Retos Para El Desarrollo Y La Democracia:

Retos para el desarrollo y la democracia María-Pilar García Guadilla, Jutta Blauert, 1994 , **Democracia mexicana: retos de la participación y los derechos** Fernando Castañeda Sabido, Lorenzo Córdova Vianello, 2023-02-21 Lo primero que hay que destacar de esta obra colectiva es que da muestra de una diversidad de perspectivas teóricas y analíticas que reflejan la vocación multidisciplinaria de la Ctedra Francisco I Madero Una vocación que con el libro ratifica que sólo desde la diversidad de visiones y aproximaciones para comprender la realidad del país se puede ampliar y profundizar sobre el conocimiento de la vida pública nacional y sus laberintos Lorenzo Córdova Vianello Vivimos en un mundo con muchos riesgos y grandes desafíos entre otros el camino que seguir la democracia es sin duda el más relevante Si no podemos enfrentar mediante procesos democráticos las desigualdades y formas de exclusión social los problemas medioambientales y el crecimiento económico la violencia e inseguridad lo que nos depare el destino es totalmente incierto confiar en la voluntad de unos pocos líderes no es una alternativa Fernando Castañeda Sabido **Handbook of Social Movements across Latin America** Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region It examines the developments of the past twenty years such as a renewed upswing in popular mobilization the ending of violent conflicts and military governments new struggles and a relatively more democratic climate It shows that from southern Chiapas to Argentina social movements in the 1990s and especially in the 2000s have reached new heights of popular participation There is a lack of research on the politics of this region in the contemporary era of globalization this volume partially fills the void and offers a rich resource to students scholars and the general public in terms of understanding the politics of mass mobilization in the early twenty first century The contributors each address social movement activity in their own nation and together they present a multidisciplinary perspective on the topic Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggles for instance the main protagonists in the campaigns the grievances of the population and the outcomes of the struggles This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries issues and social groups These themes include 1 theory of Latin American social movements 2 neoliberalism 3 indigenous struggles 4 women's movements 5 movements and the State 6 environmental movements and 7 transnational mobilizations **Beyond Sun and Sand** Sherrie L. Baver, Barbara D. Lynch, 2006 Annotation Bringing together ten essays by social scientists and activists this book provides the most comprehensive exploration of the range of environmental issues facing the region and the social movements that have developed to deal with them The authors consider the role that global and regional political economies play in this process **The Earth Charter, Ecological Integrity and Social Movements** Laura Westra, Mirian Vilela, 2014-06-20 The Earth Charter is a declaration of fundamental ethical principles for building a just sustainable and peaceful global society with

ecological integrity as a major theme This book provides a series of analyses of ecological integrity as it relates to the Earth Charter social movements and international law for human rights It is shown how the Earth Charter project began as a United Nations initiative but it was carried forward and completed by a global civil society initiative The drafting of the Earth Charter involved the most inclusive and participatory process of its time ever associated with the creation of an international declaration This process is the primary source of its legitimacy as a guiding ethical framework The Earth Charter was finalized and then launched in 2000 and its legitimacy has been further enhanced by its endorsement by over 6 500 organizations including many governments and international organizations In the light of this legitimacy an increasing number of international lawyers recognize that the Earth Charter is acquiring the status of a soft law document The book also shows the strong connection between ecological integrity and social justice particularly in the defence of indigenous people and includes contributions from both the North and the global South specifically from Central and South America

Globalización, tiempo, espacio y poder Ximena Agudo Guevara,2000 **Desafíos para la democracia en Latinoamérica y el Caribe** Mitchell A. Seligson,2008 *Exporting Environmentalism* Ronie Garcia-Johnson,2000
Exporting Environmentalism is the first book to examine industry s transnational promotion of environmental ideas and practices , Global Ethics on Climate Change Martin Schonfeld,2013-08-15 The volatility of climate change is increasing It is bad news and many climatologists policy analysts and environmental groups regard the West as the largest contributor to the problems caused by climate change This book raises questions concerning the systemic and cultural reasons for Western countries unwillingness to bear full responsibility for their carbon emissions Is the Western paradigm failing Can other cultures offer solutions Are there alternatives for designing a better future Just as the roots of the problem of climate change are cultural the solution must be too The contributors to Global Ethics on Climate Change explore cultural alternatives This differs from conventional climate ethics which tends to address the crisis with utilitarian legalistic and analytic tools The authors in this volume doubt whether such paradigm patches will work It may be time to think outside the box and consider non Western insights about the good life indigenous wisdom on being in the world and new ideas for civil evolution This book is an examination of candidates for a Plan B This book was published as a special issue of the Journal of Global Ethics **Assessing Democracy In Latin America** Philip Kelly,2021-11-28 Based on fifty years worth of data Assessing Democracy in Latin America examines and compares the progress of Latin American countries toward democracy The essays in this volume all written by contributors to the Fitzgibbon Democracy Survey focus their analyses on those factors most germane to the growth maintenance or failure of democratic systems For example in his initial chapter Philip Kelly identifies two variables mechanized agriculture and per capita newspaper circulation as the best statistical indicators of democracy in Latin America Other contributors explore a variety of new topics such as the connection between democracy and environmental movements Kathryn Hochstetler and Steven Mumme political parties John D Martz and social dynamics

