owed his mental habit the answer might be found in the abnormal character of his early education his acquaintance with the world rather than with books the extensive travels of his boyhood his ardent pursuit of knowledge for its own sake and without regard to the emoluments and endowments of learning He was trained in realities even more than in ideas and hence he is original forcible clear an enemy of all philosophic indefiniteness and obscurity so that it may well be said of him in the words of a writer in the *Revue Contemporaine* ce n'est pas un philosophe comme les autres c'est un philosophe qui a vu le monde *Religion: a dialogue, and other essays,*
