Principles of Moral and Political Science, Being Chiefly a Retrospect of Lectures Delivered in the College of Edinburgh Adam Ferguson, 1792      Political Marketing in Retrospective and Prospective Christine B. Williams, Bruce I. Newman, 2014-06-11 Political marketing coalesced as a subfield in the mid 1990s and in 2002 the Journal of Political Marketing began publication This anniversary collection reviews the existing theory empirical evidence and practice of political marketing and explores emerging topics and lines of inquiry within the field While political candidates and their campaigns are a major focus it also considers the broader range of issue advocacy and lobbying The selections expand beyond the U S context to offer a much needed comparative perspective The volume includes material on the effects of new media and technology posing questions about their direction and consequences for political actors and institutions citizens and governmental systems Collectively the chapters illustrate the breadth and depth of a maturing field of inquiry taking the reader through a retrospective and prospective examination of the intellectual grounding and scholarship that comprise political marketing This book was published as a special issue of the Journal of Political Marketing      **A Retrospective View of the Late Political Emergency**, 1790      Retrospective Pledge Voting and Political Accountability Theres Matthieß, 2024-08-17 This book examines retrospective pledge voting the phenomenon of whether and under which conditions citizens are likely to withdraw their support for political parties that have failed to turn their pre election pledges into tangible policies once they have joined government It puts forward a new theoretical framework on retrospective pledge voting Whilst one would expect voters to punish government parties that have broken their promises by refusing to vote for them at the next election little research has been done to show whether and under what contexts this is actually the case Adopting a multi methods approach the book demonstrates that citizens do punish government parties that have shown a poor performance in fulfilling their election pledges and that more sceptical citizens with negative pre existing opinions punish pledge breakage more severely Bringing together research on election pledges government performance and voting the book will appeal to all those interested in democratic representation politics public policy and voter party linkages

Young, 2001 The Institute of Education has been closely involved with post apartheid developments in education policy in South Africa The book examines the current policy dilemmas in South Africa It also provides a sophisticated exploration of the tensions that can occur between and among policy makers and policy researchers as a local vision is translated into reality in a global context At the same time the book provides clear evidence of the value as well as the difficulty of continuing dialogue between these groups which might usefully be heeded in those countries where such interaction too rarely takes place      **A retrospective view of the political year in Europe** Western European Union.