Robert L Peterson Initiated in 1945 as a method of measuring and ranking Latin American democratic systems the Fitzgibbon Democracy Surveys longevity and scope provide an unparalleled wealth of scholarly research This volume offers what few others like it can a longitudinally deep data set eleven surveys over the past fifty years and closely coordinated coverage of the complete range of Latin American countries by specialists assembled expressly for that purpose Sistemas políticos de América Latina Manuel Alcántara Sáez, 2013-12-16 La política latinoamericana ha consolidado alguna de las tendencias que ya estaban presentes hace una década Ha continuado el asentamiento de la institucionalidad política procesando el conflicto político mediante elecciones o arreglos institucionales que han sido capaces de encauzar las muy severas crisis enfrentadas Los comicios han seguido siendo la guía de la vida política pese a cierta desconfianza social en su desarrollo y son el instrumento a través del cual se ha articulado la acción política Mientras tanto el universo partidista ha continuado sufriendo profundas mutaciones en lo atinente a sus adaduras ideológicas en la volatilidad de las ofertas electorales y en su drástica desinstitucionalización en la mitad de los países que se consideran en este volumen Poco a poco se han ido conformando dos modelos de hacer política que en gran medida se alinean con el tradicional continuo izquierda derecha y que a su vez retoman viejos temas de la política de la región como el nacionalismo el papel del Estado la personalización de la política las relaciones con Estados Unidos la integración regional el multiculturalismo de carácter fundamentalmente étnico y la inclusión social

Los retos que enfrentamos Felipe Calderón Hinojosa, 2014-08-21 Mahatma Gandhi dijo Vivir es mi mensaje La Presidencia del Presidente Calderón es el mensaje no solamente para el pueblo de México sino para todos los pueblos del mundo Dr Rajendra Kumar Pachauri Premio Nobel de la Paz Sin duda el sexenio del Presidente Felipe Calderón Hinojosa 2006-2012 estuvo marcado por grandes desafíos para México Fueron especialmente graves la expansión y la violencia del crimen organizado así como la crisis económica internacional sobre las cuales el autor da una amplia y muy útil explicación También hubo que enfrentar desde la pandemia de influenza AH1N1 hasta las intensas sequías e inundaciones que afectaron al país y muchos otros acontecimientos que configuraron un panorama particularmente complejo No obstante aun en el marco de tales adversidades México alcanzó notables logros entre otros el reconocimiento internacional por su manejo económico y el incremento de su competitividad manufacturera la construcción sin precedentes de obras de infraestructura y vivienda o la cobertura universal de salud En Los retos que enfrentamos Felipe Calderón ofrece un recuento personal de cómo se respondió a cada uno de esos desafíos desde el gobierno Como él mismo se la Es un texto que busca explicar lo que hicimos Pero no se trata de un informe que carezca de reflexión y autocrítica Como todo gobierno en tanto que actividad humana el mío tuvo limitaciones errores e insuficiencias Pero también tuvo aciertos y programas exitosos Unos y otros los ponderar el lector la opinión pública y el registro de los hechos que a la distancia quede de un periodo tan complejo Así Los retos que enfrentamos es el ejercicio de rendición de cuentas de un ex presidente de la República que ofrece una oportunidad inmejorable para comprender las circunstancias y las motivaciones detrás de muchas decisiones de gobierno que cambiaron

el rumbo de la historia de México El Presidente Calderón y el pueblo de México han mostrado un valor extraordinario en la lucha por su país Barack Obama Presidente de Estados Unidos de América Presidente Felipe Calderón permítame felicitarlo por una formidable Cumbre del G20 la cual es un símbolo del creciente prestigio de México en la escena mundial David Cameron Primer Ministro del Reino Unido
