way in which the life of Christian faith is truly free Within this framework the author has provided a series of studies with particular attention such themes as post Renaissance Man Humanism and the Church in Deadlock Transcendence and the Crisis about God The main argument of an earlier book The New Man long out of print has been presented in three chapters of this work and other more recent essays and papers have been drawn upon In this way both the background to the author's well known book Secular Christianity and his developing ideas on the same themes have been provided This book should be a help in clarifying some of the exciting issues raised by the new theology of which Professor Gregor Smith is one of the leading exponents in Britain Publisher *A Christian Understanding of Human Nature* Michael B. Raschko, 2010 This is a fascinating study of Christian Anthropology grace and sin and is intended for the educated lay person This is a challenging and engaging study for all who want to explore these themes more deeply **Christological Anthropology in Historical Perspective** Marc Cortez, 2016-02-02 What does it mean to be truly human In Christological Anthropology in Historical Perspective Marc Cortez looks at the ways several key theologians Gregory of Nyssa Julian of Norwich Martin Luther Friedrich Schleiermacher Karl Barth John Zizioulas and James Cone have used Christology to inform their understanding of the human person Based on this historical study he concludes with a constructive proposal for how Christology and anthropology should work together to inform our view of what it means to be human Many theologians begin their discussion of the human person by claiming that in some way Jesus Christ reveals what it means to be truly human but this often has little impact in the material presentation of their anthropology Although modern theologians often fail to reflect robustly on the relationship between Christology and anthropology this was not the case throughout church history In this book examine seven key theologians and discover their important contributions to theological anthropology
