

Religion A Secular Theory

Linell E. Cady, Tracy Fessenden

Religion A Secular Theory:

Secular Theories on Religion Tim Jensen, Mikael Rothstein, 2000 Scholars of religious studies from Europe and North America explore what a secular or scientific study of religion should be like what methods it should apply what aims and what kind of scientific thinking should be pursued They also consider scholars as public intellectuals operating within and influenced by general societal developments The 18 essays provide a survey of current thinking in the field Distributed in the US by ISBS c Book News Inc Religion, a Secular Theory Andrew M. Greeley, 1982 **'Religion' and 'Secular'**

Categories in Sociology Mitsutoshi Horii, 2022-01-01 Informed by critical religion perspective in Religious Studies and postcolonial self reflection in Sociology this book interrogates the ideas of religion and the secular in social theory and Sociology It argues that as long as social theory and sociological discourse embed the religion secular distinction and locate themselves on the secular side of the binary Sociology will continue to serve the very ideologies it tries to subvert namely Western modernity coloniality **Religion, the Secular, and the Politics of Sexual Difference** Linell E. Cady, Tracy Fessenden, 2013-11-12 Global struggles over women s roles rights and dress have taken center stage in a drama that casts the secular and the religious in tense if not violent opposition Advocates for equality speak of the issue in terms of rights and modern progress while reactionaries ground their authority in religious and scriptural appeals Both sides presume women s emancipation is tied to secularization This volume upsets these certainties by blending diverse voices and traditions both secular and religious in studies historicizing questioning and testing the implicit links between secularism and expanded freedoms for women Rather than treat secularism as the answer to conflicts over gender and sexuality these essays show how it structures the conditions generating them **Religion, Theory, Critique** Richard King, 2017-07-18 Religion Theory Critique is an essential tool for learning about theory and method in the study of religion Leading experts engage with contemporary and classical theories as well as non Western cultural contexts Unlike other collections this anthology emphasizes the dynamic relationship between religion as an object of study and different methodological approaches and openly addresses the question of the manifold ways in which religion secular and culture are imagined within different disciplinary horizons This volume is the first textbook which seeks to engage discussion of classical approaches with contemporary cultural and critical theories Contributors write on the influence of the natural sciences in the study of religion the role of European Christianity in modeling theories of religion religious experience and the interface with cognitive science the structure and function of religious language the social scientific study of religion ritual in religion the phenomenology of religion critical theory and religion embodiment and religion the impact of colonialism and modernity theorizing religion in terms of race and ethnicity links among religion nationalism and globalization the interplay of gender sex and religion and religion and the environment Each chapter introduces the topic identifies key theorists and issues and respects the pluralistic nature of the scholarship in the field Altogether this collection scrutinizes the explicit and implicit

assumptions theorists make about religion as an object of analysis **Secularization** Steve Bruce, 2013-01-11 The decline in power popularity and prestige of religion across the modern world is not a short term or localized trend nor is it an accident It is a consequence of subtle but powerful features of modernization Renowned sociologist Steve Bruce elaborates the secularization paradigm and defends it against a wide variety of recent attempts at rebuttal and refutation Using the best available statistical and qualitative evidence Bruce considers the implications for the Social Theory and Religion James A. Beckford, 2003-08-21 Many aspects of religion are puzzling these days This book looks at ways of improving our understanding of religious change by strengthening the links between social theory and the social scientific study of religion It clarifies the social processes involved in constructing religion and non religion in public and private life Taking illustrations of the importance of these boundaries from studies of secularisation religious diversity globalisation religious movements and self identity James A Beckford reviews the current state of social scientific knowledge about religion **Sacred and Secular** Pippa Norris, Ronald Inglehart, 2004-09-20 Seminal thinkers of the nineteenth century Auguste Comte Herbert Spencer Emile Durkheim Max Weber Karl Marx and Sigmund Freud all predicted that religion would gradually fade in importance and cease to be significant with the emergence of industrial society The belief that religion was dying became the conventional wisdom in the social sciences during most of the twentieth century During the last decade however the secularization thesis has experienced the most sustained challenge in its long history The traditional secularization thesis needs updating Religion has not disappeared and is unlikely to do so Nevertheless the concept of secularization captures an important part of what is going on This book develops a theory of secularization and existential security Sacred and Secular is essential reading for anyone interested in comparative religion sociology public opinion political behavior political development social psychology international relations and cultural change **Deep History, Secular Theory** Luther Martin, 2014-05-21 Over the course of his career Luther H Martin has primarily produced articles rather than monographs This approach to publication has given him the opportunity to experiment with different methodological approaches to an academic study of religion with updates to and different interpretations of his field of historical specialization namely Hellenistic religions the subject of his only monograph 1987 The contents of this collected volume represent Martin s shift from comparative studies to socio political studies to scientific studies of religion and especially to the cognitive science of religion He currently considers the latter to be the most viable approach for a scientific study of religion within the academic context of a modern research university The twenty five contributions collected in this volume are selected from over one hundred essays articles and book chapters published over a long and industrious career and are representative of Martin s work over the past two decades Post-Secular Society Peter Nynäs, Mika Lassander, Terhi Utriainen, 2012 Are we still secular If not what can one possibly mean by post secular The answers depend on what one considers secular as well as the people societies and institutions that one considers Post Secular Society argues for the experience of living in a secular world

and a secular age and the experience of living without religion as a normal condition Religion in the Western world is often described as being marked to some degree by both innovation and disarray The past couple of decades have seen the emergence of reformulated versions of theories of secularization variants of rational choice and supply side models of religion and new theoretical perspectives on the secularization of religion In spite of these different approaches and perspectives a majority of scholars agree that the West is experiencing a general resurgence of religion and that the public visibility of religious actors and discourses is on the rise across most Western societies Post Secular Society discusses the changes in religion related to globalization as well as New Age and other forms of popular religion The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular and consumer culture They also detail current innovative discourse as a religious belief system discuss theories of the post secular religious and spiritual well being and consider healing practices in Finland and environmentalism
